VOL. 1. NO. 282 PRICE FIVE CENT

AN ACTOR NOW MISSING

SIX INDICTMENTS RETURNED AGAINST HIM IN NEW YORK CITY

FOR ASSAULTS ON LITTLE GIRLS

Was Already Out on a Bond of $3,000 on Similar Charge—The Belief Is That He Has Sailed for Europe.

New York, Oct. 30.—The sudden disappearance of Raymond Hitchcock, the comedian, has not yet been cleared up, and several theories are advanced as to what has become of the missing actor.

One is that he is on a steamer bound for Europe, another is that he has met with foul play, and the third is that he has committed suicide, having become crazed by the accusations against him.

Flora Zabelle, his wife, who is in the cast of the play in which Hitchcock had the leading role, says she knows nothing of his whereabouts. She was completely exhausted today as a result of the strain of the last twenty-four huors. She insists that he has been a victim of foul play and declares that Hitchcock is absolutely innocent of any reason for flight.

Six Indictments Against Him.

New York, Oct. 31.—Late last evening the grand jury filed six indictments against Raymond Hitchcock, an actor. The indictments charge assaults on young girls. Hitchcock was notified through his counsel, Hermann Fromme, to appear today before Judge Crain, of the general sessions. He has been out on $3,000 bail since his arrest on complaint of Helen von Hagen, 15 years old.

Elsie Voecks, Flora Whiston and Helen von Hagen appeared before the grand jury today as witnesses. They were examined by Assistant District Attorney Garvan. Superintendent Moore and Agent Pisarr, of the Gerry society, also testified.

The hearing on Hitchcock's complaint of extortion against Hugo C. Voecks is set for today.

Hitchcock did not appear at either the matinee or night performances yesterday. Morris Kirby, Hitchcock's personal representative, said that the latte had not been seen since 9 o'clock yesterday morning. Mr. Kirby said that it was his opinion that the comedian had sailed on the White Star liner for England.

Kirby said that the actor's wife, Flora Zabelle, called up Mr. Wagenhalls, of Wagenhalls & Kemper, and told him that Mr. Hitchcock had left home at 9 o'clock in the morning, saying that he was going to take a Turkish bath. That was the last seen of him.

Mrs. Hitchcock said that her husband had passed a sleepless night, and said that he wanted to brace up so that he could go on for the matinee. He had only a few dollars in his pocket, but wore his valuable diamond rings. Every bath house in town was called up on the 'phone and many clubs, but no trace of the missing actor was found.

The Hitchcocks moved in from their country home at Great Neck two weeks ago, and of late have been living at the Hotel Flanders.

Mrs. Hitchcock was persuaded to go on at both performances, but she collapsed several times and had to cut out several of her songs.

At midnight Henry W. Savage, who owns the "Yankee Tourist" company, announced that even in the event of Hitchcock's return, he would not star any more in the comedy at the Astor.

"Beery has proved himself a star in a day and night," said the manager. "Tomorrow we will replace Hitchcock's name with Beery's on the electric sign in front of the theater, and hereafter Beery will star through the scheduled run of the production."

BATTLE WITH INDIANS

Report Reaches Washington of Fatal Encounter in Utah.

Washington, Oct. 31.—It is reported that in a battle between United States troops and Indians in Southern Utah, several days ago, three persons were killed and one other wounded. All the dead and injured are believed to have been Indians. News of the occurence was conveyed to the Indian bureau in a telegram from Superintendent Shelton, of the San Juan Indian agency, received here today.

Charlie Mowbray Resigns.

Charles Mowbray, son of Col. Robert Mowbray, former manager of the Economy Steam Heating Co.'s business here, and who has been employed at the plant since his father retired, will also quit the company's service tonight, to engage in other business. Charlie Mowbray is one of Sedalia's very best young men, and the best wishes of a legion of friends will always be with him.

Departure of Bride and Groom.

Thomas Johnson, agent for the Missouri Pacific and Union Pacific railways at Kansas City, Kas., and bride, who were married here yesterday, went to Versailles at noon today to visit the groom's relatives.

DID NOT LIKE HIS NAME

GRANTED PERMISSION BY THE SUPREME COURT TO CHANGE IT.

PINCOSOWITZ WAS SIMPLY AWFUL

Now He Is Known as "Dr. Jacob Kramer," and a Shingle to That Effect Hangs in Front of His New York Office.

Special to the Democrat-Sentinel.

New York, Oct. 31.—Dr. Joseph Pincosowitz is no more. The young physician who formerly bore that name, and whose shingle was displayed from the building at 20 East One Hundred and Seventeenth street, ceased to exist today. He is still very much alive, however, but will hereafter bear the name of Dr. Jacob Kramer, permission of the New York supreme court to change his name having been secured by the youthful practitioner. The court order became effective today, and the unpronounceable foreign name on the door has given way to a sign bearing the doctor's new cognomen, "Jacob Kramer, M. D."

Pincosowitz recently graduated from the Long Island college hospital and began practice in a neighborhood where he was unknown. He soon found that there was something in a name, and his petition for the privilege to hereafter bear the name of Kramer followed.

Pincosowitz, he pointed out in his petition, is a hard name to pronounce and a harder one to remember. He declared that continued use of the name would result in a pecuniary loss and would be a great hindrance to advancement in his profession. Being assured that he owed no money, and that there were no judgments against him. Justice Ford, of the supreme court, granted the relief prayed for.

CIRCUIT COURT ENTRIES

The Several That Were Made on Docket Today.

The following entries were made on the docket in the Pettis county circuit court today:

R. W. Whitlow vs. B. N. Burton, change of venue; judgment for plaintiff for $1,180 with seven per cent compound interest.

Agnes Gatewood vs. city of Sedalia, appellant; rebate merchants' license; dismissed for want of prosecution.

H. S. Tanner vs. Standard Life & Accident Insurance Co., insurance; plaintiff withdraws policy sued on and acknowledges satisfaction of judgment in open court.

General Electric Co. vs. Sedalia Transit Co.; motion for execution; evidence heard and taken under advisement.

R. A. Stanley vs. Sedalia Transit Co.; motion for execution; evidence heard and taken under advisement.

SAN FRANCISCO QUIET

In Spite of Special Holiday Banks Opened as Usual.

San Francisco, Oct. 31.—All the banks in this city opened for business today as usual in spite of the fact that Governor Gillette has declared a legal holiday. A police officer was stationed at each bank, but there was no excitement and but few people except employes were present when the opening hour came The stock and produce exchanges opened as usual.

RATIONS FOR THE NAVY

ONE HUNDRED THOUSAND HAVE BEEN RECEIVED AT BROOKLYN.

ARE TO BE USED IN AN EMERGENCY

The Fleet May Not Have Use for These Rations, but Uncle Samuel Deems It Advisable to Lay in the Supply.

Special to the Democrat-Sentinel.

New York, Oct. 31.—One hundred thousand emergency rations, to be used by Uncle Sam's sea fighters when all other food supplies fail, have just been received at the Brooklyn navy yard from a western packing house.

While such rations have been in use in the army for some time, this is the first time that the navy department has ever placed an order for such food. It is understood that the rations will be taken on the cruise of the fleet to the Pacific, but will be used only in case the ships should be cut off from ordinary supplies.

The ration is packed in cans and sealed under vacuum, and constitutes the greatest triumph yet achieved in compressing nutritious food into a small space. Each can contains a day's allowance for one person, and includes eight ounces of beef, six ounces of parched wheat, eight ounces of chocolate and one ounce of salt and pepper.

The beef is freed from all fat and muscle and is dried under a temperature of 115 degrees, leaving only about 5 per cent moisture. This causes a shrinkage of fully 100 per cent in the bulk of the beef, so that the eight-ounce allowance is equal to a pound of ordinary beef.

The parched wheat and chocolate are also greatly compressed and all moisture eliminated. The rations can not shrink or spoil, and will remain in perfect condition in any climate for many years.

While it is not believed that the fleet will have use for such rations, the navy department has considered it the part of wisdom to be prepared for any emergency.

ELKS OPEN SESSION

"Best People on Earth" Had Happy Time Last Night.

The Elks held another one of their famous social sessions at their hall last night, which was largely attended by members and invited guests.

Dr. W. J. Ferguson was toastmaster and presided with his usual ease and dignity.

After thoroughly enjoying one of the old-time "Dutch Henry" lunches, consisting of roast turkey, potato salad, cranberry sauce, celery and drinkables of various sorts, cigars were passed and the fun began.

There were songs by the Menefee trio, consisting of John, Sr., John, Jr., and Charlie; the sweet-voiced vocalist, "Heinie," Charles Mowbray and C. C. Lawson, wonderful sleight of hand "stunts" by W. E. Hoxie, which even astonished that old stager, "Germo" Combs, and a mock trial, in which Henry V. Leist was accused of selling liquor on Sunday.

Hon. J. H. Rodes presided at the trial, and the state was represented by C. C. Lawson and G. H. Scruton, and the defense by Messrs. Lee Montgomery and H. B. Shain.

The prosecuting witnesses testified to the purchase of goods at the time alleged and were corroborated by others, and even produced the stuff bought, labeled as to time, place and date, but three other men swore to three different alibis, and the defendant to another, and the jury found that if the accused had not been at one of the places he ought to have been, and so rendered a verdict of not guilty.

Another circumstance that helped the defense was that while Mr. Lawson represented the state officially, the other attorney for the prosecution was retained and paid by the Anti-Whisky society, which was represented by W. H. Cloney and W. J. Crouch. This fact created prejudice.

The entire program of the evening was thoroughly enjoyed, and at a late hour the session adjourned.

Mr. Kullman Is Very Ill.

It is reported that the condition of Charles Kullman, a blacksmith, who has been ill with nervousness for several days, is very critical today.

Three Prizes Awarded.

The young ladies of Sacred Heart church gave an enjoyable card party at the school hall last night. Three prizes, a sugar and cream set, a smoking set and a picture, were awarded the winners, whose names seem to be unknown by the majority of the guests who attended. Refreshments were served.

Smashed Up a Wagon.

A dairy wagon, drawn by a team of horses, was smashed up in a runaway accident yesterday afternoon at Eleventh and Ohio streets, but the name of the owner of the vehicle was not known to the Democrat-Sentinel's informant.

TO EASE MONEY STRAIN

FIFTY MILLION DOLLARS TO BE PAID OUT IN NEW YORK CITY TOMORROW.

TO TAKE UP 4 1-2 PER CENT NOTES

They Were Issued By the Pennsylvania Railway Company and Fall Due at Midnight October 31.

Special to the Democrat-Sentinel.

New York, Oct. 31.—Fifty million dollars will be paid out by New York banks tomorrow in taking up the issue of 4½ per cent notes issued by the Pennsylvania company, and which fall due at midnight.

In order to lighten the strain which the payment of so large an amount as $50,000,000 would impose on the money markets, the banking house of Kuhn, Loeb & Co. has taken up, at par and accrued interest, $10,000,000 of the note issue.

The Pennsylvania company now has on deposit with banks in New York and Philadelphia funds with which to take up the $50,000,000 of notes, having recently obtained the greater part of the money from the Union Pacific in payment for the Pennsylvania holdings of Baltimore & Ohio stock.

The banks have these deeposits out in loans, and have to call these loans in order to turn the proceeds over to the Pennsylvania tomorrow. These transactions, it is feared, will lead to a temporary disturbance of the money market, but the situation, it is thought, will be materially helped by the Kuhn-Loeb transaction.

This firm is also the Pennsylvania's banker, and as payments will indoubtedly be made through it, the return of the money to ordinary banking channels will be expedited.

MISS DAVIS' BIRTHDAY

Seventeenth Anniversary Was Celebrated Last Night.

Miss Ollie May Davis, the eldest daughter of Mr. and Mrs. O. C. Davis, of 419 North Quincy avenue, entertained very pleasantly at her home last evening, the occasion being the seventeenth anniversary of her birth.

Games and other amusements whiled away the evening, and the guests departed at a late hour, wishing Miss Olive many returns of the happy event. Refreshments of ice cream and cake were served, and the charming young hostess was the recipient of a number of beautiful presents.

Those present were: Misses Zetta Henderson, Lulu Mae Bower, Gem Leftwich, Irene Leftwich, Maud McCabe, Margaret McMillan, Anna Rector, Lucile McCormick, Mollie Davis, Otis W. Paris, Cyd Bower, Will Rector, Ernest Thompson, Wallace Davis, Oscar Atkinson and Earl D. Lopp.

LOCKS TO BE WIDER

Navy Department Increases Dimension of Projected Panama Locks.

Washington, Oct. 31.—One hundred and ten feet is the width which the navy department has finally fixed upon as desirable for the locks of the projected Panama canal. This is an increase of ten feet in width over the plans on which the commission is now working.

Had Two Initiations.

C. T. Klingler and B. R. Lamm were initiated into Sedalia camp No. 16, Woodmen of the World, at last night's meeting.

THE PURITY CONGRESS

MET AT BATTLE CREEK, MICH., TODAY FOR A SESSION OF SEVEN DAYS.

BE ENTERTAINED FREE OF EXPENSE

Evangelist John H. Roberts, of London, Will Tell of the Great Work Accomplished by the Alliance of Honor.

Special to the Democrat-Sentinel.

Battle Creek, Mich., Oct. 31.—With a meeting of the executive committee and preparatory and devotional exercises, the National Purity congress opened its sessions in Battle Creek today. Distinguished religious, educational, charitable and sociological authorities from all parts of the country are present and will address the congress during the seven days of its sessions. Among those who will speak this evening are Mrs. Anna Sloan Walker, national chairman of the Woman's Prohibition club of America, and the Rev. Fr. J. K. Cleary, of Minneapolis, who will discuss "Christian Purity in the Christian Home."

The congress is being held under the auspices of the National Purity Federation, an association having for its object the affiliation of all organizations in America that are promoting purity in the life of the individual and in social relations. The federation is non-sectarian and its members include Catholics, Protestants and agnostics. Its growth during the last year has been very rapid and its mission now is fully recognized by all religious and reform bodies.

B. S. Steadwell, of LaCrosse, Wis., is president of the federation, and is presiding at the congress. Other officials are Dr. Howard Kelly, of Baltimore, first vice president; the Rev. Dr. Sylvanus Stall, of Philadelphia, second vice president; Mrs. Rose Wood-Allen Chapman, of Brooklyn, recording secretary; Miss Hattie Dickson, Marshalltown, Ia., corresponding secretary; Dr. Carolyn Geicel, Battle Creek, treasurer. The advisory board includes Anthony Comstock, the Rt. Rev. Dr. Samuel Fallows, Evangelist J. Wilbur Chapman, Rabbit H. Peirara Kendes, Judge Ben Lindsay and others equally well known.

All of the delegates will be entertained free of expense at the Battle Creek sanitarium as the guests of Dr. J. H. Kellogg.

One of the most important objects to be considered during the congress is that of conservative and practical methods of imparting instruction in sexual physiology and hygiene and moral education in the home by physicians and ministers.

The white slave traffic will occupy an entire session, and every proof will be offered that there is a thoroughly organized and systematic traffic in girls, whereby they are actually sold into vice, and that this traffic extends throughout this country and foreign lands.

Other sessions will be devoted to legislative matters, law enforcement, social diseases, rescue work and kindred topics.

Among the sixty prominent speakers appearing on the program, including the leading social reformers of the United States, Canada and Europe, are many clergymen and sociological workers who are known throughout the civilized world. Fr. Cleary, who appears upon tonight's program, is foremost among the Catholic priests of the country in the moral reform movement. Evangelist John H. Roberts, of London, will tell of the great work accomplished by the Alliance of Monor, the largest purity society in the world for young men. Anthony Comstock, the famous anti-vice crusader, will also tell of his work.

Other speakers include Bolton Hall, of New York; E. K. Warren, of Michigan; John R. Newcomer, of Chicago; Mary Church Terrell, the eminent colored woman of Washington; Miss M. F. Laughton, of Toronto; Elizabeth Graannis, of New York; Wiley J. Phillips, of Los Angeles; Mrs. M. Evelyn Crompton, of London; Dr. Pohlman, of Philadelphia; Dr. Emma F. A. Drake, of Denver; the Rev. L. L. Pickett, of Kentucky; Miss Sevasti Callisperi, of Athens, Greece; Lucy Page Gaston, of Chicago, and Arthur Burrage Farwell, of Chicago.

With such aggressive reform and religious leaders in conference for an entire week, it is expected that the congress will accomplish much of value toward the solution of many of the social, economic and personal problems which lead to vice, and result in the so-called "crime waves" which from time to time sweep over American cities. In this connection, the charge that the press of the country is responsible for the spread of crime waves, by printing full and inflaming details of outrages, will be considered at length.

Among the organizations represented at the congress are the Women's Christian Temperance union, Society for Suppression of Vice, American Woman's Suffrage association, National Friends' society, Christian Endeavor society, Epworth league, National Child Labor society, International Helping Hand society, Royal Templars, Sunshine society, Alliance of Honor and National Council of Jewish Women.

LESS BEER FOR A NICKEL

THE LEADING BREWERS OF THE WEST HAVE DECIDED TO THAT EFFECT.

"SCHOONERS" SOON TO BE SCARCE

Everything Else Has Advanced, But the Beverage That Cheers and Does Not Inebriate Remained Stationary.

Special to Democrat-Sentinel.

St. Louis, Mo., Oct. 31.—Following close on the financial panic, the people of the United States will soon be called upon to face another national calamity. The price of beer is to be raised!

This action has been decided upon by the leading brewers of St. Louis and the west, and will probably be ratified at a meeting to be held here tomorrow. It is expected that similar action will be taken by the big brewing companies of Milwaukee and other cities.

As a result, smaller glasses of the joy-inspiring extract of hops will be dispensed over the bars of the country, and a considerably increased expenditure will be necessary to acquire a "souse" by the beer route.

The contemplated raise is from $6 to $7 a barrel. The increased cost of hops and other materials, and the large payrolls demanded by brewery workmen, is given as the reason for the raise.

Leading brewers here state that such a raise is necessary if the brewing corporations are to receive a fair margin of profit on their investments.

It is pointed out that while the price of all other necessities and luxuries of life has greatly increased within the last few years, the price of beer has remained stationary.

NEW MEN IN CHARGE

The Hotel Huckins Deal Was Closed This Afternoon.

Messrs. Norris & Lush, of Chillicothe, will assume the management of Hotel Huckins tomorrow, the deal to that end having been consummated this afternoon.

The new owners have purchased of John McGrath all of the furniture and fixtures of the hostelry, the consideration being $10,000 cash.

In addition, Messrs. Norris & Lush have leased the hotel building of Mr. E. G. Cassidy for a term of five years, at a rental of $400 a month.

Mr. McGrath serves his farewell meal at the Huckins at the supper hour tonight. He is still a partner of E. R. Mathews in conducting the Antlers hotel, however, and will be found there in future.

A CHICAGO MAN COMING

He Will Be Guest of the Men of Broadway Presbyterian Church.

The men of the Broadway Presbyterian church are to have a social gathering in the lecture room of the church on Saturday night, under the auspices of the Brotherhood.

Rev. C. E. Bradt, D. D., of Chicago, a man who has done a remarkable work among men, will be the guest of honor and deliver an address. There will be music and light refreshments and a very pleasant evening is anticipated.

Dr. Bradt will preach Sunday at the Broadway church.

THE RED DEVIL MEETING

AMERICAN AUTOMOBILE ASSOCIATION IN SESSION IN NEW YORK.

INDEPENDENT SHOW IS A SUCCESS

A General Convention is to Be Held On November 8.—The Principal Business is Good Roads Problem.

Special to the Democrat-Sentinel.

New York, Oct. 31.—Beginning With a meeting of the executive committee this morning, the American Automobile association will hold more gatherings of importance during the coming week than during any previous show season.

Today's session was held in Grand Central palace, this being the final day of the indepenedent manufacturers' show in that building. Only preliminary measures were considered.

The independent show has been a great success, and the prospects are even more flattering for the exhibition of the licensed auto makers, to open in Madison Square Garden Saturday evening.

The annual meeting of the American Automobile association stockholders will be held Wednesday in Jersey City.

Next Thursday the directors will meet and an effort will be made to secure a large attendance, so that they may be present at the general convention on November 8.

The latter meeting will be held at the headquarters of the American Athletic association, in Fifth avenue. The principal subject to be discussed, good roads, is one in which every autoist is interested, and invitations have been extended to all the prominent exhibitors in the Madison Square Garden show to be present and take part in the consideration of the subject from the autoists' standpoint.

Robert P. Hooper, chairman of the good roads board, will have general charge of the discussion.

DR. PHIL LAMM TO LEAVE

Will Take His Departure in a Few Days for Texas.

Dr. Phil Lamm, son of Henry Lamm, judge of the supreme court of Missouri and one of Sedalia's prominent young dentists, has given up his practice in this city, and within a few days leaves for San Antonio, Tex., for an indefinite visit. He is closing his office today.

Poor health is the cause of Dr. Lamm's retirement for the time being. His intention is to engage in some business that will assist in upbuilding instead of pulling down his general constitution.

The best wishes of a legion of friends in Sedalia will always be with him.

OMAHA PUTS ON LID

Mayor of Nebraska's Chief City Orders Theaters Closed on Sundays.

Omaha, Neb., Oct. 31.—Mayor Dahlman today issued a proclamation calling upon all theaters and other amusement places and all business concerns which have been kept open Sundays to obey the law by closing their places on that day in the future. The proclamation commands the chief of police to enforce the order.

NONE FATALLY INJURED

Passengers in Rock Island Wreck Will Soon Resume Journey.

Topeka, Oct. 31.—None of the eight persons who were injured last night in the derailment near Herrington, Kansas, of west-bound El Paso passenger train No. 23, on the Rick Island, are fatally hurt. They were brought to the company's hospital here and it is stated today that they will probably soon be able to resume their journey.

Bride and Groom Heard From.

Relatives in this city are in receipt of a postal card from Louis Carroll and bride, formerly Miss Opal McArthur, sent from Cincinnati, O., saying they arrived there safely and would leave immediately for Manchester, O., to reside.

REMEDY BAD FOR LEGISLATION.

The endless amount of litigation involved by the multitude of laws that are constantly being enacted, and the frequency with which many of these laws are held to be unconstitutional, call for a change in policy which will prevent the passage of Tom-fool bills, decrease the business of the courts and assure the validity of the laws which are placed on the statute books.

Numerous suggestions have been proposed as a remedy for this state of affairs, the most feasable of which appears to be a system by which all bills which are sought to be introduced shall first be submitted to the court of last resort, in order that the constitutional features may be passed upon in advance. This would eliminate all proposed legislation which would not stand the legal test, and these questions having been thus anticipated, the time of the legislature would not be taken up in the consideration and discussion of them, nor would the court dockets be congested with cases of this character, which now obstruct other litigation.

So long as the present system of electing men to law-making bodies without regard to their capabilities, their tact or their training for dealing with the character of work entrusted to them is continued there will be a greater number of needless, if not absolutely harmful measures proposed, and, just as there have been in the past, a higher court could readily find an excuse to throw them out.

This idea at last is founded on the old adage, "An ounce of prevention is worth a pound of cure," and some method which will prevent useless and bad laws will be far better for the state than the present system of taking up the time of courts and juries in trying cases under them.

RAILROADS AND WRECKS.

At the rate railroad horrors continue to multiply, railroad officials can not complain if public sentiment becomes aroused to a point where legal regulations are demanded in order to enforce security of lives and limbs.

Seldom a day passes but what more than one fatal wreck is reported, it is not infrequent that more than half a dozen wrecks occur, with the number of killed exceeding a score. No matter how unavoidable these wrecks in the main may be, the railroads must expect severe criticism, and the very fact that they can not prevent them, if such is true, is a good excuse for asking that legal regulations be made which will prevent them.

The railroads are undergoing a fire of criticism just now concerning their methods of business, in which a great deal of prejudice is manifested, and they may be assured that this prejudice will not be allayed by a neglect of the public's safety.

If there ever was a time when the relations between the railroads and the people were such that a serious crisis was imminent, that time is now, and the railroads will do themselves untold harm if they do not assume a conservative, tolerant and prudent attitude in facing this threatening crisis, because public sentiment, becoming constantly more inflamed, is fast coming to a stage where radical steps may be taken, and it is largely for the railroad people to say whether these steps may not be so drastic that their interests may not suffer thereby.

A REPUBLICAN PATRIOT.

General Grosvenor, of Ohio, who was repudiated by the people of his congressional district before the last election, has returned from a trip to England, and is reported to be a more intense stand patter on the tariff than he ever was before. That is arely possible, but the general probably feels that his only chance to get a new hold on his district is to keep in close touch with the Protective Tariff league, and its trust backers, for a good generous campaign fund has been known to overcome the objection of a republican convention if adroitly joined with an appeal "for the old flag and an appropriation," and some federal appointmetns, such as postmasters and internal revenue officers thrown in for good measure.

JOHNSON BOOM SPREADING.

Governor Toole, of Montana, when in Chicago a short while ago, reported that his state is for Bryan, if the Nebraska lader wants the nomination, but that "otherwise Montana is strictly and strongly for Governor John A. Johnson, of Minnesota."

As Governor Toole is one of the most reliable, active and able democratic leaders of the northwest, none is better able to guage public opinion than he is, for he knows all the people of Montana, and is beloved of the democrats and respected of the republicans.

According to the statisticians, there are 6,397 different kinds of intoxicating drinks used in the world. And each one probably develops a different kind of headache for the morning after.

A Wall street paper says money will be "easy" about the middle of November. Nobody ever heard of it being easy about the middle of December.

Evidently the Massachusetts democrats believe in living up to the modern democratic idea—any old thing, except to get together and win.

At any rate, it will have to be admitted that Pittsburg speculators have shown commendable self-restraint for nearly a week now.

The way things are going, it will soon be a shorter trip, in point of time, to cross the Atlantic than to reach the top of a skyscraper.

A MOB THREATENS HIM

MRS. HOPKINS, OF KINGSTON, MO., DIES FROM CARBOLIC ACID AT LAWTON.

THE DRUG FORCED INTO HER MOUTH

Acid Blinds Helpless Woman—Her Head Cut With Axe—Infuriated Husband Attempts Suicide, But Still Lives.

Lawton, Ok., Oct. 31.—A mob, bent upon rushing the jail and taking John Hopkins, a prisoner, began forming here at 8 o'clock last night, shortly after Mrs. John Hopkins died of injuries at the hands of her husband. Hopkins is in a semicomatose condition, the result of his attempt at suicide with morphine.

Hopkins, who lives at Kingston, Mo., attacked his wife at the home of her sister, Mrs. J. J. Gaylon, here, late Tuesday night with a meat axe and inflicted cuts and bruises about her head and face. Then he threw her to the floor, pried open her mouth with the axe handle and administered a large quantity of carbolic acid, drops of which entered her eyes, making her blind.

Hopkins then swallowed morphine and rolled on the floor beside his moaning wife.

Mrs. Hopkins came here from Kingston several weeks ago, while her husband was serving a jail sentence for beating her. He was discharged from jail last week and followed her here. Taking advantage of her being alone, Tuesday night, he entered her home and began the assault. His purpose was explained in a letter found in his pocket and addressed to a brother in Missouri.

In the letter he states, "I have been treated meaner than I can stand. You will hear from or of me soon, perhaps for the last time."

Mrs. Hopkins lingered almost twenty-two hours. Gradually the acid became effective, claiming its victim at 6:30 o'clock tonight. When residents learned of Mrs. Hopkins' death they gathered about the jail. Officers are prepared to resist any attempt to lynch the prisoner.

PAIR OF FATAL ACCIDENTS

After Returning From the Funeral of Her Brother.

Hartford City, Ind., Oct. 31.—Doubly bereaved is Miss Olie Leonard, of this city. Visiting in Evart, Mich., her former home, she was called back to attend the funeral of her brother, Clarence, who, while playing "wild west" with his nephew, Lee Leonard, was accidentally shot and killed.

Her sweetheart, Walter Moore, of Evart, started home with her and her sister, Hazel. Reaching Fort Wayne they were unable to proceed until morning, and apartments were taken at a hotel, a call for 6:30 being left.

In the morning the bellboy was unable to arouse Moore, and there being a smell of gas his room was broken into. He was found asphyxiated, and natural gas was flowing from the unlighted burner. There was nothing to indicate suicide, and it is supposed he blew out the gas on retiring.

The Misses Leonard came here and attended the funeral of their brother. They will return to Fort Wayne and accompany Moore's remains to Evart, where they will be buried. He was a well-known young farmer of the community.

MEETING OF BAPTISTS

General Oklahoma Convention Meets at Ardmore, I. T.

Special to the Democrat-Sentinel.

Ardmore, I. T., Oct. 31.—The Baptist general convention of Oklahoma, composing one of the largest and most representative religious bodies of the new state, convenes today in the Broadway Baptist church.

Delegates, both lay and clergy, from all over Oklahoma and Indian Territory, will take part in the sessions.

HAPPY WOMEN.

Plenty of Them in Sedalia, and Good Reason for It.

Wouldn't any woman be happy,
After years of backache suffering.
Days of misery, nights of unrest,
The distress of urinary troubles,
She finds relief and cure?
No reason why any Sedalia reader
Should suffer in the face of evidence like this:

Mrs. T. B. Young, of 714 East Fourth street, Sedalia, Mo., says: "I can simply state that I owe my thanks to Doan's Kidney Pills on account of relief I obtained from their use. For two or three years I suffered from dull aching and lameness in my back, extending at times clear up to the top of my head, and often after stooping when I straightened up there would be a swimming in my head and a blurring of the eyesight so that I could hardly stand. Doan's Kidney Pills have given me greater relief from these troubles than any other medicine I ever used. It is a pleasure to recommend to others a remedy which proved of such great merit as yours did in my case."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Are you going to be at the masquerade, Hallowe'en eve at the Liberty park skating rink?

TEACHERS CANNOT UHIT

ONLY DEATH OR MARRIAGE, IT IS SAID, WILL RETIRE EDUCATORS.

WILL NOT ACCEPT RESIGNATIONS

The East St. Louis School Board Has Long Considered the Subject and Finally Came to the Above Conclusion.

East St. Louis, Ill., Oct. 31.—Teachers in East St. Louis schools cannot resign until they die or get married, according to the latest ruling of the board. Just how they are to resign after they die is not made clear, but they must either do that, choose a husband or continue teaching.

This is to prevent wholesale resignations on account of discontent with small salaries and with frequent meetings during the week. The teachers have been notified that a 30-days' notice is not enough, and that they must fill out their contracts.

J. S. Pidgeon, secretary of the school board, was censured Tuesday evening by the board because he gave Miss Annie Evans her salary after she had resigned, but before her resignation had been accepted. She quit as soon as she got her pay to the time of resignation.

Miss Jessie Houghtlin, of the Emerson school, has also resigned, and there are two others whose names have not been made public.

KENTUCKY CONFEDERATES

Annual Meeting Is Being Held at Pewee Valley.

Special to the Democrat-Sentinel.

Pewee Valley, Ky., Oct 31.—Kentucklans who fought with the south in the civil war are assembled in large numbers at the Kentucky Confederate home, where the annual reunion of the state division, United Confederate Veterans, was called to order today by Commander Bennett H. Young, of Louisville.

One of the most noteworthy features of the encampment will be the dedication of the L. Z. Duke assembly hall, recently completed. Mrs. L. Z. Duke, of New York, who contributed the money for the erection of the beautiful structure, will be the guest of honor at the dedicatory ceremonies. Addresses will be delivered by many well known Confederate veterans.

LADIES COATS

ur Ladies' Coat Department presents a busy scene these days, and there must be a cause for it. The cause is this: The values we are giving cannot be equaled elsewhere in the city for anything like the same money.

Our coats are first in point of style and quality at medium cost; they have that custom look, that perfect fit, the swagger style of the higher priced cloak stores and at a great deal less cost.

No. 194—Ladies' ¾ length coat in black or castor color, of a fine kersey cloth; satin lined shoulders; the front, back and cuffs are elaborately trimmed in handsome silk braid; a 54-inch coat, and finished thoughout in a maner that is befitting to the higher priced garments, and our price is $10.00. We have given special attention to these medium priced goods and we earnestly invite comparison. Our Dress Goods Department is replete with the newest and best. Make this department a visit and we guarantee to please you in style, quality and price.

OUT FOR LOCAL OPTION

TWENTY-FOUR COUNTIES DEMAND ELECTIONS ON LIQUOR ISSUE.

KANSAS CITY PLAN NOW IN DOUBT

Revenue Derived From License Fees May Go for Road Improvement in Jackson County—Anti-Saloon League in it.

Jefferson City, Mo., Oct. 31.—The Missouri State Anti-Saloon League, not in the least discouraged by failure to secure the passage, through the recent session of the general assembly, of Senator Peck's resolution to submit to the voters of the state a proposition to adopt prohibition in Missouri, has gone with renewed activity into the agitation of local option.

There are three counties in which elections on that subject have been ordered, with twenty-one others in which petitions are being circulated to be presented to the county courts, praying those courts to order election on the proposition.

This list of twenty-four counties follows: Boone, Bates, Barton, Charlton, Caldwell, Cass, Clay, Daviess, Grundy, Jefferson, Jackson, Knox, Linn, Lawrence, Livingston, Moniteau, Miller, Monroe, Maries, New Madrid, Pulaski, Pike, Scott, Vernon.

Elections have been ordered in Moniteau, Vernon and Pulaski. In Vernon county the city of Nevada votes separately from the remainder of the county, and in that city the Business Men's League has taken up the fight in opposition to the measure.

In Lawrence county the city of Aurora votes on its own account, and there a newspaper has been established in opposition to the adoption of the proposition.

In Jefferson county, DeSota holds a separate election, and the result may be either in harmony with or against the verdict of the remainder of the county.

In Pulaski, though an election is to be held, there is but one saloon at this time, though only a short time ago there were four, two at Dixon, one at Crocker and one at Waynesville. The one remaining is at Dixon.

In Jackson county, should the election be ordered, Independence, it is understood, will be inclined with the county, but Kansas City will not be taken in.

An interesting point has arisen there, and that is as to whether any portion of the revenue derived from saloon licenses in Kansas City should go to the improvement of the roads in the county in case the county goes "dry."

In Boone county the first round has been fought over the Pemberton five-mile law, which prohibits the location of a saloon within five miles of the state university, and the friends of the measure won out, Circuit Judge Evans holding that the act was constitutional. It is to go to the supreme court.

The following list, prepared with great care, and believed to be accurate, gives fifty counties in which local option is either in force or is soon to take effect, showing that but seven more counties need to be carried to make half the state "dry":

Atchison, Barry, Bollinger, Christian, Cedar, Camden, Callaway, Carter, Dade, Dent, Douglass, Dunklin, Dallas, DeKalb, Gentry, Greene (outside of Springfield), Harrison, Henry, Howell Hickory, Lincoln, Laclede, McDonald, Madison, Marion (outside Palmyra and Hannibal)' Mercer, Mississippi, Morgan, Newton, Nodoway (outside of Maryville), Oregon, Ozark, Pemiscot, Putnam, Polk, Reynolds, Ripley, Schuyler, Scotland, Shannon, Shelby, Stoddard, Stone, St. Clair, Sullivan, Texas, Wayne, Webster, Worth and Wright.

In but three counties in which the measure recently has been voted upon was it defeated, these being Benton, Lewis and Iron.

SAW WIFE BOARD TRAIN

ESCORTED HER TO THE DEPOT TO GO AND VISIT HER DYING MOTHER.

THEN WENT AND SHOT HIMSELF

Sad Experience of a Bridge Builder Who Had Lost a Fortune Dallying With Cards at the Gaming Table.

Dayton, Ohio, Oct. 31.—Disheartened over his losses at the gambling table and at the race track, J. C. Morrison, popularly known as "Kirk," a prominent bridge builder, early yesterday morning shot himself in the head while seated in an easy chair in an upper room of Wagner's cafe, on Main street. His dead body was found by an employe, who saw a glistening revolver in his hand and a note addressed to the coroner on the table near by.

Morrison spent the greater part of the night preparing for the deed. He wrote a letter to his wife, which will be delivered as soon as she arrives home from Ripley, Ohio, where she was called the latter part of last week by the critical illness of her mother. In another letter he paid a beautiful tribute to his wife and attributed his downfall to gambling.

Though it was reported that his finances were in bad condition, it is stated here that his estate, which is left to his wife, is large. On Saturday he made his will, Attorney Kline assisting him, and it is evident that his deed was premeditated. On the day previous he had accompanied his wife to Cincinnati to see that she safely boarded a train for Ripley. Upon his return he is said to have made several plunges at gambling, losing heavily.

Morrison is survived by his wife and one son, Clifford C. Morrison, of Seattle. Mrs. Morrison's sorrow is augmented by the fact that her mother is believed to be on her deathbed.

"Kirk" Morrison had a wide acquaintance and was known as a "hale fellow well met." Years ago he was associated with his father in the business of the Columbia Bridge company, which erected many large structures in Ohio. Later he opened business for himself and proved successful. He recently secured a number of substantial contracts in this and other Ohio counties.

A short time ago the property at the corner of Fourth and Ludlow streets, in which he was largely interested, was sold for $65,000. He had other realty interests, but the major part of his fortune is believed to have been lost in gambling.

Investigation develops that he attempted to talk over the phone with his wife in Ripley last night, but was unsuccessful. He was greatly devoted to her and their home life was ideal.

COUPLE NOW MARRIED

Were Arrested After Speer's Death by Poisoning.

Lima, Ohio. Oct. 31.—Ina L. Speer and Arnold B. Crouse, who for a time languished in jail, arrested in connection with the death of the woman's husband, were united in marriage yesterday. The ceremony was performed by the mayor.

David E. Speer, who was a well-known contractor, died in July from arsenical poisoning, and shortly thereafter Mrs. Speer was placed under arrest and the coroner began an investigation of the case.

Later, Crouse, who was said to have been a frequent visitor to the Speer home and was referred to by neighbors as the woman's sweetheart, was also apprehended. He left the city about the time of Speer's death, but was located in Indiana after a prolonged search and brought back.

Both Mrs. Speer and Crouse vigorously denied their guilt, and the grand jury, after a thorough investigation, failed to indict.

Contractor Speer was a man of considerable means.

Stomach troubles, heart and kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its restorative action upon the controlling nerves of the stomach, etc. Sold by W. E. Bard Drug Co.

A "FREE LOVE" EDITOR

Says He "Will Rot in Jail" Rather Than Recant.

Special to the Democrat-Sentinel.

Indianapolis, Ind., Oct. 31.—Charged with sending defamatory and libelous matter through the mails, in that he addressed a letter to "Teddy Bombastes Furioso, Executive Mansion, Washington." Charles M. Dyer, editor of the Mirror, will appear before a United States grand jury early next month.

The journal published by Dyer is in advocacy of "scientific eugenics," or improvement of the race by methods similar to those advocated by adherents of the free love cult. Dyer is also a socialist.

The letter has not been opened, the offense being in the address itself. Dyer declares he will "rot in jail" rather than recant his opinion of the president.

AN ELEPHANT STROLLS

THEN THINGS HAPPENED FOR AN HOUR OR SO IN JERSEY CITY.

CAUSED SENSATION OF THE SEASON

Women Fled and One Man "Came to" With the Beast's Trunk on His Bald Head—Scattered Cigars in the Street.

Jersey City, N. J., Oct. 31.—A frolicsome elephant on his way from Coney Island to Atlanta, Ga., got away from his Egyptian keeper in Exchange place for more than an hour yesterday.

The big animal was about to be loaded into a box car opposite the ferry. When prodded the elephant backed out and started on a trot up the street. Hundreds of women and girls with visions of being picked up and thrown over roofs ran screaming into doorways. In a minute the entire street was panic stricken. The elephant held the street. His conquest was so easy that he trumpeted his joy.

Then the jollity of his big nature sought some egress. He walked quietly down the street a block to a place where his presence was still unknown.

John O'Hare, bald headed and nervous, was at a desk in the office of the Adams Express company near an open window, when he felt a strange sensation behind one ear. He was too frightened to move and the shriek of the girl assistant almost made him faint.

The elephant had extended his trunk through the window as a greeting and was caressing O'Hare's cranium. O'Hare was almost paralyzed with fright and stood it as long as he could, then he bounded with a yell through the back door.

The elephant continued his stroll. When he was directly in front of Jacob Witz's cigar house the elephant's big trunk stole through the door and into a cigar case. Lifting a box of clear Havanas he backed into the street. Then he threw the outfit over his head, scattering good smokes in all directions.

His keeper dashed up in a carriage, then whispered something in one of his big ears and the elephant walked quietly to the station, up the plank and into the box car. He is now far on his way to Atlanta.

No Argument Is Half So Convincing

As the evidence of your own eyes. I want you to come and see—the woolens—the patterns the shop—the master tailors—and learn what little money it really takes to produce a high grade suit when its done on scientific principles. A suit just as you would best like it, and have that satisfied feeling of being well dressed—and at a saving, too. As I've said once before: "If I can't show you, keep your money."

DON'T SWALLOW DRUGS FOR SKIN AFFECTION.

Discovery Proved That Skin Disease Exists in the Skin Only—Cure the Skin Through the Skin.

The old method of trying to cure skin disease by treatment through the blood by way of the stomach has now been given up by all scientists. It has been proved that the only sure way to relieve and cure skin disease is by treating the disease where the disease is.

The remedy discovered and used by Dr. Decatur D. Dennis in his practice with such remarkable success in cases of eczema, psoriasis, ring worm, barber's itch and other such diseases and which he finally gave to the world under the name of D. D. D. Prescription, is now effecting almost miraculous cures everywhere.

Thousands of people have written warm personal letters testifying to the wonderful results obtained by the use of this remedy, especially in connection with D. D. D. soap. One valuable feature is that it stops all itch and burning instantly, immediately relieving the patient of agony and suffering, while continued applications effect a positive cure.

Just read this: "Your D. D. D. Prescription is the best remedy I have ever used for eczema. It does all you claim for it, and I can't help feeling grateful to you. My son suffered with ring worm and scald head for four months. His head was something awful. All his hair came out. Nothing would cure him. Then we bought D. D. D. Two bottles with your advice cured him and he has had no return. His hair came in thick and beautiful."—A. M. Seelen, Mariner's Harbor, L. I., N. Y.

We carry D. D. D. in stock because we know it cures skin diseases. Come in and let us prove what it has done for others.—W. E. Bard Drug Co.

Thomas A. Edison, the great American inventor, says: "Fully 80 per cent of the illness of mankind comes from eating improper food or too much food; people are inclined to over indulge themselves." This is where indigestion finds it beginning in nearly every case. The stomach can do just so much work and no more, and when you overload it, or when you eat the wrong kind of food, the digestive organs cannot possibly do the work demanded of them. It is at such times that the stomach needs help; it demands help, and warns you by headaches, belching, sour stomach, nausea and indigestion. You should attend to this at once by taking something that will actually do the work for the combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by Arlington pharmacy.

CANNIBALS ATE A CREW

IS BELIEF ON THE MARITIME EXCHANGE IN CITY OF NEW YORK.

SHIP "ARTHUR SEWELL" MISSING

Was Carrying Coal for the Big Fleet, and It Is Believed Vessel Was Near Cape Horn Some Time in August.

New York, Oct. 31.—That the big sailing ship Arthur Sewall, laden with coal for the United States fleet in the Pacific, has been wrecked close to Cape Horn and her crew of forty eaten by cannibals who infest the island near Terra del Fuego and the Straits of Magellam, is believed on the Maritime Exchange.

Since the Sewall sailed away from Philadelphia on April 3, bound for Seattle, via Cape Horn, not a word has been heard from her until yesterday, when a letter was received by the Maritime Exchange which seems to indicate that one of the biggest of the square rigged ships in the merchant marine has foundered.

The letter was from the Straits under date of August 31. It stated that on August 23 the sealing steamer Fridtjof arrived and reported that while cruising near the southeast headland of Noir island, half way between Cape Pillar and Cape Horn, she sighted a derelict which is believed to be the Sewall.

The derelict was a four-masted, square rigged ship. Only the top masts were above water and the royals were set.

The Fridtjof cruised about the neighborhood in the hope of getting some trace of the crew, as it was evident the wreck was recent.

On the shore of Noir island they found indications that they had landed, but though searching parties were sent out nothing further was discovered.

The skipper of the Fritjof feared to allow his men to leave the coast and search the interior, owing to the presence of hostile savages.

In the belief that the wreck is that of the Arthur Sewall, divers have been dispatched to Noir island to make an examination of the ship.

The Sewall, which has been out 206 days, was commanded by Captain Gaffey. She was owned by Arthur Sewall & Co., Bath, Me., and was of 2,119 tons net register.

Thinness of Soap Bubble.

About the thinnest thing in the world is the film of a soap bubble. It would take about 50,000,000 of them to measure an inch.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol For Dyspepsia

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. For Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

NEW SEDALIA THEATER.

A large company of selected artists, headed by the versatile French actor, Herbert DeGuerre, will present "A Bachlor's Honeymoon" Friday, Nov. 1, at the Sedalia theater. Oakes & Gilson, who own and control the production, have spared no expense in staging the play and in selecting the cast. The greatest success New York theator goers have accepted for years. Secure seats at usual place, which are now on sale.

"Ma's New Husband."

Messrs. Scott and Raynor, whose new musical farce, "Ma's New Husband," will be seen for the first time in this city next Sunday evening at the New Sedalia theater, are carring away the honors this season in the "laughing world. This brilliant and humorous musical comedy of theirs

A Scene in "Ma's New Husband," Sedalia Theater Sunday Night.

—for that is just what it really is—has left behind it, in every city played, a veritable ocean of good humor and good will. Bright and clean as a coin from the mint, "Ma's New Husband" affords delightful entertainment to old and young. It is performed in an atmosphere of laughter and there are no tears except those which laughter brings. Save doctor bills by reserving seats early.

AT WOOD"S OPERA HOUSE.

Result of Suicide's Shortage.

Akron, Ohio, Oct. 31.—Joseph Dangel, president of the Dollar Savings bank, of this city, was appointed receiver of that institution today in consequence of the suicide of Fred A. Boron, cashier, last Sunday. Boron was short $38,000, which is amply secured.

WHO USES HYOMEI?

The Best People in Sedalia, Say Bard Drug Co.—Guaranteed in Catarrhal Troubles.

No other remedy or treatment for catarrh has ever been as popular or made so many remarkable cures in Sedalia as Hyomei.

The best people attest its curative virtues, say the W. E. Bard Drug Co., who are the local agents. The fair way in which Hyomei was sold, to refund the money unless it gave satisfaction, was the best proof when it was introduced that it possessed unusual curative powers. The W. E. Bard Drug Co. takes all the risk of the treatment giving satisfaction, and leaves the purchasers to be the judge.

Later, when Hyomei was used and recommended by our well known physicians and business men and their wives as a treatment that absolutely cured catarrh, no matter how serious or long standing, the sales rapidly grew and today there is no other remedy in W. E. Bard's stock that has such a large and staple sale.

The first breath of Hyomei's healing air kills all catarrhal poison.

Try Hyomei today on W. E. Bard Drug Co.'s offer to refund the money if the treatment does not give you satisfaction.

TRICK BY TOM JOHNSON?

AN OFFICIAL OF THE ROAD SUPPORTING MR. BURTON IS INDICTED.

THE CAMPAIGN WAXING WARMER

Subornation of Perjury in Election Fraud Case the Charge, but Maybe It's Merely a Political Move.

Cleveland, Ohio, Oct. 31.—Indicted by the Cuyahoga county grand jury for trying to influence witnesses before the grand jury in election fraud cases, John J. Stanley, vice president and general manager of the Cleveland Electric road, at which the shafts of Mayor Tom L. Johnson are leveled, outfooted the sheriff yesterday and surrendered himself in the county jail before the warrant could be served on him in the railway office.

He was released on $500 bond signed by Patrick Ward, one of the company's inspectors, who followed Stanley into the jail office. Stanley will plead today. He regards his arrest as an attempt to gain election prestige for Johnson.

"This is Tom's inning," he said, referring to the mayor. "Mine will come later. I am not apprehensive."

Stanley's indictment, which has been hinted at for several days and discounted by the newspapers supporting Representative Theodore E. Burton for the mayoralty, as the employment by the mayor of an old political trick in the effort to discredit the Cleveland Electric railway. The latter company is supporting Mr. Burton's traction proposal, which was to offset a 3-cent fare issue of Mayor Johnson.

Several employes of the corporation were questioned as to their moving into the city wards just in time to register for this fall election and two said Mr. Stanley called them to him and instructed them how to answer questions.

TEDFORD IS REINSTATED

SUPREME COURT UPHOLDS THE DEPOSED INSPECTOR OF GRAIN.

HE WAS FIRED BY COMMISSIONERS

There Was No Cause for Removal, So He Is Reinstated and Will Receive His Salary for the Time He Was Off.

Jefferson City, Mo., Oct. 31.—The Missouri state supreme court was in session a few minutes yesterday afternoon, meeting simply to hand down an order in the case of Fred H. Tedford.

In January last the state board of railway and warehouse commissioners removed Mr. Tedford from the chief inspectorship of the grain department at Kansas City, and Mr. Tedford objected, contending that he was appointed for a definite term and could not be removed without cause. Then charges were filed against him and the matter came to the supreme court.

The court yesterday issued an order reinstating him, quashing the action of the commissioners and adjudging that Mr. Tedford was entitled to the emoluments of his office from the date of his dismissal and that the costs of the proceedings be assessed against the commissioners. Mr. Tedford's term expires Nov. 1.

CERTAINLY WORTH TRYING

Says Many Persons Here Can Be Made Happy Again.

There is so much rheumatism here now that the following advice by an eminent authority will be highly appreciated by those who suffer.

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to take up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Louis Knoop and Bert Wright, the butchers, left for Duroc Sunday to buy cattle and hogs. They took their guns with them.

John Mehrens, a wealthy farmer of the Ionia neighborhood, was in town Tuesday, trading with our merchants.

Louis Bohling and several other citizens, with a pack of hounds, went wolf hunting Monday. They came back tired, but without a wolf scalp.

Henry Frank, who lives south of this place about five miles, killed two old wolves last week. Henry claims it pays better to hunt wolves without dogs.

Gus Kreisel went home Saturday to attend the funeral of Her. Lumpe, near Lincoln, who waas buried last Sunday.

John Harvey and wife, from Lincoln, visited here over Sunday with their son-in-law, T. Neff, and Virgil Ransdell. They went home on Monday.

J. A. Bowers, representing the Democrat-Sentinel, was here Monday, collecting and getting new subscribers for the paper. He also called on your correspondent.

William Eickhoff and his force of men are still building new concrete walks. He says if this kind of weather keeps on he will have to quit before he gets all over the town.

J. H. Junge has been confined to his bed for several days with a cold.

Her. Kroenke, one of our citizens, went out in the country Monday to assist Her. Koenke putting new shingles on his house. While Mr. Kroenke was on the roof he slipped and fell to the ground and was badly hurt.

Peter Gerdts and Miss Katie Balke were married last Thursday by Rev. Schreiber at the home of the bride's parents, Mr. and Mrs. Hy Balke, about thirty families being invited. The young people received many nice presents.

Cord Koenke and family attended the Gerdts-Balke wedding last Thursday and reported a fine time.

Claus Kahrs and wife, who live near Lincoln, were in town one day last week, trading. They may move here next spring.

M. D. Moore, cashier of the Citizens' bank, who was hurt by a horse falling on his leg, is again attending to his duties at the bank, and is as jolly as ever.

J. B. Arvieux has sold his farm and will move to town in the spring.

Chris Gerlt, who has been in Sedalia for several weeks under the care of Dr. A. J. Tucker, came home last Saturday, not much relieved of his catarrh in the head. He will soon return to Sedalia.

COBBLER RETURNED $350

Old Shoe Was Woman's Bank, but Husband Didn't Know It.

Hartford City, Ind., Oct. 31.—Today, when Henry Goddard, a cobbler, picked up an old shoe from a pile that was to be repaired and turned it upside down to place it on the last $350 in money rolled out into his apron.

So utterly dumbfounded by his discovery was the old shoemaker that he was unable to move for several minutes. The shoe belonged to James Parker, a well known hotel keeper, but when Goddard told him about the money he didn't know anything about it.

Some time afterward Parker's wife missed her money, and it was then that the story came to light. Mrs. Parker had received the money from her mother and, distrusting the banks, hid it in the shoe for safe keeping.

RING WORM AND DANDRUFF.

They Are Each Caused by a Pestiferous Germ.

Ring worn and dandruff are somewhat similar in their origin; each is caused by a parasite The germ that causes dandruff digs to the root of the hair, and saps it vitality, causing falling hair, and, finally, baldness. Without dandruff there would never be baldness, and to cure dandruff it is necessary to kill the germ. There has been no hair preparation that would do this until the discovery of Newbro's Herpicide, which positively kills the dandruff germ, allays itching instantly and makes hair glossy and soft as silk. Take no substitutes. There is nothing "just as good." Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. Two sizes, 50 and $1. W. E. "CHASED" TO THE BARN

Brady Nearly Froze Before Police Rescued Him.

East Liverpool, Ohio, Oct. 31.—Mrs. Bert Brady, angered because her husband did not get up in time for breakfast, assembled the family arsenal, consisting of a revolver and shotgun, together with ammunition, and took a shot at the man as he lay in bed.

She missed. Brady, clad in pajamas, dodged another shot and started for the barn. Mrs. Brady followed.

Brady locked the barn doors and waited until he became almost stiff from cold, then tried to make peace terms with his wife, who, warmly clad, was laying siege in the barnyard. Every time Brady opened the door to parley, the woman took a shot at him.

She punctured the side of the barn with numerous holes, but none hit her repentant husband. Meantime the police waited outside the gate until all the ammunition was exhausted, then they charged the lone woman. She could not resist and was taken to the police station. As she had not done more than fill the side of the barn full of holes, the only charge made was that of discharging firearms within the city limits.

Brady was rescued and taken into his home, where he spent an hour thawing out.

S.S.S. MADE FROM ROOTS AND HERBS
A SAFE AND RELIABLE BLOOD PURIFIER

In the time of our forefathers the forests and fields were the only laboratories from which they could procure their medicines. They searched out and compounded the different roots, herbs and barks into remedies, many of which have been handed down to succeeding generations, and continuously used with satisfactory results. Among the very best of these old time preparations is S. S. S., a medicine made entirely from roots, herbs and barks, in such combination as to make it the greatest of all blood purifiers. This absolute vegetable purity of S. S. S. makes it the one medicine that may be used without fear of harmful results in any way. Most blood medicines on the market contain mercury, potash, or some other strong mineral. These act with bad effect on the system, upsetting the stomach, interfering with the digestion, affecting the bowels, and when used for a prolonged period of time often cause salivation. No such effects ever result from the use of S. S. S., and it may be taken by children as safely as by older people. For Rheumatism, Catarrh, Sores and Ulcers, Malaria, Scrofula, Skin Diseases, and all other troubles caused by impure or poisoned blood, S. S. S. is a perfect remedy. It goes down into the circulation and removes all poisons, impurities, humors or unhealthy matter, and makes the blood pure and rich. It eliminates every particle of the taint of inherited blood trouble, purifies and strengthens the weak, deteriorated blood, and establishes the foundation for good health. S. S. S. is Nature's Blood Purifier, and its many years of successful service, with a steadily increasing demand for it, is the best evidence of its value in all blood troubles. Book on the blood and any medical advice free of charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

CHICAGO NEWS LETTER

A SANE CELEBRATION OF HALLOWE'EN IS BOOKED FOR TONIGHT.

THE PERSONAL INJURY BUSINESS

After the National Republican Convention—A Ten-Course Chinese Banquet—Salaries of Teachers.

Special to the Democrat-Sentinel.

Chicago, Oct. 30.—A good fairy of sixty-four this year, as in previous years, will help nearly a hundred Chicago boys prove that a sane celebration of Hallowe'en is not only practicable, but "bully." Thanks to Mrs. Alice C. Whitney, the garbage cans, gates and vehicles in her neighborhood do not mysteriously disappear from accustomed places and turn up on front porches, church roofs and telephone poles. Her diagnosis is that boys have energy that just must be applied or it will turn to deviltry. Her cure consists of a great bonfire on her lawn, for which boxes and crates are accumulated for months, and after the bonfire there are roast potatoes from the embers, and finally sandwiches, cookies, candy and hot chocolate. Every boy has to promise "not to touch a thing in the neighborhood," and the boys have kept their promises. As a result the policeman on that beat finds Hallowe'en more uneventful than other evenings, instead of the most strenuous of the year.

With the Hennepin canal an accomplished fact, new impetus was given the needs for the deep waterway to the gulf, which the Illinois legislature has now taken up as a proper project for the state's encouragement. The opening of the Hennepin canal gave meaning also to the possibilities in the improvement of waaterways of the United States, east and west. It will provide an all-water route for cheap transportation from Western Illinois to Chicago and return just as soon as the drainage canal is extended as a deep channel to the Illinois river. The various developments of late favorable to the waterways promises to make the National Rivers and Harbors congress, in Washington, Dec. 4, 5 and 6, a most important and far reaching event, at which the various sections of the country will unite in the vigorous approval of the new policy of congress of liberal appropriations for rivers and harbor work. At its last session the National Rivers and Harbors congress declared for the annual appropriation of at least $50,000,000 for putting into practical transportation shape the 30,000 miles of navigable streams of the country and providing adequate harbors to accommodate the modern mammoth liners, such as the Lusitania.

Another industry to suffer during these golden autumn days is the fake personal injury business, which, at the past, present and future expense of Chicago was found flourishing like a green bay tree. Claims for damages totalling $100,000 were found to be frauds, when photographers snapped the claimants in active enjoyment of sound health and a full set of sound members. One little suburb of 200 adult residents boasts 190 suits against the city. "Falls on defective sidewalks" are favorite grounds for suit. Some claimants who have recovered damages from railroads or traction companies turn around and sue the city on the plea of the same injuries. One woman who claimed to be crippled for life, was photographed as she hurried blithely homeward, swinging a basket of groceries.

The extent to which human nature enters into judicial proceedings was shown last week when prominent Chicago attorneys were found to be seriously alarmed by the growing practice of publicly discussing evidence in advance of trials. Some mystery was given to reports that a committee was being or had been or would be organized to put a check on the practice in the interest of economy and justice. In the enthusiasm of preparing cases, either as prosecutors or defenders, spurred by ambition to win, there has been gradual departure from the old custom, still followed abroad, of saying not ng until both sides were heard in court. Both sides have talked and the jurymen could not fail to have some bias from the first. The cost to the state easily could be one argument for making every trial serve its purpose; the difficulty of finding veniremen without prejudice is daily growing greater. Defendants are at a disadvantage, for the utterances of prosecutors are in their nature news. The work of the committee may have important results in time, even bringing about new ethics in legal practices in the United States, but apparently the committee's plans have not been matrued as yet.

It looked blue for Chicago's hopes of getting the national republican convention last week until the new armory for the Seventh Regiment, Illinois Natioal Guard was thought of. That building will seat 15,000 and will be finished by May 1, next. It will be built largely with funds of the state of Illinois, so it will be up to the state of Illinois to provide Chicago with the big convention. The requirements of the next republican convention will be very different from those of the convention of 1904; it will be a ratification meeting, no love feast, and the contest will attract a mammoth crowd, not less than 150,000 people. The estimates made are for 3,000 seats for the delegates, alternates and press representatives, and 8,000 more for visitors. The Coliseum is out of the question as to size, and it is not suitable; Chicago alone would fill every seat that could be made available in that structure. The committee having the convention problem in hand, made up of veterans, are determined to win.

A ten-course Chinese banquet, given here by Hip Sing Tong, was successfully dodged by ex-Mayor Dunne, although he is the attorney for the "Tong," which is one of the two Chinese commercial leagues in Chicago. The other is the On Leong Tong. Four hundred Celestials partook of the Chinese dishes, from foo yung guy to ting hong sut gee, and four resolute white men, who had prepared themselves for the event with fastings and practice at the many chop suey restaurants in this city, sat down with the Hip Sing Tongers to vindicate their ability to eat any old thing. No unkind reference was made to the craven absence of the ex-mayor; the white men grimly shut their eyes and swallowed their share and his of foo yung goey, chow bat bow fon, sam-su op, lu chi chow men, chum fah goon, hing ling su, lu-chea and won moo tea. After all this, perhaps because it was all over with, one hero, C. H. McKeever, even grew post-prandially felicitous and cemented the ties between the Occident and the Orient by alluding with compliments to the fare inside of him.

The salaries of Chicago's school teachers will be advanced soon. This means an item of $600,000 for the tax payers, but even then the salaries will not be up to the level of those paid in other big ctities, nor up to the salaries for equal abilities in other callings. Chicago has grown too fast to keep up with the necessary additions to school buildings and staffs, but now is catching up. It takes a world of money to keep the schools of Chicago going. The salary roll last year was $5,842,889. The building fund each year has been even more formidable, and still the school capacity is inadequate. In the matter of salaries, the comparison is interesting. In the High school salaries here and elsewhere are:

	Prin's.	Teach's.
New York	$4,351	$1,749
Boston	3,818	1,853
Philadelphia	3,583	1,497
St. Louis	3,136	1,296
Cleveland	3,100	1,341
Chicago	2,960	1,446
Cincinnati	2,533	1,369
Milwaukee	2,000	1,089
Louisville	2,325	1,076
Minneapolis	2,400	933

What is sometimes referred to as the "Chicago Brain Trust," the group of western writers, including Finley Peter Dunne, George Ade and the two McCutcheons—John T. and Geo. Barr—is nothing if not original in its methods. Its members have hit upon the novel scheme of providing entertainment for the public and themselves, as well as adding to their bank accounts by writing about one another. In the November number of Appleton's Magazine John T. McCutcheon has an article about George Ade, illustrated in the inimitable McCutcheon way. In December Ade is to come back with an article about McCutcheon. It is easy to see that this scheme has limitless possibilities if it is carried far enough. Meanwhile the fame of the literary scions of Chicago — and Indiana — is being spread abroad.

The "Fountain of the Great Lakes," the masterpiece of Larado Taft, the sculptor, will be bought with Chicago money, to stand here at the head of the great inland seas. Each of the five draped female figures on the fountain is symbolical of one of the lakes, Superior at the top, below her Huron and Michigan, and below them Erie and Oontario. Each figure holds a shell in which it catches water poured from above; Lake Ontario is pouring water into the sea. This fountain, one of the finest at the St. Louis exposition, will be bought by the Art Institute trustees from the income of $1,000,000 bequeathed by Benjamin F. Ferguson two years ago for the purchase of artistic fountaains and statutes to beautify Chicago. Meanwhile the twentieth annual exhibit of work by American artists, which is now being held at the Art Institute is giving picture lovers the opportunity to comment on the superiority of America over any of the old world countries in the matter of painting. It is becoming more and more generally admitted abroad that neither England, France or Germany can boast such a group of contemporary artists as Sargent, Whistler, Alexander, Chase, La Farge and Saint Gaudens, some of the best of whose work is being shown in the present exhibition.

THE CENTAUR COMPANY, NEW YORK CITY.

MRS. HARTJE EXPLAINS

An Affidavit Regarding Her Husband's Alleged New Evidence.

Pittsburg, Pa., Oct. 31.—Mrs. Mary Scott Hartje has filed with the superior court in Philadelphia her reply to the latest charges of her husband, Augustus Hartje, the millionaire paper manufacturer.

When Hartje filed his application for a reopening of the divorce case he sought to have his wife's name blackened by her own school-girl sister, Ida Scott. He submitted letters written by her to Howard Lappe, who had persuaded her at one time to attempt an elopement.

Yesterday Mrs. Hartje filed with the court an affidavit by Ida Scott that these letters were written at Lappe's dictation and were untrue. They were to be used, Ida Scott swears, as a club over her father to make him consent to her marrying Lappe. When the father refused to be coerced, she said, Lappe sold the letters to Hartje.

Aside from this denouncement, Mrs. Hartje's reply, which was made public yesterday by her attorney, not only makes denial of every charge made by her husband, but is replete with counter charges and scathing denunciations. Through it all, however, there runs a vein of appeal. Mrs. Hartje says she is penniless and dependent upon her father, John F. Scott, for the food she eats.

Edgar Ray, of the American Detective agency, says in an affidavit that Lappe tried to sell the Ida Scott letters to him. He said that he could get them for the rental of Hartje's entire building or $60,000. Later in the day attorneys for Augustus Hartje filed a reply to Mrs. Hartje's statement, asking that it be thrown out of court on the ground that it is slanderous and impertinent. Mr. Hartje offers to prove that Ida Scott was not influenced by Howard Lappe in writing letters.

MADE RECORD OF BLOOD

THE CITY OF CHICAGO MAKES A SHOWING THAT IS SIMPLY STARTLING.

THE RAILROADS HAVE KILLED MANY

In the First Nine Months of 1907 There Were 1,224 Deaths by Violence There—The Record by No Means Complete.

Chicago, Oct. 31.—One thousand two hundred and twenty-four violent deaths in the city of Chicago in the first nine months of the year 1907 testify to the indifference to the value of human life in this city.

Of this number the steam railroads killed 284, while the electric roads exacted a death roll of 106. One hundred and two are due to murder. In the same months more than 7,000 persons were injured.

The following tabulated statement shows the various causes of death and injury for the nine months The figures were compiled by the city statistician:

Causes.	Deaths.	Injuries.
Murder	102	....
Drowning	108	....
Suicide	204	....
Street cars	106	2,481
Railroads	192	525
Elevated railway	9	26
Teams and wagons	48	848
Motor cars	10	180
Falls from scaffolds	136	1,464
Various causes	309	1,800

The figures represent only the cases that come within the ken of the police and health departments.

Chicago has no legal provision for keeping record of these facts.

ROBBERS' BOOTY AT AN EXPRESS OFFICE WAS JUST $23,000.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

T. E. McDonald, superintendent of the United States Express company, announced officially yesterday afternoon that the amount of money stolen from the company at the night depot office in Milwaukee, Wis., the night of October 23, was 23,000. The amount embraced gold and currency.

The gold was in five, ten and twenty dollar pieces. Of the currency stolen $6,350 was in new national bank notes of the Milwaukee National bank, of $10 and $20 denominations. Serial numbers in upper right-hand corners of the bills are N-248984, N-250110, inclusive. The sheet numbers in lower left-hand corners are 6010 to 6135, inclusive.

Died in Fireman's Arms.

Stricken with heart disease while his hand was on the throttle as his engine pulled a cut of cars on the Pennsylvania bridge across the river, Engineer Charles L. Betters died in the arms of his fireman as the latter brought the engine to a stop at the Pennsylvania freight depot this afternoon, says a Toledo, O., dispatch.

Betters was apparently as well as usual just before his engine went on the bridge as he waved his hand to a flagman. A moment later he gasped and put his hand to his heart, while his head fell forward on his breast.

Fireman Miller removed Betters' other hand from the throttle, and, supporting the dying engineer on his seat, guided the train to the depot. Betters had been in the employ of the Pennsylvania company for fifteen years.

Lew Ames' Condition.

Lew Ames, of Otterville, who was injured in the Missouri Pacific collision at Holden a week ago today, is still confined to his bed there, and it may be a month or two before he can be taken home.

This is the third serious serious railway accident that Mr. Ames has figured in, and he has about made up his mind to walk in future when he has a trip to make.

Why No. 1 Is Late.

No. 1 on the Missouri Pacific, fast passenger and mail from St. Louis to Pueblo, Colo., will arrive here at 4:50 o'clock this afternoon, instead of at 2:25, schedule time, due to a new engine, recently turned out of the shops, running hot—at least this is the explanation furnished at the local offices of the company.

C. E. Blair, a Katy conductor, is laying off.

Roadmaster James Payne, of the Katy, went to Boonville today.

Supt. N. J. Finney, of the Katy, went to Nevada today on business.

J. W. Conner, Katy commercial agent, went to Jefferson City today.

"Bud" Phelan and Harry Yarnell, south end Katy trainmen, are laying off.

J. M. Chandler, Missouri Pacific roadmaster, went to Independence this morning.

Walter Murphy, T. H. Jackson and Roy Harrison, extra brakemen for the Katy, are laying off.

T. L. Herr, storekeeper for the Katy telegraph department, is home from a busines visit at Alton, Ill.

William Reinert, a Missouri Pacific boilermaker, and wife, returned last afternoon from a visit in St. Louis.

Henry Brummerhoff, a Missouri Pacific conductor, will resume work tomorrow, after a few days' lay off.

B. B. McVey, a Missouri Pacific telegraph operator, has resigned, and is now engaged in farming east of town.

The ladies' auxiliary of the O. R. C. will give a social at the Odd Fellows' hall Thursday night, November 7.

Chester Aven, a Katy brakeman, reported for work today, after a few days' layoff, enjoying his honeymoon.

Jack Hays, recently employed as switchman by the Katy, was employed in a similar capacity by the Missouri Pacific today.

Beginning Nov. 3, Trainmaster Dennis, of the Missouri Pacific, will begin an examination of all engineers and conductors in this district.

A. J. Jacobs, formerly a local Katy switchman, now residing at Kansas City, who has been visiting relatives here, will return to Kansas City tonight.

C. G. Collins, clerk in the division engineer's office at the Missouri Pacific station, was among the company men treated at the Katy hospital yesterday.

W. H. Hall, assistant superintendent of telegraph for the Katy, who is enjoying his vacation with relatives at Hannibal, will return home tomorrow night.

Conductors N. M. Hinshaw and Tom Russell, of the Katy, and Brakemen Tom Fletcher, J. G. Hanson, A. C. Meyer and T. B. McKinzie went to Fort Scott, Kas., yesterday as witnesses in a Katy damage suit.

C. E. Stemmons, our genial station agent, has received thirty days' layoff, and left this morning for Los Angeles, Cal., where he will spend his vacation, says the Houstonian. He is being relieved here by Mr. Hadwen, a pleasant gentleman from Kingsville, Mo.

Trainmaster Dennis, of the Missouri Pacific, issued a bulletin today requesting the engine men on yard engines and switch engines to approach of the Katy crossing on Third street with their engines under control.

The Boonville Democrat thinks that city and Chamois will be made permanent divisional points for all Missouri Pacific River route trains. A conductor told the Democrat that such was the program, so of course that settles it.

GEORGE SHELLY'S SALE

Was Good Attendance and Satisfactory Prices Realized

George R. Shelley held a public sale Wednesday on his farm, five miles northeast of Lamonte. He has sold his farm, and the sale was to dispose of his personal property, which included farm machinery, feed and stock of all kinds.

While it was a disagreeable day, the attendance of his neighbors was good, and all assisted in making the sale satisfactory.

Everything offered sold at good prices, and especially the stock, all of which was in good condition. Horse stock and mules brought top market prices, as did the cattle and hogs.

Col. Kemp Hieronymus conducted the sale and finished it in good time, making everything bring top prices, and the result satisfactory to the proprietor.

SHE PAID FOR A HUSBAND

Lena Head Lost Income From $500,000 by Wedding.

Riverhead, L. I., Oct. 31.—Because Mrs. Lena Head Bodley married a coachman, in opposition to the wishes of her mother and George C. Taylor, who employed her mother as housekeeper, Yale, Harvard, Williams, Princeton and Hobart colleges will each lose $100,000. Instead, the Moses Taylor hospital, of Scranton, Pa., will receive the $500,000 and $250,000 additional, under the will of George C. Taylor, which was filed for probate here yesterday.

Mr. Taylor, who lived in Islip, left an estate estimated to be worth $20,000,000. A number of years ago he brought Mrs. Betsy Head and her daughter, Lena, from Europe to Isip, and made Mrs. Head his housekeeper.

In his will, drawn up in 1900, he bequeathed $2,000,000 outright to Mrs. Head and the income of $500,000 for life to her daughter. At Miss Lena's death the $500,000 was to be shared in lots of $100,000 each by Yale, Harvard, Williams, Princeton and Hobart colleges.

When Miss Lena married Frederick W. Bodley, Mr. Taylor's coachman, in opposition to the wishes of both her mother and Mr. Taylor, the millionaire drew a codicil to his will in which he revoked the bequest to the five colleges and to Mrs. Bodley and substituted therefor a bequest of $750,000 to the Moses Taylor hospital, of Scranton, which was founded by his father. As Mrs. Head died before Mr. Taylor, the $2,000,000 bequeathed to her reverted to the Taylor estate.

Under the will Mrs. Bodley, the wife of the coachman, receives nothing, but it is said that in lieu of the bequest Mr. Taylor gave her a large sum—possibly $500,000—before he died.

CHEAPER MEAT HERE

DESPITE THE 10 PER CENT CUT IN PRICES BY OMAHA PACKERS.

BUT IT MAY COME LATER IN GAME

Two Kansas City Packing Houses Advance Prices and Have Notified Sedalia Retailers to That Effect.

(From Wednesday's Daily.)

There has been no reduction of meat prices by Sedalia retailers the past two days, despite the "cut" of 10 per cent by the Omaha packers, chronicled in Tuesday's Democrat-Sentinel.

There has not been any increase, either, thank heaven, although a local dealer stated to the Democrat-Sentinel today that his Kansas City packing houses had last night advised him of a ten per cent increase in pork and a smaller increase in beef.

The Kansas City Situation.

Kansas City, Mo., Oct. 30.—In sympathy with a drop in prices of live cattle and hogs at the stock yards packers are selling dressed beef and pork at prices somewhat below the wholesale prices of a week ago.

The reduction in meats is about twenty-five cents a hundred for prime beef and fifty cents a hundred for common beef, with pork prices corresponding.

Shippers are somewhat indifferent about sending live stock to market and packers are not disposed to load up heavily is the explanation given for the drop in prices.

The packers' reduction in fresh meat prices has not been met by the retail dealers. Consumers are paying practically the same prices they paid last week.

The Situation in St. Louis.

St. Louis, Mo., Oct. 30.—Chuck steak and pork chops will be a cent a pound cheaper to the consumer within the next week. Whether the man who wants something choicer, such as porterhouses of the finest grade, will find his meat bill any less, St. Louis butchers are not ready to predict.

Louis Shaefer, Jr., said to a reporter Tuesday that it would take nearly a week for the present lowering of meat prices to reach a point where the household consumer will notice it. He said that there is no present prospect of lowering the prices of choice cuts, but that the reduction would affect all the cheaper grades of meat at the rate of about a cent a pound.

This indicates that St. Louis will not get the benefits of the lower price scale as suddely as Omaha has. There the 10 per cent reduction in the price of all meats, announced by the Cudahy Packing company has gone into immediate effect.

Following the anouncement, Edward A. Cudahy, head of the company, said he believed there would be an immediate decline in prices all along the line of produce and staple supplies.

"General business expansion," said he, "has been carried too far, and there must be a halt. We have been buying cheaper for several days, and we think that the conditions justify us in selling cheaper. There has already been a reduction in other lines, and we believe that meat should be lower than it has been."

Mr. Cudahy added that the cut should be immediately felt by the consumer, as the retailers had agreed to give their customers the benefit of it. He said that while no further cut was in view, there seemed to be a tendency that might before long result in another lowering of prices.

Omaha commission men are cautioning stock shippers to be wary about sending shipments for a few days, while the banks are refusing to pay out large sums of cash. If this warning is heeded, prices for stock on the hoof may jump upward. It is believed, in Omaha, nevertheless, that the reduction has come to stay and that meats will be still cheaper.

St. Louis representatives of Armour & Co., when asked as to the cut in St. Louis prices, replied that the live stock market was "off" and that meat prices would go down accordingly. This, it was said, only referred to the packers' wholesale prices, [illegible] being fixed by retail de[illegible]zebrd & Pultzberg[illegible]

a similar statement, but were more positive about the reduction.

"Pork is off from ten to fifteen per cent," said the local manager of that concern, "and beef about ten per cent. Live stock has gone down, and meat prices will take a similar turn. I know nothing about retail prices, but would judge that they have experienced a similar downward turn."

At the J. F. Conrad market it was said that no reduction in meat prices had been heard of.

"Pork reached its highest point the middle of last week," it was said there, "selling at that time for 14 cents a pound. Friday it was down to 12½ cents, but today it is up again

'MAC' WAS FOUND GUILTY

BERNARD McFADDEN. YEARS AGO A RESIDENT OF SWEET SPRINGS.

IS WELL KNOWN IN SEDALIA ALSO

Famous Apostle of Physical Culture Convicted of Sending Obscene and Immoral Matter Through Mails.

Special to the Democrat-Sentinel.

New York, Oct. 30.—Despite the legal battle waged by the Free Speech league, of which the well known physician, Dr. E. B. Foote, jr., of this city, is the head, a jury in the United States district court of New Jersey has returned a verdict of guilty in the case against Bernard McFadden, the famous apostle of physical culture.

McFadden was charged with sending obscene and immoral matter through the mails, the charge growing out of the publication in his magazine of a serial story entitled, "Growing to Manhood." The tale purported to be the confessions of a young rake, and, while teaching morality and purity of life, was admittedly somewhat frank in its details. Sentence will be imposed on McFadden in a few days.

The charge against McFadden aroused wide attention, as being a legal battle between the physicians and others constituting the Free Speech league, on the one side, and Anthony Comstock and other apostles of purity on the other.

The adherents of McFadden contended that the cause of real purity demanded plain speaking on moral questions, and sought to establish their rights in the courts, in which they failed. It is thought that McFadden will pay the fine assessed and allow the matter to drop.

TRAFFIC WAS DELAYED

There Ought to Be Some Way of Preventing It in Future.

(From Tuesday's Daily.)

Passengers on the East Sedalia street car line are complaining not a little of the delay caused on Ingram avenue, which is not due to the management of the street car company, but instead to the contractor who is building a portion of the Six-Mile Road district on that street.

At 8 o'clock this morning an eastbound car was delayed several minutes, caused by the driver of a team hauling a load of rocks deliberately stopping on the street car track while he unloaded the wagon. When the car stopped, a second driver, with another load of rocks, came up from the rear and took the same position behind the car that the driver in front had taken.

It required the combined efforts of the crew and passengers to persuade the front driver to get off the track in order that traffic might be resumed.

Last week a police officer had to be summoned to make the men get off the track so that cars could pass.

A Few Do's; Some Don'ts

THE DEMOCRAT-SENTINEL HAS HAD MANY INQUIRIES AS TO THE CLEARING HOUSE CHECK PLAN ADOPTED BY THE BANKS AND IT MAKES THIS EXPLANATION, WITH SOME SUGGESTIONS:

Every depositor is a PARTNER in the bank at which he maintains a balance and as such is interested in the SUCCESS of the bank.

The safety of the BANK'S MONEY is the safety of YOUR MONEY.

When the banks restrict the use of currency, they are protecting YOUR money.

No Sedalia banking institution is refusing to cash checks. Instead of paying in CURRENCY, they are paying in CHECKS. These checks are MONEY, just as are bank notes, which are ONLY THE GOVERNMENT'S CHECKS.

If you NEED currency, you can get it from your bank as readily as you could a month ago.

If you have a bank account, pay your bills, no matter how small, with checks. The banks honor them as freely as they did a year ago. And it's easier.

You will find that a checking system not only guarantees you against loss, but it is an actual economy. Try it a month and see if you do not save an appreciable sum.

You can stop payment on a CHECK, if you make a mistake, you cannot stop payment on a bank note.

KEEP BUSY, DON'T WORRY, DON'T BORROW TROUBLE but SMILE. Many a phantom disaster has been LAUGHED out of existence.

WOMAN DEPOSITOR IN TEARS

When All Was Explained She Drew $50 and Was Satisfied.

The check system adopted by the banking institutions of Sedalia yesterday, and the restriction of paying depositors only $50 a week in currency until the eastern banks consent to ship currency to their western correspondents, has worked admirably so far.

In some instances the local bankers have been compelled to give considerable of their time to explaining to depositors why it was necessary to put the new rule into effect, but when the explanation was made it invariably proved satisfactory.

In one case today a female depositor gave way to tears, but after the situation was explained to her she drew $50 to meet her immediate wants, and then took her departure, satisfied that the banks had taken the wisest step possible under the circumstances.

SEDALIAN AT COLUMBIA

Was There in Connection With Bankruptcy Cases.

John Montgomery, jr., referee in bankruptcy, arrived from Sedalia Tuesday to appoint a trustee in cases of J. E. Hooe and W. R. Powell, bankrupts, says Tuesday's Columbia Herald.

Senator C. J. Walker is the attorney for the twenty or more creditors in each case. Mr. Hooe was proprietor of the Toggery Shop, while Mr. Powell ran a country store at Woodlandville. The liabilities are about $4,000 in each case. The prospects are that a good dividend will be declared.

C. B. Sebastian was appointed trustee in both cases, upon the recommendation of the creditors.

DEATH OF FATHER GLEASON

Aged Priest Who Has Been Stationed at St. Francis Hospital.

Grand Island, Oct. 30.—The Rev. Fr. Gleason, stationed at the St. Francis hospital in this city, as spiritual adviser, and assisting frequently at the large St. Mary's Catholic church in this city, is dead at an advanced age.

He was formerly of Omaha, and passed an active life in the circle of the Catholic clergy. Of late years, on account of enfeebled health, he has been stationed in the hospital here.

Charged With Forgery.

(Wednesday's Daily.)

H. A. Weikel, better known as "Rowd" Weikel, was arrested by Constable Love this morning, charged with forgery. He was taken to the county jail, pending preliminary hearing in Judge Clark's court on Nov. 1.

Weikel passed a check for $8.35 on the Lamonte bank on Dan Byard, at Pehl Catering company. Another check on the same bank for $6.75 he passed on Blockberger & Buske. In each instance he forged the name of J. Ed. Hall, a farmer of Lamonte.

A Fine Baby Boy.

Born, Wednesday morning, October 30, 1907, to the wife of Walter Gibbons, manager of the Western Union telegraph office at Fort Scott, Kas., who is the guest of her parents, Mr. and Mrs. [illegible]bin, 9 South Grand avenue, a fine baby boy. Mother and child are doing nicely.

Mr. Gibbons went to Boonville this morning to attend the funeral of his father, Frank E Gibbons, Sr., but will return here this afternoon, and after a short sojourn will depart for Fort Scott to resume his duties.

A QUITE HOME WEDDING

That of Charles B. Wright and Miss Evelyn Mae Derr.

(Wednesday's Daily.)

Charles B. Wright, of Chicago, a young man holding a good position in the passenger department of the C. & E. I. railway, and Miss Evelyn Mae Derr, daughter of Mr. and Mrs. Phil Derr, were married quietly at the home of the bride's parents, 420 South Osage avenue, at 10 o'clock this morning, Rev. James Parsons officiating.

The wedding was strictly a family affair. The only attendants, outside of a few friends, were Mr. and Mrs. C. A. Wright, parents of the groom, of Keokuk, Ia., and Miss Louise Wright, sister of the groom, also of Keokuk, and Mrs. R. W. Cruze, of Vincennes, Ind.,

A sumptuous wedding dinner followed the ceremony, and amid the happy congratulations of relatives and friends, the bridal couple left on the noon train for Chicago to make their future home.

NEEDED IN BERLIN

Secretary Taft Will Rush to German Capital on Important Matter.

Manila, Oct. 30.—As the result of a voluminous cable correspondence between President Roosevelt and Secretary Taft it is understood that the latter will leave Manila on November 2 in order to reach Berlin at the earliest possible moment. It is understood that Taft will leave here next Sunday.

It is understood that a matter of the utmost importance is pending in Germany and Taft's presence there is necessary immediately.

THE BANKERS ADJOURN

C. C. Evans, of Sedalia, Elected Secretary of the Group.

(Wednesday's Daily.)

At Tuesday afternoon's session of Group No. 5, of the Missouri Bankers' association, E. W. Moore, of Bunceton, was elected chairman for the ensuing year and C. C. Evans, of Sedalia, was elected secretary.

After the adoption of the following resolutions the meeting adjourned:

Whereas, in view of the unusual conditions existing throughout the entire country, the cities of Chicago, St. Louis, Kansas City and all the larger cities of the state, including the city of Sedalia, have taken action through their clearing houses and have refused to ship currency to the banks in the interior, or to pay out in actual cash only limited amounts, therefore be it

Resolved, That this convention, in view of these facts, and in order that the country banks may have like protection, and in order to protect their customers, recommend that the members of this group be advised to limit all payments of cash not to exceed fifty dollars to any one person in each week, and to advise their customers to conserve the cash on hand and transact all business on a check basis until currency shipments are resumed by their correspondents.—(Signed) E. W. Moore, Chairman; Chas. C. Bell, E. E. Durand, Committee.

Resolved, That the sincere thanks of Group No. 5 be tendered the bankers of Sedalia for the unusually delightful entertainment furnished throughout the meeting; and be it further

Resolved, That we extend to the Elks' club our appreciation of its courtesy in placing at our disposal its splendid quarters throughout this pleasant and profitable visit to the city of Sedalia.

NEW YORK IS QUIET

Situation Is Well in Hand and Run Practically Over.

New York, Oct. 30.—Banking conditions appeared normal in this city today and the situation is now so well in hand that no further conference of banks is anticipated.

The runs on one or two institutions may be said to be entirely over, and Wall street today expressed gratification that the storm had been weathered.

HAS NO JURISDICTION

Judge Pollock Can't Interfere in Behalf of Kansas City Theaters.

Kansas City, Oct. 30.—Federal Judge Pollock today held that he has no jurisdiction in the case of the theatrical managers who sought a restraining order to prevent Judge Wallace, of the state criminal court, from having indictments returned against managers, actors and attaches for working on Sunday.

DEVINE-CONNOR NUPTIALS

Popular Couple Married at Lamonte This Afternoon.

(Wednesday's Daily.)

P. J. Devine, of Clifton City, and Miss Lou Katherine Connor, of Lamonte, were united in marriage at [illegible] the home of the bride at 3 o'clock this afternoon by the Rev Fr. Kilkenny, of Warrensburg.

The groom is one of Cooper county's most prosperous business men, being extensively engaged in the stock business and connected with the Clifton City bank. He has a fine farm one mile north of Clifton City, upon which he recently built an up-to-date home.

The bride is the accomplished daughter of Mr. and Mrs. Dennis Connor, one of the oldest and most prominent families in the western part of the county, who reside on a fine farm two miles west of Lamonte. She is a successful and popular school teacher, and will make an ideal wife.

The Democrat-Sentinel joins their many friends in wishing them a long and prosperous wedded life.

ATTELL IN FOUR ROUNDS

REFEREE STOPPED THE FIGHT AFTER WEEKS WENT DOWN FOR FIFTH TIME.

THE LATTER NEVER HAD "LOOK-IN"

Champion Clearly Demonstrated He Is the Best Man of His Weight in the Entire Country, a Dispatch Says.

Los Angeles, Cal., Oct. 30.—Abe Attell clearly demonstrated last night that he is by far the best boy of his weight when he knocked Freddie Weeks out in the fourth round. While it is true Weeks was not counted out, the referee wisely stopped the fight before anything approaching a fatality could occur.

In the first round Abe landed right and left to Weeks' jaw and had Weeks unsteady on his feet. It looked then as if Weeks could not survive another round, but he surprised everybody by coming up fresh at the gong when the second round was called.

In this round Weeks showed to much better advantage. He swapped punches with Attell and caused a faint gleam of hope to arise among his adherents.

It might be said that this was the only round that Weeks appeared to have any chance with the champion.

In the third round Attell landed a hard left uppercut to Weeks' stomach, which seemed to take considerable steam out of him. Without giving him a moment's rest Abe came right back with a straight left, pushing Weeks' head back.

In the fourth round Abe went after his man, showing no mercy. In all, he knocked his man down five times. Weeks was game and rose to his feet each time before the referee could count him out. But after a rain of blows the referee stepped between the men when Weeks arose after the fifth knockdown and declared Attell the winner.

SHIVELY WOULD BRANCH OUT

He Plans a War on the American Association.

Cincinnati, O., Oct. 30.—"Doc" Shively, of the Western Association of Baseball Clubs, who is planning to invade all the American association cities with new baseball teams in the event the American association decides to break away from the fold of organized baseball, as has been reported, has found a supporter of his scheme here in the person of Garry Herrmann, chairman of the national commission. Shively was in conference here with Herrmann.

"If the American association turns outlaw I believe Shively will have a good chance," said Mr. Herrmann. "He is for organized baseball first and last and will have the indorsement of the national commission. If the American association does break away from the fold all the club owners and players taking part in the movement will be permanently blacklisted by the national commission. It does not seem possible to me, however, that the American association magnates will make any such bad break."

A PARDON APPLICATION

WILL BE PASSED UPON BY GOVERNOR JOSEPH W. FOLK TOMORROW.

A FAMOUS CASE IN VERNON COUNTY

Dr. Joseph E. Todd, Who is Serving a 12 Years' Sentence in Prison for the Killing of Robert T. Wall.

Special to the Democrat-Sentinel.

Jefferson City, Mo., Oct. 30.—Governor Folk and Pardon Attorney Mosby will take up for hearing tomorrow the application for pardon filed by Dr. Joseph E. Todd, former member of the legislature and a prominent Missouri politician, who is now serving a twelve years' sentence in the penitentiary for murder in the second degree.

Dr. Todd was convicted of slaying Robert T. Wall, a wealthy citizen of Richards, Vernon county. The crime was the result of a fend of twenty years' standing, and which had been waged with as much bitterness and animosity as the feuds of the Kentucky mountaineers.

Friends of the Wall faction will make a determined opposition to the granting of the pardon, and will be represented at the hearing by M. T. January, a Nevada attorney, who prosecuted Dr. Todd. The prisoner, who is 63 years of age, is broken in health as a result of confinement in the penitentiary, but has been able in his professional capacity, to render valuable assistance to the prison physician.

Dr. Todd was convicted in Vernon county, and in March of last year the supreme court affirmed the sentence. He immediately surrendered to the marshal of the supreme court and was lodged in the penitentiary.

The beginning of the Todd-Wall feud, which kept the little town of Richards, in Southwestern Missouri, in a ferment for many years, is unknown, but it existed for at least twenty years. Dr. Todd persistently refuses to discuss the origin of the trouble, and Wall, before his death, was equally reticent. It is rumored that the ill feeling between the two men began with a quarrel over a woman.

The immediate cause of the fatal shooting affray was the custom of Dr. Todd in passing through a farm owned by Wall in order to reach a farm he owned. Wall issued orders that neither Todd nor any member of his family should pass through the place, and built a high fence to keep them out.

Dr. Todd tore down the fence, and once, according to the testimony, Wall threatened to shoot him if he passed through the farm again.

That afternoon Wall and Dr. Todd met on the street of Richards. Dr. Todd killed his enemy. At the trial he pleaded self-defense, and evidence was adduced showing that Wall had a revolver in his pocket. Other evidence, however, was to the effect that when Wall's body was first searched no weapon of any kind was found.

Feeling against Todd among the Wall adherents is still very bitter, and should he be pardoned and return to his home, it is feared that more serious trouble will followw.

LOSSES MADE HER INSANE

Woman Who Gave a Man $10,000 to Invest Taken to a Sanitarium.

Wichita, Kan., Oct. 30.—Brooding over the loss of $10,000, which she entrusted to Sylvester Harrison to invest in Wichita property, Mrs. Kate Cathors has been taken to the Lenox sanitarium here.

She is delirious and her condition is dangerous. She constantly chatters about the loss of her fortune. Harrison is said to have defrauded several banks here. He left Wichita with a sachel in which was $21,000. He has not been found.

BRYAN AND ROOSEVELT.

Some of the great newspapers of our day, such, for instance, as the Washington Post, the New York Times and the Philadlphia Press, are trying very hard to mix up Roosevelt and Bryan. It looks as if these papers were booming Bryan in the interest of another nomination for Mr. Roosevelt.

The Press thinks that Mr. Bryan will be nominated, that he is no ordinary man, and that no republican but Roosevelt could defeat him. The Times is of the same opinion. The Post says: "Take the tariff out and what is the difference between Mr. Bryan and Mr. Roosevelt?" And again: "If Mr. Bryan were president wherein would he reverse the policies of Mr. Roosevelt?"

Now, there is just the same difference, or more difference, between Mr. Bryan and Mr. Roosevelt than there was between Jefferson and Hamilton. Bryan is opposed to the big stick policy of Roosevelt; and this constitutes a radical difference. Bryan is opposed to Roosevelt's idea of granting immunity to criminal individuals, do the dirty work of the big corporations; while Roosevelt is the parent and defender of that policy.

Here is another radical difference: Bryan believes in the principles of the Declaration of Independence and all the principles of Jefferson, while Roosevelt despises and denounces those principles. On all fundamental principles they are as far apart as the poles. Their differences are irreconcilable. Bryan believes as Jackson and Taney believed respecting the evils of the banking system, while Roosevelt favors to the utmost the greatest of the national banks, and the whole system of concentrating and aiding the money power.

Bryan opposes the subsidizing of ship owners, while Roosevelt favors it. Bryan is opposed to government by injunction, but Roosevelt favors it. No two men were ever more completely opposed in theory or in practice. Yet we hear of Roosevelt-democrats and Bryan-republicans; and we find Roosevelt's supporters trying to create the impression that he is pursuing Bryan's theories. The silly subterfuge is well financed, but it will not work. There is, however, this similarity in the political situation of Mr. Roosevelt and Mr. Bryan: Neither can unite his party in his own support. Leaving Mr. Roosevelt's fate to the tender mercies of his opponents in his own party,, it is unfortunate that Mr. Bryan, who has so many staunch friends, can not draw all democrats to his standard. If he could he undoubtedly would be elected, for the unsuccessful faction of the republicans will be at least lukewarm for the nominees of the dominant factio nin the next republican national convention.

It may be necessary, therefore, for the democratic convention to seek some more available candidate than Mr. Bryan for the sake of success; for the minority party must be united to achieve a victory over the party of great moral ideas, but of endless moral transgressions.

NO OCCASION TO WORRY.

The action of the Sedalia Clearing House association this morning in limiting the amount of currency that can be drawn by any one person or firm in one week to $50 is a wise and necessary precaution under existing circumstances, and should not and doubtless will not cause the slightest worry or distrust among those who have funds on deposit in any of the four local financial institutions.

It will not retard business in the slightest and can not bring the loss of a penny to any individual, firm or corporation in the city.

The plan adopted is, in effect, simply that instead of handling silver and bank notes and using them as a medium of exchange, checks and clearing house certificates will take the place and become, for the time being, the circulating medium of the city.

The certificates of the clearing house are, and will continue to be, as good as gold in the truest sense, and checks when necessary, can be certified, which will make them worth every cent for which they are written.

As said above, there is no occasion for worry or apprehension. The banks and the trust company of Sedalia are as solid and strong as the most careful and conservative investor could possibly wish, and if we continue about our affairs and give and take certificates and checks, as we have in the past taken checks and currency, everything will move along as smoothly and serenely as if the flurry in the east had never happened.

WHAT IS A DEMOCRAT.

Here is a good definition of a democrat:

"A democrat in this country is a man who believes in constitutional government, administered impartially under the theory of equal rights for all and special privileges to none. Under the federal constitution this political faith guarantees the rights of the sovereign states, which is in substance the principle of home rule. It means that the individual shall have early liberty and opportunity in the pursuit of happiness that can be given him without injuring others, and that this principle amplified shall apply to the town, city and state.

"A democrat asks concerning measures only one question: Are they right? He sets aside as secondary the consideration of how many votes these measures will bring the candidates of the party. Democracy stands for honesty as against expediency, and for loyalty to principle as against chasing the fads and fancies of the hour.

"Concerning a leader the democracy asks: What has he done It believes men are best known by their deeds as distinguished from their professions.

"A democrat opposes the creation of class hatred. He realizes that there are under the law no rich men and no poor men. The democratic party is composed of American citizens with equal rights and authority in party councils. Appeals to the distinction of race or wealth are to be expected from political organizations out of harmony with the American constitution. They have no place in the democratic party."

LADIES COATS

Our Ladies' Coat Department presents a busy scene these days, and there must be a cause for it. The cause is this: **The values we are giving cannot be equaled elsewhere in the city for anything like the same money.**

Our coats are first in point of style and quality at medium cost; they have that custom look, that perfect fit, the swagger style of the higher priced cloak stores and at a great deal less cost.

No. 194—Ladies' ¾ length coat in black or castor color, of a fine kersey cloth; satin lined shoulders; the front, back and cuffs are elaborately trimmed in handsome silk braid; a 54-inch coat, and finished thoughout in a maner that is befitting to the higher priced garments, and our price is **$10.00. We have given special attention to these medium priced goods and we earnestly invite comparison.** Our Dress Goods Department is replete with the newest and best. Make this department a visit and we guarantee to please you in style, quality and price.

to 13 cents. Beef prices are about what they have been for the past two months.

At the Maryland market, 106 North Euclid avenue, it was said that the market was stocked for a week ahead and most all west end butchers probably were.

"It takes a week, sometimes two weeks, to get the retail price of meat down," it was said. "We can't buy meat in the morning and sell it over the counter in the afternoon. We have to buy ahead. So we will have to get rid of our high-priced stock before we can announce a cut in prices."

Chicago dispatches state that packers there did not follow the Omaha packers in cutting prices.

Louis F. Swift, president of Swift & Co., said: "The trading in livestock has been weak of late and this has caused a drop of about 25 cents in cattle during the week. This cut means that the retailers should sell cheaper. There is nothing unusual about the cut. There has been a large supply on hand at the yards and the price has dropped accordingly."

A Chicago representative of Armour & Co. said: "Livestock has been cheaper during the last week than for some time, but the retailer will not receive a lower price immediateely because the cheap livestock has not been turned into the finished product yet. I do not think Armour & Co. intend any general reduction."

THE FAREWELL TRIBUTE

WAS PAID BY HIGH SCHOOL STUDENTS TO A DECEASED SCHOOLMATE

HAD BEAUTIFUL FLORAL OFFERINGS

Remains of Miss Caroline Dunnica Were Taken to Kansas City This Morning for Interment There.

(From Tuesday's Daily.)

Escorted to the train by a large concourse of students of the Sedalia High school, including Miss Martha Letts, principal, and several male members of the faculty, the remains of Miss Caroline Dunnica, whose sad death at the High school was told of detail in yesterday's Democrat-Sentinel, were shipped to Kansas City at 7:15 o'clock this morning.

H. L. White and wife, the latter a sister of the dead girl, Mrs. R. S. Yost and daughter, Fannie, the latter a seat mate of Miss Dunnica at school, and other relatives accompanied the body.

Floral offerings, beautiful and exquisite, foremost of which were tributes from the students and faculty of the High school and from the employes of the Pacific and American Express companies, rested on the box containing the casket, attesting in a small degree how well the girl stood among her fellow students and other acquaintances.

The following nine students of the High school, representing the seniors, juniors and sophomores, the three upper grades of the school, acted as a special escort for the remains to the train: Aubrey Hunter, Harry Lingle, Lyman Ernst, Mary Clifford, Daphne Vaughan, Farla Morrison, Steele Bast, Florence Loveland and Elleb Madden.

The death of Miss Dunnica cast a gloom over the students at the High school yesterday, and as a result a number of the young ladies were compelled to leave for the day and return home.

MR. EMERSON IS HERE

Hopes to Be Able to Resume Business Next Week.

(From Tuesday's Daily.)

H. A. Emerson, of the Emerson Marlow & Co. Poultry and Egg Co., is here from Chicago today, as are also Frank G. Gibbons and C. F. Ford, representing the Chicago Title and Trust Co., receivers for Emerson, Marlow & Co.

Mr. Emerson said to the Democrat-Sentinel this afternoon: "Our company has met with no losses or reverses, but we thought it advisable to close down because it is impossible to obtain money in the east to carry on a large business like ours.

"We have no mortgages, and no debts that we cannot meet. The Missouri farmer wants cash for his products, and as it was not obtainable, and as he knows nothing of clearing house certificates, it was deemed advisable to suspend operations until the present financial flurry has passed.

"The situation is better today than it was last week, and it is improving daily. If it continues as we expect, we hope to resume business not later than the last of next week, and no one will lose a dollar by us."

Mrs. Chasnoff's Mother Dead.

(From Tuesday's Daily.)

Mrs. Sis Kremenhuk, mother of Mrs. M. Chasnoff, of this city, died at her home at Grand Island, Neb., this morning at 8:30 o'clock, after a lingering illness with cancer.

Deceased was about 75 years of age, and is survived by a husband and the following children: Mrs. M. Chasnoff, of this city; Mrs. John Sonin, of Fremont, Neb.; Mrs. M. Kalman, of Grand Island, and a son, John Agrant, of Sioux Falls, S. D.

The funeral arrangements have not been perfected.

Death of William Pfeiffer.

(Tuesday's Daily.)

Wiliam Pfeiffer, a former Missouri Pacific boilermaker, but later in the transfer business, died at his home, 408 North Mill street, at 2:30 o'clock this afternoon, after an illness of six months with Bright's disease and dropsy, aged 60 years.

Deceased is survived by his wife, one daughter and a son. The funeral will be held from the family residence at 2 o'clock tomorrow afternoon.

A tickling cough from any cause is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe that Dr. Shoop tells mothers everywhere to give it without hesitation to even very young babes. The wholesome green leaves and tender stems of a lung healing mountainous shrub, furnish the curative properties of Dr. Shoop's Cough Cure. It calms the cough and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the doctor uses, "the Sacred Herb." Demand Dr. Shoop's. Take no other. W. E. Bard Drug Co.

"Old Folks' day" will be observed Sunday at the First M. E. church, of which the Rev. S. S. Martin is pastor. All of the old people in the city, irrespective of denomination, are respectively invited, and those unable to walk to the church will be conveyed there in private conveyances. After a sermon appropriate to the occasion by the pastor, dinner will be served by the ladies of the church, a couple of hours of social converse will follow and at the conclusion the assemblage will disperse and return to their homes.

The finest coffee substitute ever made has recently been produced by Dr. Shoop, of Racine, Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute," says the doctor. "Health Coffee" is really the closest coffee imitation ever yet produced. Not a grain of real coffee in it, either. Health coffee imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for coffee. R. C. Dolph & Co.

"YOU'RE LIAR," SAID GIRL

TO THE DEPOSED PRESIDENT OF THE TELEGRAPHERS IN NEW YORK.

SAM SMALL IS REFUSED A HEARING

Hisses and Cries of Derision Greet His Attempt to Explain Position—Operators Are Going Back to Work.

New York, Oct. 30.—Followed by hisses and cries of derision, Sylvester J. Small, the recently deposed national president of the Commercial Telegraphers' union, was yesterday afternoon driven from a mass meeting of strikers where he had pleaded for an opportunity to be heard in his own behalf. Most violent among his accusers was Mrs. Mazie Cook, a union telegrapher, who was recently elected second vice president of the local union. Standing in front of Small, Mrs. Cook shook her finger in his face and shouted:

"Traitor! Coward! Don't you dare open your mouth in the presence of these men and women. If you attempt to get on the platform you will be denounced as no man was ever denounced before."

Shouts from several hundred men and women drowned the voice of the excited woman, and Small withdrew to an ante-room, begging that a committee be sent to him to hear his story.

When a motion was made to appoint such a committee it was tabled by unanimous vote, and then another surprise, more depressing than anything before it, was given to the deposed leader. He was informed that not only had he been deposed as national president, but that action was recently taken expelling him from the union.

"But he's a citizen of the United States," declared R. M. McLennon, vice president, "and let us give him the right that his citizenship guarantees—the right to be heard."

But the strikers would not listen to that. Their hisses and angry clamor continued and Small left building hurriedly. By a rising vote the strikers decided to continue the strike. An official of the Western Union stated that all told 110 strikers had returned to their old places during the day.

Springfield Strike Abandoned.

Springfield, Ill., Oct. 30.—The union telegraphers of Springfield last night declared off the strike. They will return to work at once.

Ranks Break in New York.

New York, Oct. 30.—There were evidences of a general break in the ranks of striking telegraph operators yesterday, as large numbers applied to the companies for reinstatement. One of the companies has received thirty applications within the last twenty-four hours.

The cause appears to be gradual disintegration and a feeling among the individual strikers that nothing further is obtainable from the companies. About 60 per cent of the applicants are being accepted.

Charlie Mowbray Resigns.

Charles Mowbray, son of Col. Robert Mowbray, former manager of the Economy Steam Heating Co.'s business here, and who has been employed at the plant since his father retired, will also quit the company's service tonight, to engage in other business. Charlie Mowbray is one of Sedalia's very best young men, and the best wishes of a legion of friends will always be with him.

You can't be well if you have a weak unhealthy, tired out stomach. Neither can you feel good if by some irregularity in eating you have caused the stomach to get out of order. These little stomach troubles or signs of indigestion, which may and very often does turn into a very bad case of dyspepsia. Don't allow this to go on a single day without doing something to overcome it. Take some good reliable and safe digestant like KODOL for Dyspepsia. KODOL is the best remedy known today for heartburn, belching and all troubles arising from a disordered digestion. It is pleasant to take and affords relief promptly. Sold by the Arlington Pharmacy.

Will Wed November 6th.

Harry Jakeman, son of Harry Jakeman, Sr., a Missouri Pacific machinist, employed as a tinner at Omaha, Neb., will be united in marriage there on Wednesday, November 6, to Miss Nannie Anderson, a popular young lady of that place. They will make their home at Omaha.

Mr. Jakeman has many friends in Sedalia who will join in extending hearty congratulations.

Sunday Schools' Work

DR. G. L. SHEPARD, CO. SUPT.-NO. 36.

The newest department of Sunday school work is the cradle roll. To what extent this has been adopted in the Sunday schools of Pettis county, or even Sedalia, we are unable to state. We are, however, aware of its existence in several of our schools. The plan is a most excellent one, and should be put in execution in every school.

The first step is to discover the names of the babies and gain the consent of the parents to have their names enrolled as members of the school. This department embraces all children from birth until they are three years of age, when they can generally join the primary class and attend the school in its regular sessions.

The children of the primary and junior departments will be of great service in learning the names and addresses of the babies. An enrollment card, giving the full name of the child, date of birth, parents' names, church membership or preference, should be used where possible and records made on the Sunday school roll.

There may be a superintendent of this department, or it may be in charge of the primary teacher. Visits should be made frequently, the birthdays of the child remembered, invitations extended to the child and parents to attend services, picnics and festivals of the school, and in all ways an interest maintained and manifested in the little members of the school.

Some schools have had the pictures of the members of the cradle roll taken and framed together to adorn the walls of the primary department room. When careful, prayerful thought and effort is given to this department its possibilities are boundless, and good results certain.

This cradle roll department is practical everywhere, in city or in country. Let every school try it.

"And whosoever shall give to drink unto one of these little ones a cup of cold water only in the name of a disciple, verily, I say unto you, he shall in no wise lose his reward.—Matt. 10:42.

The First Congregational Sunday school will observe "Rally day" today, with special exercises in place of the regular morning church service. The program is about as follows:

"How to Help the Sunday School," address by the pastor, Rev. James Parsons.

Paper, "The Needs of Our Sunday School," C. E. West.

Five-minute talk on "The Adult Class," Mrs. H. Hammond.

"Graduation From the Primary to the Junior Department."

Special music.

Solo by Mrs. Charles Bard. Another by choir.

The October meeting of our Sunday School union, advertised for last Tuesday evening, was postponed on account of the meeting of the Local Union, Y. P. S. C. E., occuring on the same evening. The meeting of the state association of the Baptist church also took several interested members out of the city at that time. We will make another attempt for Tuesday evening, Oct. 29, at the same place and hour as the one mentioned in our last number, viz: East Sedalia Baptist church at 7:30 p. m. Besides a good program, matters of importance should come before the meeting, and we hope for a large attendance.

A card received Friday from Rev. S. H. Thornhill, of Lamonte, states that the prevalence of diphtheria has prevented progress in the matter of a township convention. As we learn that the disease has largely abated, we trust that a good convention will soon be held.

The Stork Generous to Kansas Woman—One Baby Is Dead.

Lawrence, Kan., Oct. 29.—Four girl babies were born Saturday to Mrs. John Barben, wife of a farmer living six miles from Lawrence. One of the babies died during the afternoon, but the remaining three apparently will live. Mrs. Barbens' condition is not dangerous.

Mrs. Barben is 36 years old and had six children before the generous visit of the stork Saturday. There are no twins among these, and Mrs. Barben knows of no twins in her family. There is one pair of twins in her husband's family.

When They Rode the Goat.

The house is full of arnica and mystery profound,
We do not dare to run about or make the slightest sound,
We leave the big piano shut and do not strike a note,
The doctor's been here seven times since Korigan rode the goat—
At Marshall.

Jim joined the K. of C yesterday and got in at 4 p. m.
And sixteen Sedalia Knights brought him home, though he says he brought them;
His wrist was sprained and one big rip rent his Sunday coat,
There must have been a lively time when O'Malley rode the goat—
At Marshall.

Dan's resting on the hay today and practicing his signs,
The hailing signal, working grips and other monkey shines;
He mutters passwords 'neath his breath and other things he quote,
They surely had an evening's work when Hogan rode the goat—
At Marshall.

But somehow when we mention it they wear a smile and grin,
We wonder if they rode the goat or if the goat rode them.

BEAUTY MAKER'S CARDS

THEY WERE FOUND IN THE POCKETS OF BUSINESS MEN IN NEW YORK.

LED TO A UNIQUE "DEN OF LIONS"

Intrigues of Apartment House Inmates Are Exposed by "Durandel" in His Gossip of Gotham Affairs.

Eighty dwellings of a size and style to get an average rental of $1,000 a year, with modish occupants to give a fashionable aspect to the population, of say 400 persons, would be enough to constitute a right showy suburban community, writes the New York correspondent (Durandal) of the Cincinnati Enquirer. An equal number of dwellers at an equal cost in a ten-story apartment house in town do not make anything like an adequate impression on tourists who roll past in sight-seeing motor cars.

Now, Durandel may be many kinds of a dolt, but he isn't that particular brand of idiot who tells tales from out under the roof that covers his head. So he says right here that the skyeerie is neither the name of the apartment house he lives in, nor of the one which he is going to write about.

The Skyeerie isn't over particular as to the character of its tenants, so long as they can assure the payment of their rents. In so big a city as New York all the inhabitants with money to live handsomely can't be expected to also live circumspectly. The Skyeerie is not the only structure housing eighty families from whose portal issues forth of a Sunday morning no men or women with prayer books at the hour of service in the churches.

Indeed, all the forenoons in the week are quiet in and around the Skyeerie. Its dwellers sleep till noon, as a rule, and midnight is for them an uncommonly early bedtime. Some of them are players at the theaters and have a past midnight suppering habit. Others are connected with the gambling interest, and their busiest hours are not those that the sun shines on. Still others are monied idlers, who, like the bats, sleep by day and fly by night.

The Suggestive Name.

Into such an apartment house as the Skyeerie there sometimes comes a tenant not tolerable even in that establishment of moral laxity. Such an one was Miss Mistletoe Twigg. That wasn't the name she gave when she rented her apartments. For that purpose she was Mrs. Smith, or something as ordinary as that, and a Mr. Smith accompanied her. But a nicely engraved card bore the words, "Miss Mistletoe Twigg gives beauty to hands and comfort to feet," together with directions to her flat. Many men found that card in their overcoat pockets during the past month. These men bear the marks of prosperity. Mr. Smith had chosen them during the crowded hours in the down-town commercial district, and, reversing the process of a pickpocket, slipped something into their pockets instead of taking something out.

A goodly proportion of the recipients perceived fun in the card. It purported, of course, to be the advertisement of a manicurist and chiropodist; but didn't the name "Mistletoe" suggest the Christmas kissing token of mistletoe, as well as a toe with a corn on it to fix, and didn't the "Twig" covertly ask the man to twig the meaning of the invitation to be something novel?

Those who went to the Skyeerie in quest of Miss Mistletoe Twigg found in her a dark-faced, black-eyed and red-lipped beauty who spoke with a Spanish accent. She had come really from Cuba, and maybe her brunette colorings had a taint of negro; but there was no suspicion of kinks in her jetty hair, nor of a flattening in the perfect nose, so why question the truth of her assertion that she was of pure and proud Castillian blood? She had the air and manner of a Spanish aristocrat. But monetary misfortune had overtaken her, so she said, and instead of turning her musical or lingual culture to account as a teacher, she decided to uplift the art of the manicurist and chiropodist.

An Easy Game.

According to her autobiographical chatter, she had been attended by a wonderfully dexterous maidservant in her days of luxuries in Spain, and this person had been especially expert in giving beauty to her hands—and she held out as pretty a pair of hands as nature and care ever produced to prove her assertion—and in imparting ease to her feet, at which she coyly extended a small, shapely pair of toes from under her skirt. Right at that point came the psychological moment of the interview. In one illustrative case it worked like this:

"Your hands are lovely," said a visitor whose nails she had been polishing, "but how can I know about your feet?"

"Why need you know?" she replied.

"Well, to give me confidence in your ability to improve feet. You are doing well with my fingers, but how do I know you are skilled enough to remove a corn that's hurting one of my toes?"

"Ah, but I could show no scar of a removed corn. My feet are like my hands."

"And they are exquisite."

What with ardent flattery on his part and enticing tricks on her part, the man struck up an acquaintance that in a week cost him as much as would give a satisfactory income to an ordinary corn doctor for a month.

The ostensible husband of Mistletoe Twigg was judicious in setting his traps to catch gudgeons. Especially did he avoid overdoing the game. He placed only sufficient cards to bring in as many victims as the girl could manipulate without arousing any special curiosity in the Skyeerie. Her patients rarely exceeded two or three per day, but, with her beauty and tact, and especially with her tale of Spanish aristocratic origin, she wheedled big sums of money out of them.

Wife Scores One.

The supposition is that some form of the badger game was planned; that the girl expected to fascinate some man of much wealth and proud family; that, when a case was made out, her pal would loom up as an injured husband, who would take a few thousand dollars instead. But disaster came to Mistletoe Twigg before any such thing as that could be brought about. A very obvious danger in her scheme had not ocurred to either her or her partner.

Some of the cards were sure to be found in the men's pockets by their wives, and, while most of these wives might credit the husband's assertion of ignorance as to how the cards got into the pockets, sooner or later a jealous woman would make trouble for the manicurist and chiropodist.

So it came about that one afternoon, a few minutes after a portly stock broker had entered the hand-improving and foot-comforting apartment, his irate wife was brought there by a detective who had trailed him. There was such a row that Mistletoe's business was exposed to the entire population of the Skyeerie, and she was ejected.

Here is a story of two neighbors in the Skyeerie. Whoever might have burrowed deeply into the life of Blazer would have found that the only event he considered memorble was the presentation of a handsome bassoon when he was 20 years old. He had never played on the instrument, but it always hung in the place of honor, and was kept carefully dusted. Blazer was married and was very jealous of his wife. When a cerain actor, lodging on the same floor, wanted to see the lady he used to drop a note, with merely the hour and place written in it, in the bassoon.

In Sweet Revenge.

On this particular evening the note read as follows:

"Nine o'clock, at the bridge."

Across the hallway from the Blazers lived Wilson, as jealous of his wife as Blazer was of his, but Mrs. Wilson was fonder of music than of flirtation, and as soon as her husband went out she placed herself at the piano to play out of tune. Since Blazer really had a musical ear this used to exasperate him beyond measure. This evening, the windows of the air-shaft being open, the noise became excruciating, and he had the idea to pay her back in her own coin. So he took down the bassoon, in which the actor had deposited the note and settled himself to make a great noise. Making a mighty effort, he blew the obstructing note out the window and into the mouth of Mrs. Wilson, who was about to take an upper C. Hearing nothing more from his suddenly silenced neighbor he thought she had had enough and retired.

In the meanwhile poor Mrs. Wilson had been choked by the scrap of paper, and just as she succeeded in getting it out of her mouth in walked her husband. He picked up the note, which he believed she had been trying to conceal by swallowing, and read it.

"You wretched woman!" he yelled, "so this is what you do? I will get a divorce."

In vain the poor creature protested that she was innocent.

"You stay here," he went on. "I myself will go to this rendezvous, and we will see what will happen then."

Merely Neighborly Kindness.

At five minutes to nine the actor was already at the bridge. What was his surprise when the hour struck to see Wilson.

"You weren't expecting me, were you, my good fellow?" said Wilson.

"Do you recognize that?" and Wilson pushed the note in front of him.

"May I ask," said the actor, who had recovered himself, "where you obtained that?"

"Out of my wife's mouth, sir," replied Wilson.

"I swear to you I did not put it there." And the accent of sincerity made Wilson almost believe.

"I certainly was very much surprised, as I thought it was Mrs. Blazer."

"Hush!" And he put his fingers to his lips.

"Then it was meant for her? How did my wife get it?"

"I really don't know; but I assure you it was never intended for your wife."

Wilson reflected for a moment. "Well, I'm very glad of it. But, then, Mrs. Blazer never got it, and doesn't know you are waiting for her. I'll tell you what I'll do; I'll go right home and tell her to come here. Shall I?"

"'You are really too kind.'"
Not at all. Delighted.'"
Wasn't that neighborly all round?

WANTS FINE SUSPENDED

"DOC" CALDWELL, THE BARBER, WHO RECENTLY DESERTED HIS FAMILY.

IS ANXIOUS FOR TRAVELING CARD

Before He Can Obtain It He Will Have to Pay the Two Fines Assessed Against Him by the Local Barbers' Union.

Thomas T. ("Doc") Caldwell, a barber formerly employed on Ohio street, who a few weeks ago deserted his wife and infant daughter here, and who, in addition, left numerous ceritors with the bag to hold, would like to "square things," it is said, with a view to returning to Sedalia, so some of his acquaintances think.

"Doc" is now at Junction City, Kan., where he worked before he came to Sedalia, and he writes to a friend here to ascertain if there is any chance of getting revoked the two fines assessed against him by the local Barbers' union because of the desertion of his family.

When he left Sedalia "Doc" did not take with him his union traveling card, without which he can not work in any city where the barbers are organized, nor can he get a clearance from the Sedalia union until the two fines assessed against him are paid.

From members of the union who have expressed themselves on the subject the Democrat-Sentinel learns that there is no probability of the local union remitting the fines; on the contrary, some of the members think he should have been expelled and his license as a tonsorial artist revoked.

HAPPY WOMEN.

Plenty of Them in Sedalia, and Good Reason for It.

Wouldn't any woman be happy,
After years of backache suffering.
Days of misery, nights of unrest,
The distress of urinary troubles,
She finds relief and cure?
No reason why any Sedalia reader
Should suffer in the face of evidence like this:

Mrs. T. B. Young, of 714 East Fourth street, Sedalia, Mo., says: "I can simply state that I owe my thanks to Doan's Kidney Pills on account of relief I obtained from their use. For two or three years I suffered from dull aching and lameness in my back, extending at times clear up to the top of my head, and often after stooping when I straightened up there would be a swimming in my head and a blurring of the eyesight so that I could hardly stand. Doan's Kidney Pills have given me greater relief from these troubles than any other medicine I ever used. It is a pleasure to recommend to others a remedy which proved of such great merit as yours did in my case."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

WON MRS. IRWIN AGAIN

SHE GOT A DIVORCE FROM JOHN S. FEE IN ST. LOUIS MONDAY.

LIVED IN SEDALIA MANY YEARS

Married a Man Fifteen Years Her Junior, Who Spent $80,000 of Her Money and Then Skipped Out With Actress.

The picture of a former Sedalia lady was printed in Monday afternoon's issue of the St. Louis Post-Dispatch, together with the following:

Mrs Dorothea Irvin Fee, 52 years old, obtained a divorce Monday from John S. Fee, 37, whom she accused of leaving her for another woman. Before the suit for divorce was filed Mrs. Fee had applied for an information charging her husband with abandonment. At that time Fee was living at the West End hotel. Beatrice Brevaine, formerly a "fencing girl" with Anna Held's "Little Duchess" company, was also a guest at the hotel. They left immediately after the information was issued.

Fee was formerly president of the Fee-Davis Coal Co. Judge Allen, in issuing the decree, allowed the wife $5,000 alimony, $500 counsel fee and permission to resume the name of Irwin, which she bore prior to her last marriage.

Mrs. Fee lives at the Usona hotel. She was married, according to her testimony, at Port Huron, Mich., Dec. 19,1900, and lived with her husband until Dec. 5, 1905, when, Mrs. Fee told Judge Allen, "he left the city and when he returned went to live at another hotel with another person."

Attorney Jeptha D. Howe, representing Mrs. Fee, said there had been an agreement whereby Fee should pay his wife $2,500 in lieu of alimony, but this agreement had not been carried out. Howe said that Mrs. Fee had decided to ask for more than $2,500 alimony. Mrs. Fee testified that her husband was traveling salesman for a champagne company, and that he had written her of his making $800 to $1,000 every two weeks.

Emil Dreyfus, a New York lace importer, filed suit against Beatrice Brevine, as his wife, asking for a divorce and naming Fee. Dreyfus now has pending against Fee a suit for alleged alienation of his wife's affections.

Mrs. Fee, or Mrs. Irvin, as she will call herself, has pending against Fee a suit for between $80,000 and $100,000, which, she says, she loaned him. Her maiden name was Estling and her home was in Detroit. Her first husband was a wealthy railroad official. She had been a widow five years when she married Fee.

KATY HAS RIGHT OF WAY

Over Cars of Street Railway at Third Street Crossing.

(From Tuesday's Daily.)

As a preliminary to the operation of street cars over the car company's new route, via East Third street to Sixth street, Supt. N. J. Finney, of the Katy, today issued a bulletin to all concerned, covering the passing of road engines and switch engines over the main line tracks and "Y" switch on Third street.

The bulletin requests such engineers to approach the Third street crossing with their engines under control, between the hours of 6 a. m. and 11:30 p. m. It also states that the Katy has the right of way over the tracks over the street cars, but that the crossing should not be blocked any longer than five minutes.

Concluding the bulletin requests Katy men to assist in replacing a derailed street car in the above locality.

COLD TOWARD GOOD ROADS

Osage, Gasconade and Franklin Counties Opposing Movement.

Jefferson City, Mo., Oct. 29.—Curtis Hill, state highway engineer, was here Sunday, on the way to Montgomery county to attend a mass meeting of the citizens of that county at New Florence Tuesday to perfect an organization of that entire county into one special road district for the purpose of building the central route of the Kansas City-St. Louis state highway.

Mr. Hill says that from information received from that county the citizens are ready to build the highway and that if present plans do not miscarry this county will be organized into one special road district at the mass meeting Tuesday.

Mr. Hill has been devoting his time recently to the southern route which will pass through Jefferson City. He says the work is progressing nicely on this route west of Jefferson City, but that because of the lack of interest in and the opposition to the movement on the part of the citizens of Osage, Gasconade and Franklin counties, the southern route from Jefferson City east has been abandoned for the present at least.

The southern route will now be constructed from Kansas City to Jefferson City, where it will cross the toll bridge and connect with the middle or central route.

TWELVE STATES TO VOTE

SIX COMMONWEALTHS ARE TO VOTE ON TUESDAY, NOVEMBER 5.

FIVE TO SELECT STATE OFFICERS

Many Tickets in Field—Mississippi Has Only One, That Being the Democratic—Noel for Governor.

New York, Oct. 29.—There will be elections in twelve states one week from today. In Massachusetts, Rhode Island, Maryland, Mississinpi and Kentucky a governor and other state officers are to be chosen; in New Jersey a governor only; in New York two associate justices of the court of appeals; in Pennsylvania a state treasurer, and in Nebraska a railroad commissioner and two regents of the State University. In Ohio, Utah and California municipal officers are to be selected, while in New York county a number of judges and a sheriff are to be voted for.

The prohibitionists have a state ticket in all the states, except Maryland and Mississippi, and city tickets in Cleveland and Cincinnati, but not in San Francisco or Salt Lake.

The socialists also have tickets in all the states, except Mississippi and Maryland, and city tickets in Cincinnati, Cleveland and Salt Lake, but not in San Francisco.

The socialist labor party has tickets in Kentucky, Massachusetts and New Jersey, while union labor made nominations for city officers in San Francisco.

There is only one ticket—the democratic—in Mississippi, and the result, of course, s not doubtful.

In Massachusetts there are ten tickets, five being divided among the democrats, who are engaged in a factional fight in the state delegation to the national democratic convention next year in prospective. The ballot law commission decided that Henry M. Whitney was the nominee for governor.

In Nebraska the democrats and populists fused on the officials to be voted for throughout the state.

In Maryland there will be a straight contest between the democrats and the republicans, only the two parties having made nominations for state officers. In addition to these, a house of delegates and one-half of the state senate are to be elected. The next legislature will choose two United States senators—one to fill the unexpired term of the late Arthur P. Gorman and the other to take the place of Senator Rayner. The republicans adhere to the old plan of senatorial election, but the democrats are to put into effect a new senatorial primary plan, which requires every member of the legislature to vote for the candidates receiving the highest vote in his district. The senatorial primaries, so far, at least, as the democrats are concerned, will hereafter be a part of the regular elections in Maryland. Three aspirants for the long term will be voted for Nov. 5 the candidate for the short term having no opposition.

The local elections, particularly in New York county, Cleveland, Cincinnati, Salt Lake and San Francisco are of particular interest this year.

In New York county the republicans and the independence league (Hearst) forces have fused on the county ticket, which is made up of a number of court justices and a sheriff. This gives unusual interest to the contest, although the republicans named the head of the ticket, M. Linn Bruce, for justice of the supreme court. The most important office that of sheriff, went to the independence league, whose nominee, Maximilion F. Ihmsen, has been William R. Hearst's campaign manager in several campaigns. Of the ten judges nominated, the republicans named five, and the league the others.

Opposed to Ihmsen, on the democratic ticket, is Thomas F. Foley democratic leader of the second assembly district, and a well known figure in east side politics, while James W. Gerard heads the democratic ticket for justice of the supreme court. Soon after the nominations were made Mayor McClellan who had been opposed to the present Tammany machine, announced he would support the democratic ticket against the republican-Hearst combine.

In Cincinnati there is a triangular contest, Dempsey, (democrat), being opposed by Frank Pfaff, elected vice mayor two years ago on the same ticket with Dempsey, and by Colonel Leopold Markbreit, the veteran German editor. Pfaff heads the city party ticket, which includes several democratic nominees, and Markbreit is the republican candidate.

In Cleveland Congressman Theodore E. Burton is contesting the mayoralty wth Tom Johnson, who is understood to be the representative of William J. Bryan in Ohio, and to endorse Bryan's views on the subject of public utilities.

There are four tickets in Salt Lake City ,the American or anti-Morman party, having made nominations for local offices, as have the democrats, republicans and socialists.

In San Francisco the democrats and the good government forces have combined and nominated the present acting mayor, who is opposed by a republican as well as a union labor candidate, and the three-cornered fight is decidedly lively.

Going on Extended Trip.

John Pregge, the veteran caterer, leaves next week for an indefinite visit in Tennessee, Arkansas, Kentucky and Texas. His stops will include interesting places between here and Corpus Christi, Tex.

TIED TO A TOMBSTONE

JURY RETURNS $14,000 COSTS AGAINST HAZERS AT KEWANEE, ILL.

THE CASE WAS MOST SENSATIONAL

THE PURITY CONGRESS

MET AT BATTLE CREEK, MICH., TODAY FOR A SESSION OF SEVEN DAYS.

BE ENTERTAINED FREE OF EXPENSE

Evangelist John H. Roberts, of London, Will Tell of the Great Work Accomplished by the Alliance of Honor.

Special to the Democrat-Sentinel.

Battle Creek, Mich., Oct. 31.—With a meeting of the executive committee and preparatory and devotional exercises, the National Purity congress opened its sessions in Battle Creek today. Distinguished religious, educational, charitable and socialological authorities from all parts of the country are present and will address the congress during the seven days of its sessions. Among those who will speak this evening are Mrs. Anna Sloan Walker, national chairman of the Woman's Prohibition club of America, and the Rev. Fr. J. K. Cleary, of Minneapolis, who will discuss "Christian Purity in the Christian Home."

The congress is being held under the auspices of the National Purity Federation, an association having for its object the affiliation of all organizations in America that are promoting purity in the life of the individual and in social relations. The federation is non-sectarian and its members include Catholics, Protestants and agnostics. Its growth during the last year has been very rapid and its mission now is fully recognized by all religious and reform bodies.

B. S. Steadwell, of LaCrosse, Wis., is president of the federation, and is presiding at the congress. Other officials are Dr. Howard Kelly, of Baltimore, first vice president; the Rev. Dr. Sylvanus Stall, of Philadelphia, second vice president; Mrs. Rose Wood-Allen Chapman, of Brooklyn, recording secretary; Miss Hattie Dickson, Marshalltown, Ia., corresponding secretary; Dr. Carolyn Geicel, Battle Creek, treasurer. The advisory board includes Anthony Comstock, the Rt. Rev. Dr. Samuel Fallows, Evangelist J. Wilbur Chapman, Rabbit H. Peirara Xendes, Judge Ben Lindsay and others equally well known.

All of the delegates will be entertained free of expense at the Battle Creek sanitarium as the guests of Dr. J. H. Kellogg.

One of the most important objects to be considered during the congress is that of conservative and practical methods of imparting instruction in sexual physiology and hygiene and moral education in the home by physicians and ministers.

The white slave traffic will occupy an entire session, and every proof will be offered that there is a thoroughly organized and systematic traffic in girls, whereby they are actually sold into vice, and that this traffic extends throughout this country and foreign lands.

Other sessions will be devoted to legislative matters, law enforcement, social diseases, rescue work and kindred topics.

Among the sixty prominent speakers appearing on the program, including the leading social reformers of the United States, Canada and Europe, are many clergymen and sociological workers who are known throughout the civilized world. Fr. Cleary, who appears upon tonight's program, is foremost among the Catholic priests of the country in the moral reform movement. Evangelist John H. Roberts, of London, will tell of the great work accomplished by the Alliance of Monor, the largest purity society in the world for young men. Anthony Comstock, the famous anti-vice crusader, will also tell of his work.

Other speakers include Bolton Hall, of New York; E. K. Warren, of Michigan; John R. Newcomer, of Chicago; Mary Church Terrell, the eminent colored woman of Washington; Miss M. F. Laughton, of Toronto; Elizabeth Graannis, of New York; Wiley J. Phillips, of Los Angeles; Mrs. M. Evelyn Crompton, of London; Dr. Pohlman, of Philadelphia; Dr. Emma F. A. Drake, of Denver; the Rev. L. L. Pickett, of Kentucky; Miss Sevasti Callisperi, of Athens, Greece; Lucy Page Gaston, of Chicago, and Arthur Burrage Farwell, of Chicago.

With such aggressive reform and religious leaders in conference for an entire week, it is expected that the congress will accomplish much of value toward the solution of many of the social, economic and personal problems which lead to vice, and result in the so-called "crime waves" which from time to time sweep over American cities. In this connection, the charge that the press of the country is responsible for the spread of crime waves, by printing full and inflaming details of outrages, will be considered at length.

Among the organizations represented at the congress are the Women's Christian Temperance union, Society for Suppression of Vice, American Woman's Suffrage association, National Friends' society, Christian Endeavor society, Epworth league, National Child Labor society, International Helping Hand society, Royal Templars, Sunshine society, Alliance of Honor and National Council of Jewish Women.

A NEW RULE IS ADOPTED

BY SEDALIA BANKS AND TRUST COMPANY UNTIL FINANCIAL FLURRY IS O'ER.

CANNOT GET MONEY THAT IS DUE

For This Reason Large Currency Payments Suspended for Time Being —Every Home Institution is Perfectly Solvent.

(From Tuesday's Daily.)

The three national banks of this city—Citizens', Third and Sedalia—the Sedalia Trust company and the Sedalia Clearing House today adopted the following rules for the government of the local institutions named until the present financial flurry throughout the country is quieted:

By Order of the Clearing House.

In vew of the action taken by the clearing houses in Kansas City, St. Louis, New York and other large cities of the country, and for the protection of the public and business interest of Sedalia, Mo., it has been deemed advisable by all the banks of this association and the Sedalia Trust company to cease currency payments, except in small amounts, until the financial situation over the country is quieted. This has been ordered by the Sedalia Clearing House, of which the banks named below are members, and therefore only checks or certificates of deposit for $50 or less will be paid in currency and not more than $50 in any one week on any acount. All checks for any amount will be paid through the Clearing House as heretofore. The Clearing House of the city of Sedalia has been forced to adopt this rule for the reason that the banks and trust companies of St. Louis, Kansas City, Chicago and New York have absolutely refused to ship currency to any outside bank, and have refused to pay our drafts, in currency, on our balances held by the banks in Kansas City, St. Louis, Chicago and New York. There is no question about the solvency of each and every bank in the city of Sedalia, but it is simply a question of shortage in currency.

All regular customers of the banks will be accommodated with loans as usual, but the amount must be deposited to their credit and subject to the above regulation as to amounts drawn out by check, namely, not over $50 a week.

This rule is in force by all of the following banks and Trust company of Sedalia, Mo.:

Sedalia Trust Company,
Third National Bank.
Citizens' National Bank.
Sedalia National Bank.

And now a word about Munsing Union suits. There are good reasons why every school child should wear them. We have sold them for a number of years, and many of our customers have thanked us for calling attention to them. They are easy to put on, always stay in place, cost no more than vests and pants and are much more comfortable and satisfactory. They are knit from yarns of fine quality and will wash better and wear longer than any other similar suits on the market, and they are not dear either; in fact, quality and durability considered, they are most economical.

RULES OF CONTEST

The essays should contain from 100 to 200 words, should be written on one side of the paper and should be put in envelope mared "Munsing Underwear Prize Essay Contest" and mailed to our store not later than November 15th. To avoid favoritism or any appearance of it, all essays must be submitted under an assumed name. Enclose with your essays a sealed envelope containing your correct name and address, also the name assumed for the purpose of this contest. On the outside of this envelope only your assumed name should appear.

The essay that wins the first prize offered by us will be published in this paper when the prize is awarded.

SOROSIS CLUB MEETING

The Program That Was Carried Out Monday Afternoon.

(From Tuesday's Daily.)

The Sorosis ladies met Monday afternoon, when Mrs. D. T. Abell read the reciprocity papers on "Civic Life," the discussion being participated in by Mesdames Louis Hoffman, J. H. Rodes, Newton Cannon, D. H. Smith, S. G. Mason, W. W. Hoffman and H. A Pratt.

Mrs. C. E. Caine urged that civic work be begun at once, and Mesdames D T. Abell, J. B. Mockbee, O. M. Barnett and Louis Hoffman were named as a committee to investigate neglected matters and report the same.

In the curent topic section, there were interesting discussions of bacteria on money, the Edison house that is cheaply and durably constructed (referred to in detail in the Democrat-Sentinel last week) and woman suffrage in Colorado.

STUDENTS NOT SLOW

They Got a Move on Themselves and Built Bleachers.

The students of the University of Missouri at Columbia have a way of doing things that is not at all slow. Last week an enterprising student from Hannibal conceived of the idea of enlarging the bleachers on the foot-ball field.

He got a few men together, unfolded his plans and in less than no time the whole student body was acting as one man for the erection of the new bleachers. Over $1,000 was raised, the materials purchased and the work completed in time for the Missouri-William-Jewell game. The bleachers will increase the seating capacity of Rollins field by over 2,500.

The task was one of the biggest ever undertaken by the university students and the dispatch with which they accomplished it gives evidence of a wholesome spirit in the student body.

ROBBED A REPORTER

Took From Him $2.50 in Cash and Two Gold Teeth.

St. Louis, Mo., Oct. 29.—Justus Geiger. 6956 Hancock avenue, employed in the sporting department of the Post-Dispatch, is minus two gold teeth, which he had until 11 p. m., Sunday, but which were removed by two highwaymen at that hour at the Frisco railway station at Greenwood, Mo.

Geiger had been visiting friends at Greenwood and was waiting a train to St. Louis, when he was confronted at the station by two men, who pointed pistols at him and commanded him to hold up his hands. Geiger promptly complied and was relieved of $2.50.

"Got any other valuables?" asked the highwaymen.

Now Geiger is a humorist, so he grinned and pointing to his front teeth, said:

"Got a pair of gold teeth here.."

One of the robbers grabbed him while the other knocked out the teeth with the butt of a revolver, remarking

"Don't be so damned fresh next time"

Geiger won't.

"KATY" MAINTAINS RECORD

Only Victim of Dallas Wreck Was an Employe.

Late reports from the scene of the Katy wreck, eight miles east of Dallas, Texas, Sunday state that Fred C. French, fireman, was the only person killed. The Katy road, therefore, maintains its record unbroken, that not a passenger has been killed on the road in a wreck.

French was a son of Judge June French, of Chillicothe, Mo., and a brother-in-law of the postmaster of the same city. The dead railroader is said to have left quite a large estate. The body was shipped to the Missouri home last night. French was 20 years old.

Jose Hernandez, a Mexican student from Sedalia, who was hurt in the wreck, is doing well. There were nearly forty passengers injured. Fifteen are in St. Paul's sanitarium in Dallas. The others were not badly hurt. Reports from the sanitarium are that all the injured will probably recover.

NEW LAW BADLY NEEDED

TO PREVENT STOCK JOBBING WITH TRUST FUNDS IN AMERICA.

FAULTS IN SYSTEM POINTED OUT

Say British Banks Do Not Speculate and Are Extremely Conservative Concerns in Methods.

Francis W. Hirst, editor of the Economist, and George Palsh, editor of the Statist, made highly interesting statements today to your correspondent with reference to the New York financial situation, writes the London correspondent of the New York Times.

"I am inclined to predict the present financial disturbance in New York will be productive of great benefits," said Mr. Hirst. "We must remember that America's wonderful resources always are there and cannot be removed by a temporary uneasiness.

"Important reforms in your currency and banking systems and an amendment of your corporation laws, making it impossible to utilize trust funds in stock jobbing, would really be worth much more agony than has or is likely to be experienced during the present difficulty.

"I don't think English investors will invest in United States securities until they feel there is some such security as I refer to.

"New York's wonderful advantage over such financial centers as Berlin, Amsterdam and Hamburg is that characteristic which is regarded in shallow-thinking circles as its greatest drawback—its troubles always come to the surface and in the process of washing its linen in the lime light glare of the nations many valuable lessons are obtained which other centers might be slower in learning.

"I can always learn the worst about any disturbance in New York in a very short time, and this is more than I can say about some other great financial centers. The prevalence of such a combination of barometric indications naturally is a good thing for investors, whose confidence may be re-established as the result.

London Will Feel It.

"The reverberation of New York's anxiety will soon reach London, but for the moment people on the stock exchange are congratulating themselves on their freedom from American bondage, which means there is not so much paper here as a year ago and we are not so much dependent on the American markets as we were. At the same time, if the fabric of American credit is disturbed, London will be sure to feel it. The same is true in Amsterdam, Hamburg and Berlin.

"My opinion is that the same thing will happen in America as happened in England after the South American war, when the capital resources of the country were severely depleted and consols declined. The resources were replenished in good time, and the consequence was that a large amount of stored-up capital was brought forward by investors whenever they saw securities fall in inviting figures.

"But London differs from New York in four points.

"1. We do not deposit money in sham banks.

"2. Our banks do not speculate.

"3. We have a sound banking system.

"4. Englishmen's nerves are not so lightly strung as Americans, and consequently there is not so much of histrionics here during a temporary disarrangement. Really, there is a lot of acting in Wall street during such a flurry as the present.

"Then, too, we are not handicapped with men of nigh financial position with shady reputations, and consequently investors minds are not kept in a perpetual state of suspicion. Moreover, the bank of England compels great confidence.

"The present bank rate of 4½ per cent may rise at any moment on account of gold being taken to America. This question is important to my mind because credit disturbances in the United States are connected with grave commercial and manufacturing disturbances. How far credit in the United States is bound up in land speculation I am unable to say. That information we eagerly await."

Recurs Periodically.

Editor Palsh, of the Statist, in giving his view of the New York situation, said:

"This is one of the recurring periodical crises which come to the progressive nation. The United States enjoyed 10 years of almost unbroken prosperity. The slight depression in 1904 really did not interrupt progress, as it was entirely due to what we might term a false alarm of crises, the railway companies, in anticipation of a serious setback, having reduced order for material and equipment.

"A financial crises arises for the most part from a nation's having outrun its capital resources. No nation can progress faster than its new supplies of capital permit, and the volume of trade in the United States for the last 12 months, indeed, for the last two years, has been getting beyond the capital supply.

"Last year the crises was averted by large loans from Europe. In 1907 the demand for capital has exceeded the supply to a greater extent than last year, and, as Europe this year has not been disposed to place much banking money at the service of the United States, it has become necessary for our people to curtail their capital down to the level of or beneath the supply.

"That one or two trust companies have come to grief is not a matter of surprise. Every period of overtrading reveals weak spots in the economic fabric of a nation and indicates to business men, statesmen and economists measures that should be taken to modify practices and conditions in order to remove the disclosed weakness.

"I have no doubt the experience which the trust companies are now gaining will cause them to take such measures that their strength will never again be called into question.

"I don't anticipate that the crises will result in a prolonged period of trade depression in the United States. The wealth and production of your country never were greater than at present, and all that is necessary to square matters is for the American people to curtail expenditures and be careful to keep supplies of new capital well ahead of requirements.

"The result will be that in a short time sufficient capital in abundant supply will be accumulated in the United States, and another period of great progress will become possible.

Causes of the Depression.

"Beyond the economics of the American people two or three other factors exist which tend to cause trade depression to be of short duration.

"The first of these is the world's imense good production, which will enable your people to secure all the gold they will require for strengthening the reserves of their banks and trust companies.

"The second is the prosperity of the American railways. Their excellent management and conservative action in devoting about half their profits to betterments have given them strength to withstand a period of relatively severe depression without much inconvenience.

"Indeed, a depression which will increase the supply of capital available for investment in securities of a high class character will enable the railways to raise money urgently needed for greatly increasing the transportation facilities of the country. The strength of the American railway corporations at present is in striking contrast to their weakness in 1893, when, owing to the currency crises, so many became bankrupt.

"Indeed, the financial and physical strength of the railroads, and the low prices to which their securities have now fallen, will probably induce considerable purchases of stocks and bonds by European investors who realize the great change in the position of the roads in the last 10 years.

"Inflow of capital from Europe for the purchase of the securities of railways, and even of industrial companies, will assist to provide that great fund of new capital which must be provided if the American people are to transact a still greater volume of business in the future than they have in the past, and I have no doubt that after a relatively short period of liquidation and recuperation the volume of business in the United States will again begin to double itself in the next decade, as it has done in every previous decade in the history of the country.

"I regard the present state of affairs in the United States as affording an excellent oportunity for European investors to place capital there on exceedingly advantageous terms."

BAD MILK CAUSES DEATH

IT KILLS SIXTY PER CENT OF THE INFANTS IN CITY OF ST. LOUIS.

AWFUL CONDITIONS ARE FOUND

Edward H. Webster Comes From Washington to Begin Dairy Crusade That Is to Be Most Thorough.

St. Louis, Oct. 29.—Impure milk kills 60 per cent of the children who die in St. Louis in the summer months, according to a statement by Ed H. Davis, chief of the dairy division of the United States department of agriculture, to a reporter at the Terminal hotel Monday.

Mr. Webster is in St. Louis on a special assignment from the government to investigate the conditions surrounding the gathering, handling and distributing of the city's milk supply.

He is accompanied by his assistant, Dr. George M. Whitaker, who is inspecting St. Louis dairies, with the co-operation of the health department.

Mr. Webster said Monday that after inspections made Saturday and Sunday Dr. Whitaker reported to him that conditions in the large milk distributing plants of St. Louis are "very bad."

"He tells me that because of the slip-shod methods used in handling milk the St. Louis consumer has no assurance that the product is sanitary and wholesome," said Mr. Webster.

Today he is making a tour of the outlying dairies. He will make a thorough report on the conditions which he finds in those places.

"Our purpose in visiting St. Louis is to introduce here a score card system, which has been adopted in many cities of the eaast and on the Pacific coast, and which is calculated to raise the standard of milk sold for family consumption.

"The plan is to distribute cards to all dairymen who furnish milk for use in the city.

"On these are printed a list of the points on which the milk is to be judged. A certain percentage is allowed for each point and 100 per cent is perfect.

City inspectors visit the dairies from time to time and mark the cards and take them to the office of the sanitary division of the health department, where they are accessible to the public.

"Any citizen can go there and by looking at the records can tell the exact standing of the dealer from whom he is buying milk.

"Housekeepers have much to learn about the handling of milk. They should not keep it in an ice box in which there is any vegetable matter unless the vessel containing the milk is airtight."

CIRCUIT COURT ENTRIES

The Several That Were Made on Docket Today.

(Thursday's Daily.)

The following entries were made on the docket in the Pettis county circuit court today:

R. W. Whitlow vs. B. N. Burton, change of venue; judgment for plaintiff for $1,180 with seven per cent compound interest.

Agnes Gatewood vs. city of Sedalia, appellant; rebate merchants' license; dismissed for want of prosecution.

H. S. Tanner vs. Standard Life & Accident Insurance Co., insurance; plaintiff withdraws policy sued on and acknowledges satisfaction of judgment in open court.

General Electric Co. vs. Sedalia Transit Co.; motion for execution; evidence heard and taken under advisement.

R. A. Stanley vs. Sedalia Transit Co.; motion for execution; evidence heard and taken under advisement.

ELKS OPEN SESSION

"Best People on Earth" Had Happy Time Last Night.

(From Thursday's Daily.)

The Elks held another one of their famous social sessions at their hall last night, which was largely attended by members and invited guests.

Dr. W. J. Ferguson was toastmaster and presided with his usual ease and dignity.

After thoroughly enjoying one of the old-time "Dutch Henry" lunches, consisting of roast turkey, potato salad, cranberry sauce, celery and drinkables of various sorts, cigars were passed and the fun began.

There were songs by the Menefee trio, consisting of John, Sr., John, Jr., and Charlie; the sweet-voiced vocalist, "Heinie," Charles Mowbray and C. C. Lawson, wonderful sleight of hand "stunts" by W. E. Hoxie, which even astonished that old stager, "Germo" Combs, and a mock trial, in which Henry V. Leist was accused of selling liquor on Sunday.

Hon. J. H. Rodes presided at the trial, and the state was represented by C. C. Lawson and G. H. Scruton, and the defense by Messrs. Lee Montgomery and H. B. Shain.

The prosecuting witnesses testified to the purchase of goods at the time alleged and were corroborated by others, and even produced the stuff bought, labeled as to time, place and date, but three other men swore to three different alibis, and the defendant to another, and the jury found that if the accused had not been at one of the places he ought to have been, and so rendered a verdict of not guilty.

Another circumstance that helped the defense was that while Mr. Lawson represented the state officially, the other attorney for the prosecution was retained and paid by the Anti-Whisky society, which was represented by W. H. Cloney and W. J. Crouch. This fact created prejudice.

The entire program of the evening was thoroughly enjoyed, and at a late hour the session adjourned.

AN ACTOR NOW MISSING

SIX INDICTMENTS RETURNED AGAINST HIM IN NEW YORK CITY

FOR ASSAULTS ON LITTLE GIRLS

Was Already Out on a Bond of $3,000 on Similar Charge—The Belief Is That He Has Sailed for Europe.

New York, Oct. 30.—The sudden disappearance of Raymond Hitchcock, the comedian, has not yet been cleared up, and several theories are advanced as to what has become of the missing actor.

One is that he is on a steamer bound for Europe, another is that he has met with foul play, and the third is that he has committed suicide, having become crazed by the accusations against him.

Flora Zabelle, his wife, who is in the cast of the play in which Hitchcock had the leading role, says she knows nothing of his whereabouts. She was completely exhausted today as a result of the strain of the last twenty-four huors. She insists that he has been a victim of foul play, and declares that Hitchcock made absolutely no preparations for flight.

Six Indictments Against Him.

New York, Oct. 31.—Late last evening the grand jury filed six indictments against Raymond Hitchcock, an actor. The indictments charge assaults on young girls. Hitchcock was notified through his counsel, Hermann Fromme, to appear today before Judge Crain, of the general sessions. He has been out on $3,000 bail since his arrest on complaint of Helen von Hagen, 15 years old.

Elsie Voecks, Flora Whiston and Helen von Hagen appeared before the grand jury today as witnesses. They were examined by Assistant District Attorney Garvan. Superintendent Moore and Agent Pisarr, of the Gerry society, also testified.

The hearing on Hitchcock's complaint of extortion against Hugo C. Voecks is set for today.

Hitchcock did not appear at either the matinee or night performances yesterday. Morris Kirby, Hitchcock's personal representative, said that the latte had not been seen since 9 o'clock yesterday morning. Mr. Kirby said that it was his opinion that the comedian had sailed on the White Star liner for England.

Kirby said that the actor's wife, Flora Zabelle, called up Mr. Wagenhalls, of Wagenhalls & Kemper, and told him that Mr. Hitchcock had left home at 9 o'clock in the morning, saying that he was going to take a Turkish bath. That was the last seen of him.

Mrs. Hitchcock said that her husband had passed a sleepless night, and said that he wanted to brace up so that he could go on for the matinee. He had only a few dollars in his pocket, but wore his valuable diamond rings. Every bath house in town was called up on the 'phone and many clubs, but no trace of the missing actor was found.

The Hitchcocks moved in from their country home at Great Neck two weeks ago, and of late have been living at the Hotel Flanders.

Mrs. Hitchcock was persuaded to go on at both performances, but she collapsed several times and had to cut out several of her songs.

At midnight Henry W. Savage, who owns the "Yankee Tourist" company, announced that even in the event of Hitchcock's return, he would not star any more in the comedy at the Astor.

"Beery has proved himself a star in a day and night," said the manager. "Tomorrow we will replace Hitchcock's name with Beery's on the electric sign in front of the theater, and hereafter Beery will star through the scheduled run of the production."

Rev. C. E. Bradt, D. D., of Chicago, a man who has done a remarkable work among men, will be the guest of honor and deliver an address. There will be music and light refreshments and a very pleasant evening is anticipated.

Dr. Bradt will preach Sunday at the Broadway church.

Office Again Opened.

The Western Union Telegraph Co., after a suspension of several weeks on account of the strike has reopened its up-town office in Warrensburg, with Elmer Potter in charge as manager.

The Democrat-Sentinel actually believes that the Sedalia office of the Western Union was the best handled in Missouri during the recent strike, thanks to the efficient and ever-accommodating manager, Mr. Frank E. Gibbons, Jr.

DR. PHIL LAMM TO LEAVE

Will Take His Departure in a Few Days for Texas.

(From Thursday's Daily.)

Dr. Phil Lamm, son of Henry Lamm, judge of the supreme court of Missouri and one of Sedalia's prominent young dentists, has given up his practice in this city, and within a few days leaves for San Antonio, Tex., for an indefinite visit. He is closing his office today.

Poor health is the cause of Dr. Lamm's retirement for the time being. His intention is to engage in some business that will assist in upbuilding instead of pulling down his general constitution.

The best wishes of a legion of friends in Sedalia will always be with him.

OMAHA PUTS ON LID

Mayor of Nebraska's Chief City Orders Theaters Closed on Sundays.

Omaha, Neb., Oct. 31.—Mayor Dahlman today issued a proclamation calling upon all theaters and other amusement places and all business concerns which have been kept open Sundays to obey the law by closing their places on that day in the future. The proclamation commands the chief of police to enforce the order.

VOL. 1. NO. 43. $1 PER YEAR

DEATH AT HIGH SCHOOL

MISS CAROLINE DUNNICA. A JUNIOR, WHO WAS AGED ONLY EIGHTEEN YEARS.

LIVED WITH SISTER, MRS. WHITE

Had Been Here for Past Three Years While Attending School—Her Mother Is a Resident of Kansas City.

(From Monday's Daily.)

Miss Caroline Dunnica, 18 years old, daughter of Mrs. J. L. Dunnica, of Kansas City, and who for three years has been making her home with her sister, Mrs. H. L. White, wife of the route agent for the Pacific Express Co., at Tenth and Barrett avenue, died very suddenly of heart trouble in the upper study hall of the Sedalia High school at 8:45 o'clock this morning.

The death of the young lady caused the greatest possible excitement at the school as soon as it was learned by the students.

Miss Dunnica, who has been a junior at the school, entered the study hall at 8:30 o'clock and retired to her desk in the rear of the room. She sat down and prepared to take out her books.

Just as she did so she fell from her seat to the floor and moaned two or three times, while a number of students in the hall were gazing upon her.

The expression on the faces of the other students attracted the attention of Miss Eunice Cousley, in charge of the study hall, who hurried to the rear of the room.

Two of the male teachers at the school, Profs. Norris and Wise, carried the young lady to the office of Miss Letts, principal, who applied restoratives, but without effect, the patient expiring after gasping twice. Dr. W. G. Cowan was called immediately and pronounced the girl dead.

The body was removed to McLaughlin's undertaking rooms and prepared for burial, and later was removed to Mr. White's home. The remains will be shipped to Kansas City for burial and there will be no funeral services here.

Miss Dunnica, according to Mr. White, had not complained or even been troubled with heart ailment so far as he knew, although students at the school say she complained of slight pains about her heart recently.

Miss Dunnica has been making her home with her sister while attending High school here, and was an ideal student in every respect. Bright and quick to learn, she was considered by the teachers one of the school's best students, while her gentle disposition caused her to be popular with all acquaintances. She was a member of Calvary Episcopal church, and was a regular attendant at the services of the church.

In the absence of a coroner, occasioned by the resignation of Dr. Guy Titsworth, the remains were viewed just before noon by Justice Clark, who was accompanied by Dr. W. G. Cowan, and it was decided that an inquest was not necessary, but one will be held if the mother and other relatives desire it.

This afternoon a meeting will be held by the High school students, and two each will be selected from the Senior, Junior, Sophomore and Freshmen classes to accompany the remains to the depot, in company with Miss Letts, the principal.

WILL SOON ENTER UNION

President Will Proclaim Oklahoma a State November 16.

Washington, Oct. 28—The president will issue a proclamation admitting Oklahoma to statehood Saturday, November 16th, next.

The constitution of the new state was formally placed in his hands by Governor Frantz and a large delegation of Oklahomans at 11 o'clock this morning.

Did Not Prescribe Chloroform.

(Monday's Daily.)

Dr. W. H. G. White, the dentist, stated to the Democrat-Sentinel today that he did not prescribe the use of chloroform by Miss Dollie Moore for her gums, which drug resulted in her death last Friday night.

"I have been practicing dentistry for seventeen years," said Dr. White, "and have never yet prescribed chloroform for a patient."

Frank Is One of the Best.

Frank Plumer and wife are here from Sedalia, says the Warrensburg Star. Frank will leave the first of the week for El Paso, Texas, where he has been transferred to handle that territory for the Swift Packing company. Frank is one of the best men in the employ of the company and his friends are pleased to learn of his rapid advancement.

A New Rural Carrier

D. J. Kerstetter has been appointed carrier of rural route No. 1 out of Green Ridge, vice C. E. Phillips, resigned. S. E. Kerstetter has been named as substitute carrier.

NEW YORK NOW EASIER

FINANCIERS IN METROPOLIS BEGIN THE WEEK VERY HOPEFUL.

CHICAGO HAS SOME EXCITEMENT

One Bank Has a Heavy Run and Twenty-Five Police Required to Keep Crowd in Order.

New York, October, 28.—Fortified by the remedial plans adopted Saturday for the protection of New York's supply of currency, financiers began this week in a hopeful frame of mind. They are especially encouraged by the precautionary measures taken in other cities. The clearing houses in Boston, Baltimore and some other eastern cities declined today to issue certificates.

Exchange Not Opened.

Pittsburg Pa., Oct. 28.—It was decided not to open the stock exchange this morning, as had been planned last week.

Grain Trading Suspended.

Duluth, Minn., Oct. 28.—All trading in grain was suspended on the Duluth board of trade this morning, owing to the money conditions prevailing.

Chicago, Too, is Affected.

Chicago, Oct. 28.—The banks in this city today are largely upon a checking basis and refuse to pay out large amounts of currency. There were runs on the Illinois Trust and Savings bank and the Haberman Savings bank. At 1 o'clock the crowd of depositors at the latter bank became so thick and unruly that twenty-five policemen were sent for to preserve order.

DEATH OF MR. GIBBONS

End Came at Boonville at 6 O'clock This Morning.

(From Monday's Daily.)

Frank E. Gibbons, Sr., a retired sawmill owner of Boonville, father of Frank E. Gibbons, Jr., of this city, and Walter Gibbons, of Fort Scott, and who had been ill nine weeks with stomach trouble and lying at death's door for several days, died at his home in the Vine Clad city at 6 o'clock this morning, aged 68 years.

Mr. Gibbons was a native of England, but came to America in 1852. He located at Depere, Wis., and in 1873 removed to Boonville, where no man in the community was held in higher esteem.

Besides the two sons named, Mr. Gibbons is survived by his wife, another son, Earle, and one daughter, Mrs. Fred G. Lohse, of Boonville.

Mr. Gibbons was a consistent member of the Southern Methodist church in Boonville, and the burial will be at Walnut Grove cemetery in Boonville at 2 o'clock Wednesday afternoon.

HE CANNOT QUIT HIS JOB

THIS IS TRUE OF THOS. KNOTTS, POSTMASTER OVER AT GARY, IND.

LOSES OUT EVERY DAY IN OFFICE

His Position Costs Him $80 a Month in Excess of His Salary, and Yet Uncle Sam Won't Permit Resignation.

Chicago, Oct. 28.—Thomas Knotts, president of the board of trustees and postmaster of the town of Gary, Ind., is losing money as custodian of the mails, and wants to resign, but Uncle Sam won't let him.

When the office of postmaster was established, with a salary of $90 per month attached, and the only work was handing an occasional letter to the few hundred laborers which at that time comprised the town, it looked inviting to Knotts.

He was "mayor" of the steel city and president of the real estate board and several other things when his duties as postmaster began to grow.

More people came to Gary, and with them the mail business continued to grow and the clerical force now numbers four men, whose joint salaries reach $170 a month, or $80 more than the amount received by Knotts as postmaster. He has to pay them.

He has sent letters to his superiors at Washington begging that he be relieved. He obtained no satisfaction, and then declared that if there was not more money forthcoming he would shut up shop. Back came the stern reply that if he did he would feel the force of the federal law. He is still paying out more than he receives.

CLARENCE SMITH SHOT

Accdentally By a Companion While Hunting Game.

(From Monday's Daily.)

Clarence Smith, 17-year-old son of Sam Smith, a Katy car inspector, residing at 624 East Thirteenth street, was dangerously wounded, accidentally, while hunting at Good Will chapel, near this city, at 4 o'clock Sunday afternoon.

The Smith boy was accompanied by a number of friends. One of the party, a son of Mrs. Russell, of East Thirteenth street, attempted to shoot a squirrel. His aim was poor and he shot the Smith boy.

Seven No. 4 shot entered the boy's head, one passing through the right eyelid, nother through the right ear, one entered the right temple and several lodged in the boy's forehead.

He was removed to his home and Dr. W. D. Fansler summoned. The wounds were dressed, but today the attending physician was unable to state what would be the outcome of the injuries.

JOHN WELBORNE IS DEAD

Former Congressman Succumbs to Typhoid Fever.

Lexington, Mo., Oct. 28.—John Welborne, aged 50 years, died here Sunday afternoon from typhoid fever and a paralytic stroke.

Mr. Welborne was elected to congress in the Seventh district in 1904 and was defeated for re-election in 1906 by C. W. Hamlin, present member. He was a successful lawyer and enjoyed a lucrative practice and was a staunch republican.

A widow survives him, but her life at this time is despaired of, her health for years being poor. The funeral will be held Tuesday morning.

THE DOORS ARE CLOSED

BANKERS' TRUST COMPANY OF KANSAS CITY STOPPED PAYMENT.

WAS DONE FOR SELF PROTECTION

Feared a Run and Aid Was Refused—All Indian Territory Banks Closed for a Week by Order of the Governor.

Kansas City, Mo., Oct. 28.—The Bankers' Trust company, of Kansas City, Mo., with deposits of $800,000, closed its doors at 10:15 this morning. Cashier J. C. Hughes said they had decided to close because the Clearing House association refused to extend to them the privilege granted the thirty other leading banks here of issuing clearing house certificates. The Bankers' Trust company had asked aid of the clearing house, but it declined because of the class of collateral offered.

James F. Downing, president of the clearing house, said that no other banking institution here had requested aid, and he believed that they are all safe.

The Bankers' Trust company had a capital of $500,000, and took over the business of the City National bank, which failed two years ago. It is not a member of the Clearing House association, and while no run has been experienced it decided that a temporary suspension was necessary to protect its depositors and stockholders. Cashier Hughes says that it has ample assets.

Up to 11 o'clock this morning there was no appearance of anything like a run on any of the other local banks. The clearing house yesterday decided to issue clearing house certificates and to restrict payments of currency to $100 and also not to send any further currency to the country for the time being. The savings banks and trust companies took similar action.

The officials of the clearing house today advised their correspondents in the southwest by telephone to follow suit and restrict all payments of currency temporarily and indications are that this advice is being generally accepted.

Closed for One Week.

Oklahoma City, Okla., Oct. 28.—On demand of the bankers of the territory, Acting Governor Chrles Filson, in the absence of Governor Frantz, today issued a proclamation closing the banks of the territory for one week. The action was taken because the banks of Kansas City and St. Louis have refused to forward cash to the banks of the southwest.

Telephone consultations between many bankers in Oklahoma, Indian Territory, Arkansas and Northern Texas took place early this morning, and many are said to have taken similar action. There has been no uneasiness in this city, and bankers say that deposits last week were greater than in any previous week of the month.

The closing is for the purpose of protecting the banks in case of a run, since the banks here could not get cash from Kansas City they consider the risk too great. The banks of this city are carrying many small institutions over this territory. They have arranged to issue clearing house certificates to carry them until conditions are improved.

Kansas Banks Also.

Arkansas City, Kan., Oct. 28.—All Arkansas City banks and many of the banks in other neighboring towns of Southern Kansas declined today to pay currency to depositors, but none of the institutions had closed this morning. After a brief period of excitement depositors generally accepted the explanation that the action was for mutual protection and would be only temporary.

Had Only $8,000 in Cash.

Kansas City, Oct. 28.—The Bankers' Trust company is in the hands of the state examiner. It is said it will liquidate. It had but $8,000 in cash on hand this morning.

The Governor's Proclamation.

The governor's proclamation was as follows:

"Whereas, it appears to the undersigned, acting governor of Oklahoma, that all of the leading citizens of the United States, through their clearing house associations, have entered into an agreement to protect themselves against a condition which they apparently are unable to control, and by such concentration are refusing to ship currency to country banks which have deposits with them, or to honor bills of lading drawn upon the banks of such or to pay checks of customers over their counters, and whereas, such action makes it impossible for the banks of Oklahoma to immediately meet the demands upon them for currency to pay for cotton and other products of the territory, and, whereas, our banks appear to be in a solvent condition; therefore, be it ordained that a legal holiday, extending from Oct. 25 six days, to Nov. 2, be proclaimed.

(Signed.) CHARLES FILSON, Acting Governor.

REED OUT OF THE RACE

HE IS FOR HON. W. S. COWHERD FOR THE DEMOCRATIC NOMINATION FOR GOVERNOR.

HAS MADE A PUBLIC DECLARATION

Two Party Leaders Have Long Been Personal Friends—There Will Be Others Who Will Fall Into Line Also.

Kansas City, Mo., Oct. 28.—James A. Reed, who has been considered a candidate for the democratic nomination for governor, made a statement publicly Saturday night in Independence that he had taken a seat in the Cowherd band wagon and will support his old friend in the campaign. The announcement that he is not to be in the race came suddenly and even, it is said, surprised Mr. Reed himself.

Reed went out to the Independence court house Saturday night to hear W. S. Cowherd and John M. Rood speak. Some 500 or more voters crowded into the court room to get a look at the candidate for the gubernatorial nomination.

Former Mayor Sam Woodson, of Independence, was chairman of the meeting. In introducing Mr. Cowherd the chairman referred to Reed as a democrat who ought to be governor of the state, and who would likely oppose Cowherd for the nomination.

"It was up to me to say something," said Mr. Reed after the meeting. "It was forced upon me by the chairman. I was about ready to issue a statement that I would not be in the race, but that chairman put me in a place where I had to do something. So I got up and swore allegiance to Cowherd. It was the statement I was intending to issue—only it was drawn from me a little early in the game."

Mr. Reed said he had long been a friend of W. S. Cowherd and that he would get out and lend him support in the campaign for the democratic nomination. Several hundred democrats heard Reed's announcement, and greeted it with cheers.

WENTWORTH VS. KEMPER

A Great Football Game in Sedalia on Thanksgiving.

Great interest is being taken by the Lexington people in the football game to be played Thanksgiving day at Liberty park, between the Kemper Military school, of Boonville, and the Wentworth Military academy, of Lexington.

If the weather is good a much larger crowd will follow the team from Lexington than two years ago, when a special train was run to take them.

The teams representing the schools are hard at work preparing for this game and are making fine records gainst the teams that they have already played.

Special trains will be run to Sedalia on Thanksgiving day, and all who are interested in the great college game should be sure to be on hand to see the contest.

Wants to Know Where Wife Is.

"Doc" Caldwell, the barber, who some weeks ago deserted his wife and infant daughter here, has written to "Dinky" Bealert to ascertain the present whereabouts of Mrs. Caldwell, with a view to having her join him at Junction City, Kas., where he is now employed.

It is understood Mrs. Caldwell and her child are now living at Fort Scott, Kas., and the husband and father was so advised by Mr. Bealert.

RAZOR PEDDLER FOUND

J. M. CONNELLY SAYS THAT HE SOLD NONE TO MISS SAPP OF S. F. WHITLOW.

SUSPECT WAS RELEASED LATER

Telegram Signed "Mrs. L. Richert" Notified Iola Prosecutor That Man Was in Muskogee—Denied Being in Moran at First

Muskogee, I. T., Oct. 28.—J. M. Connelly, a razor peddler, was arrested by the police Saturday, suspected of being the man who sold the razor with which Miss May Sapp, of Moran, Kas., was killed. C. J. Peterson, prosecuting attorney in Iola, arrived Saturday and held a long consultation with Connelly. The latter denied that he had sold a razor either to Miss Sapp or to S. F. Whitlow, but admitted that he had peddled razors in Moran a few days before the girl was killed.

Peterson returned to Iola after Connelly agreed to go to Kansas at any time that Mr. Peterson wanted him and on that agreement Connelly was released. He immediately left town.

Two days ago a telegram was sent to Mr. Peterson, signed Mrs. L. Richert. It read:

"Razor peddler is here. Come at once if you want him."

The woman who sent the telegram to Attorney Peterson, of Iola, Kas., was located Saturday night. She is Mrs. L. W. Ebert who conducts a rooming house in this city. Mrs. Ebert says that Connelly visits her home several times a year. She had read in the papers that a razor peddler was wanted in Iola, and as she knew that Connelly tramped that part of Kansas she wired to Peterson.

Connelly denied that he ever sold a razor of the brand which Peterson brought with him to Muskogee and with which Miss Sapp was killed. The fatal razor is the "Alliance" brand, made by Montgomery Ward & Co. Connelly says he never carried any of that company's wares. At police headquarters, however, it was said that several razors of the same size and make were found in Connelly's possession.

At first Connelly denied having been in Moran, but later admitted he was there.

Bond Raised for Whitlow.

Moran, Kas., Oct. 28.—Bond for the release of Samuel F. Whitlow has been raised. Although the amount fixed by Justice C. S. Potter was $10,000, a bond of $16,500 was pledged by Whitlow's two brothers and five other citizens of Moran and vicinity.

The bondsmen are T. E. Whitlow, J. A. Whitlow, H. B. Smith, J. H. Thompson, J. N. Thompson, J. C. Strong and E. E. Thomas. Smith is an implement dealer. The others are farmers.

The bond is to be taken to Iola today for approval. Whitlow will be released from jail as soon as it is approved.

TOWN ABSOLUTELY "DRY"

Citizens Think the Liquor Traffic Is Definitely Killed.

Twenty-one Salina joint keepers pleaded guilty in district court at Salina, Kas., last Friday to charges of violating the prohibitory law. Each was fined $200 and sentenced to sixty days in jail. Their sentences were suspended and many of them will leave town.

Three others, who pleaded not guilty, were convicted and fined $100 each and given thirty days in jail each. The jail sentences were suspended, but they must pay the costs.

Salina is absolutely dry today, and it is believed the liquor traffic there is definitely killed.

Four Generations in Picture.

(From Monday's Daily.)

W. H. Burnaugh, an old resident of this city, today brought to this office a group picture of four generations, his wife, their daughter, Mrs. John Hope, of Kansas City, the latter's daughter, Mrs. Fred Bersco, and the latter's baby daughter.

HONOR FOR A SEDALIAN

Wanted at Ice Carnival at Jamestown Oct. 29 to Nov. 1.

(Sunday's Daily.)

Edward R. Andler, president of the Western Ice Manufacturers' association, yesterday received a wire urging his presence at the Icemen's Carnival," to be held at the Jamestown exposition October 29 to November 1, when a delegate will be elected to the national convention to be held at Paris, France, next year.

Mr. Andler is one of Sedalia's busiest men, and he thinks he cannot spare the time to attend the Jamestown convention, but his friends are endeavoring to persuade him to the contrary, and it is believed they will succeed.

There is no man in the business in the west who stands higher than Mr. Andler, as was attested when he was elected to the presidency of the Western Ice Manufacturers' association, and stranger things have happened than his election as the American delegate to the Paris convention.

WANTS THE CONVENTIONS

Will Be Satisfied With One, but Will Work for Both.

St. Louis, Oct. 26.—The St. Louis Business Men's club at a meeting yesterday afternoon went on record unanimously as being in favor of continuing the fight for one or both of the national party conventions along the lines laid out three months ago, and not to back out in favor of Kansas City or any other place.

It was decided to stand pat on the communications recently sent to the national committees asking for the conventions. Despite the fact that the work on the Coliseum has not yet commenced, and there is no other place to house a national convention, the members believe that the structure can be built in time for the gathering.

Next week the building committee will report and definite statements can be sent to the national committees.

TRAIN GOES INTO DITCH

Enginemen Badly Hurt in Missouri Pacific Wreck.

Garnett. Kas., Oct. 26.—Train No. 123, westbound, on the Missouri Pacific, which left here at 12:30 p. m. yesterday, left the track at the fill, eight miles west. The engine and baggage car left the track and were buried in the cinders of the fill. The smoking car was thrown across the track. No passengers were hurt.

Engineer Ellwell and Fireman Wasson were caught under the engine and badly scalded. The engineer was also injured internally. Baggageman Wright was caught by the trunks in the baggage car and dangerously hurt.

All three were brought here for treatment. Engineer Ellwell is unconscious.

Going to Isthmus of Panama.

John B. Kyd, who has been taking a course in engineering at the state university, came in the first of this week for a brief visit at home, and will leave in a few days for the Isthmus of Panama, where he will take a lucrative position on the big canal, says the Green Ridge Local News. John is among our best young men, and his many friends will wish him success.

IN CITY HOSPITAL

Carpenter Suffering From Injuries Received Two Weeks Ago.

(From Sunday's Daily.)

George Herman, a well-known carpenter of this city, aged about 72 years, is confined at the city hospital, suffering from injuries received while at work at the state fair grounds about two weeks ago.

Mr. Herman boards at the Kaiser hotel and rooms in the Messerly building. Last Tuesday morning, Mrs. Ruth Taylor, keeper of the rooms in that building, found Mr. Herman in an unconscious condition. She attended to him and last Thursday reported his case to the city. He was removed to the city hospital, where it was found he had overstrained himself while at work.

Last night it was reported that he was much better, being up and around.

MRS. LAMBIRTH DEAD

Passed Away Saturday Night—Funeral Will Occur Monday.

(Sunday's Daily.)

Mrs. Lambirth, wife of G. T. Lambirth, died of stomach trouble at her home on North Moniteau avenue at 7:30 o'clock Saturday night, aged about 40 years. Rev. James Parsons, pastor of the First Congregational church, will conduct funeral services at the family residence at 2:30 o'clock tomorrow afternoon and interment will be in the city cemetery.

Besides her husband, Mrs. Lambirth is survived by one son, her parents, Mr. and Mrs. Ely Nichols, of Ashland, Mo.; a sister, Mrs. Maggie Roberts, of Kansas City; another sister, Mrs. Forcey, of this city, and several brothers.

The following will serve as pallbearers: E. M. Shields, W. W. Cecil, F. L. Ludeman, William Schneider, Henry Fisher and J. M. Brown.

TAKEN FROM A TRAIN

A "Butcher" Who Was Alleged to Have Been "Crooked."

(From Sunday's Daily.)

Jeff Davis, employed as a train butcher for the Vay Noy News Co. between St. Louis and Kansas City, was taken from Missouri Pacific train No. 2 here by Detective Kemp and Officer Robertson Saturday and was discharged by the company.

Complaint was made to the Van Noy people that Davis was "crooked," hence his discharge. Davis was arrested here by Officer Robertson several days before the opening of the state fair and given hours to leave town.

Davis returned to Kansas City on train No. 1 Saturday afternoon.

EARTH'S CRUST TWENTY MILES THICK AND NOT GROWING ANY COOLER.

THE QUESTION OF EARTHQUAKES

They Are Not Due to Secular Cooling of the Globe, But, Instead, Tis Said, to Leakage of the Oceans.

For almost a century scientists generally have held that the earth is cooling, and therefore slowly contracting, says the New York Sun. In this way they explain earthquakes and mountain formations. Now comes Prof. See with an elaborate argument more exhaustive than that of Lord Kelvin, tending to show that the effects of secular cooling of the globe are insensible, and totally denying the contraction of the earth.

Prof. See's memoirs may be summarized as follows: The earth's temperature has an eliptical distribution which, being about 8,300 degrees Fahrenheit at the center, and falling off toward the surface, where it is zero. As the earth slowly cooled, the crust was the only part which experienced an appreciable fall in temperature.

Hence the crust is thin, with a thickness of not more than 20 miles, which agrees with the depth deduced from the study of the world shaking earthquakes. The great earthquakes originate at the depth of about 20 miles, and none is known of a depth exceeding 40 miles.

As the earthquakes all have superficial origin, and no shakes have a deeper source, it follows that there is no deep seated contraction of the earth. Consequently all changes in the crust are due to ordinary earthquakes, and to no other cause.

Secular cooling is infinitely slow, and affects only the crust, whereas world-shaking earthquakes proceed from the layer just beneath the crust. As earthquakes occur mainly along the seacoast, they cannot depend on secular cooling, but must be due to the expulsion of lava from beneath the oceans.

Hence great earthquakes are not due to secular cooling at all, but to the leakage of the oceans, which produces steam beneath the crust. This eventually pushes out at the sides and raises mountains along the coasts.

As the effects of secular cooling are insensible, it follows that the earth is not contracting, as held in the books for three generations. Dr. See shows, indeed, that at an early stage of the earth's history contraction was going on, but it ceased after our planet became encrusted. In fact, he thinks that so far from contracting the earth may now be slightly expanding, owing to the formation of pumice everywhere beneath the crust.

The old theories that mountains are due to the secular cooling and contraction of the globe must therefore be abandoned. The mountains are formed by the expulsion of lava from beneath the sea, and hence they are parallel to the coast.

Dr. See concludes by a mathematical inquiry that the age of our encrusted earth does not exceed some 10,000,000 years, which is a much shorter time than geeologists have generally allowed. He also finds that radium plays no important part in the development of the globe.

Prof. See translates Aristotle's theory of earthquakes, which has never before been made accessible to English readers. The Greeks all held that earthquakes were due to the agitation of vapors within the earth, which tended to escape and diffuse themselves in the atmosphere. Aristotle observed the eruption of a volcano and concluded from the vapor noticed to escape that all earthquakes were due to the same cause as that producing eruptions.

When Plato was 54 and at the head of the academy in Athens and Aristotle was a boy 11 years old the Homeric city of Helike, on the southern shore of the Gulf of Corinth, was thrown down by an earthquake and overwhelmed by a seismic sea wave.

The cause of this disaster perplexed the Athenian sages, and has remained one of the mysteries of the centuries. Now comes Prof. See, who shows that it was due simply to the expulsion of lava from beneath the Gulf of Corinth, which thus made the sea bottom unstable, and when it gave way it also carried the shore on which Helike stood; indeed, the city was first devastated by the movement of lava beneath the crust and afterward subsided about 100 feet, so that it was covered by the waves until only the tops of trees remained above water.

Besides the sinking of Helike, other cases of the subsidence of the land are mentioned, and in the concluding note attention is called to the elevation of the mountain and the sinking of the sea bottom now going on in the vicinity of the Aleutian and Kurile Islands, in the North Pacific.

WAS FOUND DEAD IN BED

MISS DOLLIE MOORE, WHO WAS 23 YEARS OLD. EARLY SATURDAY MORNING.

TOOK OVERDOSE OF CHLOROFORM

A Post-Mortem Examination Was Held and a Verdict Returned That Death Had Resulted From Accident.

(Sunday's Daily.)

Miss Dollie Moore, 23 years old, daughter of Mr. and Mrs. David Moore, the former a Katy shopman, residing with their son-in-law, J. W. Devine, at 1612 South Prospect avenue, was found dead in bed in her room at Mr. Devine's home at 7 o'clock Saturday morning.

Death was due to chloroform, taken with the intention of easing an aching tooth, which remedy, was suggested by a dentist whom Miss Moore had consulted.

Miss Moore had been suffering exceedingly of late with the toothache. She consulted Dr. W. H. G. White, who, after filling her teeth, suggested that she rub her gums with chloroform to ease the pain. In accordance with instructions, Miss Moore purchased an ounce bottle of the drug at the Mertz drug store.

She retired at the usual hour Friday night, taking the bottle to bed with her. Mrs. Devine, who slept in the same bed with Miss Moore, heard her in her restlessness during the early part of the night.

At 5:30 o'clock yesterday morning Mrs. Devine arose to prepare breakfast for her husband and father. She did not notice Miss Moore until shortly after 7 o'clock, when she entered her room to awaken the young lady. Vainly she tried to arouse her, and upon investigating it was found that she was dead.

Miss Moore and her mother intended leaving last night for Atchison, Kas., to visit, and had their effects packed in anticipation of the trip.

In the absence of a coroner—Dr. Titsworth having resigned—Dr. Cord Bohling, accompanied by a jury, composed of John Shy, Frank Vollrath, Wilbur Remington, A. E. Campbell, Edward Border and Edward Bouldin, held a post-mortem examination and inquest at the residence last afternoon.

The jury returned the following verdict: "We, the jury, after viewing the remains of Dolly Moore, find that she came to her death from heart failure, caused by inhaling chloroform, not taken with any intention of taking her life, but to relieve pain in her gums.—John Shy, Foreman."

Miss Moore leaves her parents, her sister, Mrs. Devine; a brother, living at Horton, Kas., and another brother living near California, Mo.

Funeral arrangements have not been perfected, but the interment will likely be made at California, Mo., from which place Mr. Moore and family removed here about a year ago.

CARRIE DIDN'T INTERRUPT

Had Said She Would Ask Fairbanks About Liquor Question.

Winchester, Ky., Oct. 26.—The largest crowd in the history of this city came here yesterday to see and hear Vice President Fairbanks and Mrs. Carrie Nation.

Mrs. Nation notified her friends that she would rise in the midst of the vice president's speech and ask him his position on the liquor question.

Fearing that she would create an unusual scene, policemen were placed beside her, and as she occupied a seat in the front row, every time she turned or moved the policemen were forced to perform in like manner.

The committee in charge of the meeting were on the anxious seat until the speaking had ended.

THE WALL STREET PANIC

OUR FINANCIAL SYSTEM IS AT FAULT AND MUST BE REMEDIED.

THE RECENT BALLOON CONTESTS

Government Took Much Interest in the Results—The Six Months Period of Weighing the Mails.

Special to the Democrat-Sentinel.

Washington, D. C., October 26.—Naturally all interest this week has been centered in the treasury department. The panic in New York has forced Secretary of the Treasury Cortelyou to go to the scene of the trouble and the government has come to the assistance of the market with immense deposits fo funds. Just how extensive this help has been the treasury will not say, but the estimate is that it amounts to $20,000,000 or $25,000,000. Nothing less than this would be of much use to the New York banks and more than this would trench upon the available. But it is said that this large amount could be spared without causing the working funds of the government any inconvenience.

It is rather remarkable that Secretary Cortelyou went into office with the statement that he proposed to divorce the treasury completely from Wall street and that there would be no more "accommodation" extended to the market when it was in distress. It so happened, perhaps it was made to so happen, that the secretary has been in office less than a month when there was a bad flurry in the "street," and he came to the front just as other secretaries had done with financial assistance. However, there was a rather clear understanding between the head of this department and the financial powers that this sort of help could not be depended on and there has been a cessation of it for some months. The present crisis, however, is not an ordinary stock panic, but has struck some of the biggest savings institutions and is in danger of working great hardship to the people who can least afford to suffer. So the assistance of the government has been extended again and probably will effectually tide over the crisis.

This only makes it plainer, though the additional assurance was never needed, that our financial system is at fault and will have to be wholly regenerated. The Knickerbocker Trust company and the other trust companies that have been hard hit in the money panic were institutions outside the association of "clearing house banks." There was no help extended to them when the crash came and they suffered accordingly. This will mean that the trust companies will have to get inside the circle of the clearing house banks when the crisis is over. It will also mean that they will be compelled to keep up their reserves to a higher point than they have been compelled to under the present law. It probably also will mean that there will be a closer federal law. It probably also will mean that there will be a closer federal supervision of trust companies as well as banks. But most of all it will mean that the subject of currency reform will have to be seriously considered when congress meets.

This subject has been before congress time and again, but it has always been put off till a more convenient season. If the bill that was before the last house had become a law and banks had been allowed to issue additional note circulation under a specifically higher tax, the trouble in New York need not have happened. It would seem that this elastic currency would do much to tide over the periods of stringency. There was plenty of money in New York on the day of the worst pinch, as was shown by the fact that the call money sharks got in their work and call money was loaned at 70 and even 90 per cent. There was one pool of $4,000,000 formed in the stock exchange to loan as such rates. Of course bank circulation and call money are two different things, but a bank circulation that can be expanded in times of stress would do much to relieve the situation and make the other evil unnecessary.

The government has been taking much more than a platonic interest in the balloon races at St. Louis. Gen Allen, of the signal corps, went there to watch the performances of the airships and the small balloon corps of the government was put at the disposal of the aetonauts to help them in making the occasion a sucess. How great a success it was is shown by the fact that St. Louis went balloon mad and there was a crown estimated at 300,000 to see the aerial racers get away. It was the greatest meet that has been held in this country if not in the whole world, and the aid that has been extended it by the government shows how keenly the army in interested in arial navigation. The performance of the long-distance balloon racers was interesting of course, but the point in which the army is particularly interested is the performance of the dirigible balloons. Gen Allen wants to build one of these for a signal service and at the coming session of congress an appropriation of $100,000 is to be asked for the work. It will cost about $60,000 to build the ship and the remainder will be useful in accessories. This government is the last of the great powers to enter the field of aerial navigation, but the strides that have been made abroad indicate that we cannot longer neglect this work.

The six months period for the weighing of the mails has just about elapsed, and it was anounced at the convention of postmasters held in Washington this week that the work was reaching a satisfactory conclusion. The magnitude of the job will be appreciated when it is understood that every piece of mail carried in the United States has been weighed and its class tabulated. It was not known when this work started whether it could be carried out, but it has been done and there will be available for congress when it meets such a complete lot of data on the subject of the mails as has never before been available when it came to fixing the compensation to be given the railroads for transporting them.

The pension office has just reported a decrease of over 18,000 in the number of pensioners for the year. This is the greatest decrease in any one year since there has been a pension list. It makes the total number of pensioners 961,371, the smallest number since 1893. It will be a long time at this rate before the pension list is wiped out and before that time comes we probably will have gotten into some other war and helped to swell it again. But it at least shows that, for the time being, the movement is in the right direction.

'TWAS A PRETTY WEDDING

That of Thomas McIlwrath and Miss Nina Gregg.

(Sunday's Daily.)

Miss Nina Gregg, of Pleasant Hill, a young lady who has visited in Sedalia quite often, and Mr. Thomas McIlwrath, of Chicago, Ill., were united in marriage at Pleasant Hill by Rev. Simons, of the Christian church, at the home of the bride's parents on Thursday afternoon, October 24th, at 2:30 o'clock.

Miss Ella Matterby sang, "Love Me and the World Is Mine," after which the wedding march was played by Miss Naomi Butler, of Sedalia cousin of the bride.

The bridesmaid was Miss Annie Laurie Gregg, sister of the bride, and the groomsman was Dr. Hal Lane, of Kansas City, cousin of the bride.

The bride wore a traveling suit of green broadcloth. Following the ceremony an elegant supper was served, after which the couple departed on Missouri Pacific train No. 1 for Chicago. After November 1st they will be at home to friends at 21 North Campbell, Chicago.

The house was decorated in pink and white chrysanthemums. The presents were of silver, cut glass and china. The out-of-town guests were: Dr. Hal Lane, of Kansas City; Mr. Ed Lane, of Harrisonville; Capt. Lewis, of Virginia; Mrs. Lane, of Texas; Mrs. Butler and daughters, Naomi, Zelma and Beatrice Misses Amelia Peterson and Gertrude Hoffmaster, of Sedalia.

FALLEN WOMEN AND GIRLS

Are to Have a Rescue Home Established in Colorado.

Special to the Democrat-Sentinel.

Denver, Col., Oct. 26.—John D. Rockefeller and Miss Helen Gould are reported to be the principal financial promoters of a home for fallen women and girls, to be established shortly in Montclair.

The project will require an expenditure of about $100,000, and it is thought that the oil magnate and Miss Gould will supply a considerable portion of the amount. Many of Denver's philanthropic citizens are also interested in the project.

THE DEATH OF AN INFANT

Two-Year-Old Son of the Rev. and Mrs. Dudley M. Clagett.

After a brief illness with membraneous croup Dudley Malcolm Clagett, Jr., the two-year-old son of Rev. and Mrs. D. M. Clagett, died at his parents' home, 905 South Prospect avenue, at 8:30 o'clock Friday night.

The child had been ill only one day, but in spite of the best medical skill and the closest attention the little one passed away peacefully at the hour stated.

Rev. John S. Hendy, of Jefferson City, will conduct funeral services at the family residence at 3 o'clock this afternoon, and Mesdames C. H. Bard and E. B. Quisenberry will render a musical program.

The remains will be shipped to Marshall, Mo., the former home of Mrs. Clagett, on the early morning train tomorrow, where burial will be made.

The child was born in Sedalia on July 20, 1905, and was the idol of his parents, and in his death the sympathy of the entire community is extended to the father and mother.

GREAT STRAIN IS OVER

NEW YORK FINANCIERS SAY THAT EVERYTHING IS NOW ALL RIGHT.

THE BANK RUNS HAVE TERMINATED

Secretary of the Treasury Cortelyou and J. P. Morgan Are Praised for the Quick Relief From the Panic.

New York, Oct. 26.—A note of confidence pervaded the talk of leading financiers this morning over the situation here. The feeling was general that the terrific strain to which the banks have been subjected this week was rapidly relaxing. This feeling was reflected by the steadiness of the stock market. Prices were held within a comparatively narrow range and closing quotations were generally about the same as yesterday—some a little higher and some slightly lower. As on yesterday the dealings were almost wholly for cash, and though there were some evidences of forced liquidation, it was not on a large scale and not sufficient to impair the general steady tone of the market.

The Trust Company of America opened its doors at the usual hour. Less than a hundred depositors were waiting and the company's officials declare that the run is over. About twenty-three million dollars have been paid out by the company this week. The line at the London Trust Co. was much reduced, and the directors announced that the bank is in a position to meet every demand, that it is stronger than any day this week and that the withdrawal of funds is decreasing. The statemnt of J. P. Morgan yesterday that "if the people would leave their money in the banks everything would be all right" expressed the gist of the whole situation and the evidence of diminished withdrawals is the most encouraging feature of the situation.

Jams Stillman, president of the National City Bank, said today:

"The situation has been saved by the action of the secretary of the treasury, who has been so ably assisted by the whole hearted co-operation of Mr. Morgan."

The National City bank announced today the engagement of three and one-half million dollars in gold in continental European markets and in South America for shipment to this country. This engagement was made on the bank's own resources and without government aid. It has no connection with the five million dollars of South African gold which will arrive in London on Monday.

Secretary Cortelyou had a conference with George W. [illegible] of J. P. Morgan & [illegible]kins subsequently.

"The [illegible]e is fast clearing up, as any one can see."

Mr. Perkins was asked if he thought this would be the last day of financial difficulty. He replied:

"I think it is."

State Superintendent of Banks Clark Williams said:

"Things look a little better. There is a general tone of encouragement all along the line."

The fact that the banks and stock exchange were open only two hours today, as usual Saturday, afforded a great relief to everybody connected with these institutions.

The clearing house association met at noon and authorized the issuance of clearing house certificates for the settlement of balances between the banks.

George F. Baker, president of the First National bank, said that no formal statement regarding the plan to issue clearing house certificates will be made. He said the plan would go into effect today and that no amount has been specified. The method of issuance will be the same as that followed in 1893.

The expectation is that ten millions in gold will be imported from London Monday.

Ten millions in small currency arrived at the sub-treasury this morning from Washington.

One small bank, the Terminal Bank of Brooklyn, a state institution, with a capital of $100,000 and deposits of about $240,000, suspended payment today.

The captains of finance, who, with the secretary of the treasury, have been battling night and day to preserve order in the banking world, held no conference last night, but went to bed early, confident in the belief that a threatening situation had been successfully combatted, and that the restoration of confidence and public tranquility would be speedily accomplished.

Today's statement of the clearing house banks gave some idea of the strain to which the financial institutions of New York have been subjected this week. The statement shows a decrease of $12,000,000 in the cash reserves of the clearing house banks, notwithstanding the deposit of about twenty-five millions of government funds in the banks during the week. With all this contraction in cash resources, together with heavy liquidation of margin accounts on the stock exchange, the loans increased nearly eleven million dollars. The reserves of the banks are slightly below the 25 per cent of deposits required by law.

Providence Situation Better.

Providence, R. I., Oct. 26.—The Industrial Trust Co. posted notices in the savings and participation departments just before the opening hour today, declaring that the rule requiring niety days' notice of withdrawal of deposits had been put into operation. Checking accounts will not be affected by the action.

Only a few persons were in line before the doors of the Industrial Trust Co. early today, and it was generally believed that the worst of the financial flurry had passed.

A committee from the clearing house had charge of the financial situation today, prepared to render assistance to banks if called upon. The committee recommended that in the payment and certification of checks such checks shall be made payable only through the clearing house. This is the customary method of procedure in time of currency stringency, and its object is to prevent the withdrawal of money from circulation.

RECEIVER IS IN CHARGE

EMERSON-MARLOWE POULTRY AND EGG COMPANY IS IN TROUBLE.

NOTIFIED TO SUSPEND ALL BUSINESS

Manager Schmitt Instructed That Its Affairs Are in Hands of Chicago Title and Trust Co.—Have Big Sedalia Plant.

(Sunday's Daily.)

The Emerson-Marlowe Egg and Poultry Co., incorporated under the laws of Illinois with a capital stock of $200,000, with headquarters at Chicago, and branch offices at Sedalia, Marshall, Clinton, Mexico, Springfield Parsons and Hutchinson, Kas., and Kansas City, Mo., went into the hands of a receiver Saturday, the Chicago Title and Trust company being named as receiver.

A representative of the receivership company will arrive in Sedalia Tuesday to take charge of the company's business here.

Information of the appointment of a receiver by the United States court was received by H. F. Schmitt, local manager of the company's plant, at 4 o'clock Saturday afternoon, when a message from H. A. Emerson, of Chicago, president of the company, authorized him to discontinue buying or receiving any more poultry, eggs, etc.

Notice of the receivership appointment was posted on the doors of the company's plant and all shipments of poultry consigned to the company were delivered to Swift & Co.

"The appointment of a receiver is due to a tight money market," said Mr. Schmitt, manager, to a Democrat-Sentinel representative last night. "Everything will be all right in a few days and we will be doing business again as usual, but for the time being we will have to close because money cannot be borrowed."

The entire plant of the company in this city, with the exception of the feeding station, was closed promptly by Mr. Schmitt as soon as he received the message.

J. M. Adams, manager of the Adams Produce company at Tipton, and A. B. Cole, buyer of poultry and eggs at California, were at the company's plant last night, arranging to scure possession of late shipments made by them to the Emerson-Marlowe people.

Manager Schmitt says that the company has no local obligations, as they paid cash for all produce purchased and that as far as he knows it is not a borrower of money from any Sedalia financial institution.

The Emerson-Marlowe plants in Sedalia and Parsons are considered the finest and best equipped of their entire system and each cost $63,000. The other stations represent an expenditure of between $40,000 and $50,000 each.

Entertained Saturday Afternoon.

Mrs. E. F. Yancey entertained at her home Saturday in honor of Mrs. Wilson Keyser, of St. Louis. Cards furnished the amusement, there being six tables. Mrs. George Miller won the prize, a brass candlestick, while the guest prize a picture, went to Mrs. Keyser. Chicken salad in pepper cases, lettuce leaves, stuffed baked potatoes, sandwiches, olives, marguerites and coffee were served.

CHARGES GROSS FRAUDS

STOCKHOLDER SAYS COMPANY IS VIOLATING THE POSTAL LAWS.

ASK THAT RECEIVER BE APPOINTED

Claims Concern Is Not Doing Business Along Right Principles and Cites Cases to Prove His Claim.

St. Louis Mo., Oct. 26.—That the Donnell Manufacturing Co., of 615 South Sixth street, obtained more than $100,000 on the agents' contract scheme, which resulted in the postmaster general issuing a fraud order depriving it of the mails, is charged by James A. Watkins, owner of 107 of its 800 shares of capital stock, in a suit for a receiver, filed in the circuit court Saturday. Watkins is a West End druggist who was formerly actively identified with the company.

Watkins alleges in his application for a receiver that the business of the company has been destroyed by the perpetual fraud order issued against it, and that John W. Donnell, president, unmindful of his duties as a director and trustee, has been carrying on the business of the company in his own individual name and in other names and has been trying to induce the customers of the company to carry on business with John W. Donnell as an individual.

The postoffice department recently issued a fraud order against the Carssow Pharmaceutical Co., organized by one of Donnell's clerks, charging that an effort was being made to transfer to it the business of the Donnell Manufacturing Co.

The scheme which resulted in the fraud order against the company was a form of contract signed by agents, who believed they were getting positions as branch managers at a salary of $150 a month and commissions on sales, but under the terms of which they really purchased $1,000 worth of chill tonics, rheumatic liniments, lemon extracts and sundries.

The advertisements of the company stated that the $1,000 was to be put up as security, and would be returned to the agent at the expiration of the contract.

At the hearing before the postoffice department it was not shown that one of the company's agents ever made a success under the contract or got his money refunded.

By means of high commercial ratings, first class bank and business house references the company was able to induce men from nearly every state in the union to sign its contracts and put up the deposit.

Watkins alleges that the man employed by the Donnell company to devise the scheme and engage agents got $400 on each contract, and was paid, the plaintiff believes, more than $40,000 for a service not exceeding a period of four months.

Of the capital stock of $80,000 Watkins alleges that $65,000 only was paid up, that Daniel Donnell owns 364 shares, his wife, Fannie Donnell, 4 shares; that Thomas Mahner is the owner of one share and that the remainder of the stock, except that owned by the plaintiff, is held by members of the Donnell family, or clerks in the company's employ. The business, organized in 1877, was formerly successful and paid large dividends, it is alleged, but for several years past has been conducted at such a heavy annual loss that its capital has been impaired. Mismanagement is alleged.

Watkins states that he protested against the agents' contract scheme, and that he has since been denied information as to the company's affairs. He alleges on information and belief that more than $100,000 was realized on the contract scheme before the fraud order was issued.

The petition reviews the charges in the agents' suits to recover the money deposited under the contracts, and states that as there is no appeal from the fraud order issued by the postmaster general, the company can not, without the use of the mails, carry on a successful business. Watkins says the company's credit has been destroyed and its business irreparably injured and that unless a receiver is appointed its assets will be dissipated.

He asks for the appointment of a receiver and an injunction against John W. Donnell and other directors of the company restraining them from interfering with the management of the business by the court's officer.

The suit was filed for Watkins by Attorney J. F. Green, of the firm of Judson & Green.

SOLD IT FOR $129,700

The Sedalia Street Railway and Lighting Plant.

(Sunday's Daily.)

Dr. J. W. McClure was feeling pretty good yesterday over his compromise verdict for $15,000 in his suit against Judge W. B. Broomall, of Chester, Pa., for $29,700, commission for the sale of the Sedalia street railway and the Broadway lighting plant to Edward Deane & Co., of Grand Rapids, Mich., and interest from the date of sale.

The case was tried before Federal Judge R. E. Lewis, of Colorado, who instructed the jury to return a verdict for $15,000, as agreed upon by the parties litigant and their attorneys.

The verdict netted Dr. McClure and his partner in the deal, Mr. Lipscomb, of Kansas City, $14,000, out of which they will pay their attorneys, Messrs. Yeater and Bothwell, $2,500.

Dr. McClure showed conclusively that he had a contract with Judge Broomall that he was to have all in excess of $100,000 that he obtained for the property.

He sold it for $129,700, hence brought suit for $29,700, with interest, which brought the total up to something like $32,000. This claim was, however, reduced to $15,000 by the compromise verdict agreed upon.

Notice of Final Settlement.

Notice is hereby given that the undersigned administrator C. T. WRIGHT-DERR NUPTIALS

Popular Couple to Be Married by the Rev. Parsons.

(From Sunday's Daily.)

Miss Evelyn Derr, daughter of Mr. and Mrs. Phil Derr, occupying apartments in the lower flat of the Porter building, 120 South Osage avenue, and Mr. Charles Blaine Wright, a young man holding a lucrative position with the passenger department of the C. & E. I. railway at Chicago, Ill., will be married at the home of the bride's parents next Wednesday.

Rev. James Parsons, pastor of the First Congregational church, will perform the ceremony, in the presence of only a very few relatives, after which the couple will leave the same evening for Chicago, where they will make their home.

Miss Derr is an exceedingly pretty and accomplished young lady, with an affable disposition, and every friend in this city will join the Democrat-Sentinel in extending hearty congratulations to her and the fortunate young man whose name she is soon to take for life.

ORANGE FAMINE IN TEXAS

The Fruit Is Retailing as High as $1 a Dozen.

Special to the Democrat-Sentinel.

Fort Worth, Texas, Oct. 26.—Texas is now in the midst of an orange famine, the juicy fruit being almost impossible to secure, and selling at retail as high as a dollar a dozen, or 1 cents each.

Failure of the early orange crop in California is to blame for the record breaking prices.

Has Many Lawyers.

Attorneys Lee Montgomery, James T. Montgomery, Shain & Barnett, J. H. Rodes and C. E. Yeater are the legal talent that will represent the defendant in a suit to be heard in Judge Rickman's court on November 6th.

Saturday James White, a negro, through Attorney Homer Phillips, filed suit in Judge Rickman's court for $9.83 against Newton Cannon for services rendered the Sedalia Country club.

Soon after the notice was served on Mr. Cannon the above named attorneys filed a motion to have plaintiff put up the costs in the case.

RHEUMATISM CAN NOT BE RUBBED AWAY

Rubbing with liniments, blistering the affected parts, the application of plasters, and other means of external treatment, are usually helpful in relieving the pains and aches of Rheumatism, but such remedies do not reach the CAUSE of the disease, and are therefore in no sense curative. Rheumatism is due to an excess of uric acid in the blood, brought about by indigestion, poor bowel action, weak kidneys, and a general sluggish condition of th system. The circulation deposits this irritating poison in the different muscles, nerves, tissues and joints of the body, and soon the painful symptoms of Rheumatism are produced. The pains at first may be wandering and slight; but as the blood becomes more fully saturated with the uric acid poison, the disease grows worse and after awhile gets to be chronic. The slight, wandering pains now become sharp and cutting at the least exposure to dampness or night air, or any constitutional irregularity, the bones ache, the muscles are not as free in action as before, and where the acid poison is allowed to remain in the blood the joints often become so clogged with corrosive substances that they are left permanently stiff and useless. Rheumatism can never be rubbed away, nor can it be conquered and driven from the system until the acid-laden blood has been cleansed and purified. No other medicine does this so effectually as S. S. S. It dissolves and removes the impurities and sends a stream of rich, strong blood to the affected parts, which soothes the irritated nerves, inflamed muscles and flesh, and the sufferer obtains relief that is permanent because the real cause of the disease has been removed. Special book on Rheumatism and any medical advice desired free.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local. Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

THE RULES OF THE ROAD

LAWS PASSED BY LAST ASSEMBLY RELATING TO RUNNING OF MOTOR VEHICLES

WHICH WAY TO TURN MACHINES

What They Shall Do When Certain Conditions Arise—Must Stop Auto and Engine Upon Request of Persons in Carriages.

Since automobiles have become so numerous here and hereabouts, there is much interest as to what are the road laws governing the machines and what are prescribed as the proper things to do under different circumstances, such as meeting teams, accidents, etc.

For the information of those interested, motor owners, owners of teams and pedestrians, the laws as passed by the last general assembly are here given:

Sec. 13. No person, whether employed as an auto driver or otherwise, shall take, use, operate or run any motor vehicle without the consent, permission or knowledge of the owner thereof.

Sec. 14. Every motor vehicle, while in use on a public highway, shall be provided with good and sufficient brakes, and also with a suitable horn, bell or other signal device.

Sec. 15. Whenever a person operating a motor vehicle shall meet on a public highway any other person riding or driving a horse or horses, or other draft animals, or any other vehicle, the person so operating such motor vehicle shall seasonably turn the same to the right of the center of such highway, so as to pass without interference. Any such person so operating a motor vehicle shall, on overtaking any such horse, draft animal or other vehicle, pass on the left side thereof, and the rider or such horse, draft animal or other vehicle shall, as soon as practicable, turn to the right, so as to allow free passage on the left. Any such person so operating a motor vehicle shall, at the intersection of public highways keep to the right of the intersection of the center of such highway when turning to the right, and pass to the right of such intersection when turning to the left.

Sec. 16. Every person, corporation, company or co-partnership engaged in operating any motor vehicle upon any of the public streets, roads or highways of this state shall keep a vigilant watch for all vehicles, carriages or wagons drawn by animal or animals, and especially vehicles, carriages or wagons driven by women or children, and shall, when approaching any such vehicle, carriage or wagon, so drawn by animal or animals, stop such motor vehicle for such time as to enable such person in charge of any such vehicle, carriage or wagon to pass, or if going in the same direction shall, before attempting to pass, give said driver or person in charge of any vehicle, carriage or wagon, drawn by animal or animals, sufficient notice of his or their intention to pass, by (the) sounding a bell, whistle or horn, and if necessary to prevent the frightening of such animal or animals, bring said motor vehicle to a stop, in order to give such driver or person an opportunity to alight from such vehicle, carriage or wagon, and in case or an injury to a person or damage to property, the operator of such motor vehicle shall stop, and upon request of a person injured or property damaged, or any person present, shall give his name and address, and if he is not the owner of such motor vehicle, he shall give the name and address of such owner.

Sec. 17. Every person operating a motor vehicle on the public highway shall, at request or upon signal by holding up the hand or otherwise, from a person riding or driving a horse or horses, or leading a horse or horses or other draft animal on the highway, shall cause the motor vehicle to stop and remain stationary and shall, if requested, stop the engine of such motor vehicle so long as may be necessary to allow the said horse or horses or other draft animal to pass; and it shall be the duty of any male auto driver or driver of any motor vehicle, and other male occupants thereof, over the age of 15 years, while passing any horse or horses or other draft animals which appear badly frightened, or upon the request of the person in charge of such horse or horses or other draft animal, to give such personal assistance as would be reasonable to insure the safety of all persons concerned and to prevent accidents. The provisions of this section shall apply to motor vehicles going either in the same or in the opposite direction: provided, however, that no person shall give a signal of danger or distress, or call for assistance upon a person operating a motor vehicle without a reasonable cause for so doing.

Sec. 18. No person shall operate a motor vehicle on any public highway at a greater rate of speed than is reasonable, having regard for the traffic and use of the highway, or so as to endanger the life and limb of any person, or the safety of any property, and shall not in any event while upon any public highway, run at a greater rate of speed than fifteen miles an hour; and when turning a corner of intersecting roads or streets, or when treaversing a curve or turn in the road or street, where the view is obstructed, the speed shall not be greater than six miles an hour; and within the limits of all cities, town(s) and villages the rate of speed shall not be greater than eight miles per hour in the business portion of any city, town or village, and not greater than ten miles per hour in all other portions thereof.

Sec. 19. No owner of a motor vehicle who shall have obtained a certificate of registration from the secretary of the state, as hereinbefore provided, shall be required to obtain any other certificate to use or operate such motor vehicle on any of the public highways: provided, cities, towns and villages, where the owner of such motor vehicle resides, may require a license tax to be paid by such owner: provided, further, that when the owner of any such motor vhicle shall have complied with the requirements in that respect of the city, town or village where he resides, he shall not be required to pay any license tax to any city, town or village through which he may pass.

Sec. 20. Nothing in this act contained shall be construed to curtail or abridge the right of any person to prosecute a civil action for damages by reason of injuries to person or property resulting from negligent use of the highway by the driver or operator of any motor vehicle, or its owner or employe or agent.

Sec. 21. Any person, corporation, company or co-partnership violating any of the provisions of this act shall, for the first offense, be punished by a fine of not less than $25 nor more than $100, and for the second violation of the provisions of this act, be punished by a fine of not less than $50 nor more than $500, or by imprisonment in the county jail not more than sixty days, and shall forfeit all rights and privileges provided for under the provisions of this act.

Sec. 22. All persons owning, operating or controlling an automobile, running on, upon, along or across public roads, streets, avenues, alleys, highways or places much used for travel, shall use the highest degree of care that a very careful person would use, under like or similar circumstances to prevent injury or death to persons on, or traveling over, upon or across such public roads, streets, avenues, alleys, highways or places much used for travel. Any owner, operator or person in control of an automobile failing to use such degree of care, and in case of the death of the injured party, the damages for such injury or death may be recovered as provided by section 2864 of the Revised Statutes of Missouri, as amended in 1905; unless the injury or death is caused by the direct negligence of the injured or deceased person, contributing directly thereto.

Carnegie Funds Tied Up in Hands of a Receiver.

Pittsburg, Pa., Oct. 29.—There will be no medals for Carnegie heroes until the Iron City Trust company, which is in receiver's hands, pays its depositors, for it develops that the trustees of the hero fund have $168,000, the accrued interest on the $5,000,000 United States Steel securities given by Andrew Carnegie, locked up in the vaults of the trust company.

William L. Abbott, president of the trust company, said that it would be thirty days or more before depositors could be given their funds. A member of the clearing house committee confirmed the news and remarked:

"Well, Andy Carnegie can make up the amount if necessary. That is the least of my troubles now. He may have to buy 'hero medals' for himself."

A NOVEL SUIT WAS FILED

BY JUDGE GEORGE F. LONGAN IN THE CIRCUIT COURT ON SATURDAY.

WANT BURIAL GROUNDS PROTECTED

Court Asked to Restrain Mr. D. H. Smith From Removing Fence That Encloses Graves on the Wooldridge Farm.

(Sunday's Daily.)

Judge George F. Longan filed in the Pettis county circuit court Saturday one of the most novel suits ever instituted in Missouri.

The title is James R. Wooldridge, Powhatan Wooldridge, S. L., W. W. and P. M. Wooldridge, Belina Polk, Mildred Smith Coleman, D.W. Thompson and Mildred T. Bouldin against D. H. Smith, who many years ago purchased the Wooldridge farm and homestead northwest of Sedalia.

The petition sets forth that years ago, back in the 60s, the grandparents of the plaintiffs, Powhatan W. Wooldridge, Sr., and his wife, Mildred Major Wooldridge, were buried on the Wooldridge farm, and it has been the family burial ground since—an enclosed plat of ground 20 by 30 feet, immediately in the rear of the farm house.

When the farm was sold to Mr. Smith the deed of conveyance was signed by the Wooldridges without any reservation of the burial site.

Last March, according to the petition, Mr. Smith removed a portion of the fence enclosing the burial ground, and now contemplates removing the remainder, which would leave the burial ground open to hogs and other beasts on the place.

The suit filed Saturday is to restrain Mr. Smith from removing the fence that still remains.

The plaintiffs desire to erect a new fence or wall to protect the graves of their ancestors, and they ask that the defendant be restrained from interfering with them.

The case will come up before Judge Hoffman at the December term of court.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root and the address, Binghamton, N. Y., on every bottle.

In the Circuit Court of Pettis County, Missouri, ... Term, 1907

W. H. Johnson.....Plaintiff.

vs.

Joseph Davis and Rebecca Davis, his wife, and the unknown heirs of Joseph Davis.....Defendants.

Now, at this day comes the plaintiff herein, by his attorneys, Barnett & Barnett, and files his petition and affidavit, alleging among other things that defendants are not residents of the state of Missouri, and cannot be served with the ordinary process of law in this state;

Whereupon it is ordered by the clerk of said court in vacation that said defendants be notified by publication that plaintiff has commenced a suit against them in this court, the object and general nature of which is to have the plaintiff's record title perfected in and to the northeast quarter of the northeast quarter of section fifteen (15), township forty-seven (47), range twenty-two (22) in Pettis county, Missouri, west of the fifth principal meridian, and to have the title decreed to be in plaintiff by limitation, and to have all record and apparent title of the defendants divested out of them and vested in the plaintiff. And it is alleged in the petition that there are persons to-wit: The unknown heirs of Joseph Davis, who are interested in the subject matter of the petition whose names he can not insert herein because they are unknown to him, but the interest of said unknown heirs is derived from Joseph Davis, they as such heirs having inherited whatever interest said Joseph Davis had at time of his death, in said land, the said Joseph Davis having entered this land from the United States, and the deed by which he conveyed it to the party under whom plaintiff claims being defective in that the description and acknowledgement are defective, and unless the said defendants, Joseph Davis, Rebecca Davis and the unknown heirs of Joseph Davis be and appear at this court at the next December term thereof, to be begun and holden at the court house, in the city of Sedalia, in said county, on the first Monday of December next, and on or before the first day of said term, answer or plead to the petition in said cause, the same will be taken as confessed, and judgment will be rendered accordingly.

And it is further ordered, that a copy hereof be published, according to law, in the Weekly Democrat-Sentinel, a newspaper printed and published in Pettis county, Missouri, and designated by the plaintiff, four weeks successively, the last insertion whereof shall be at least fifteen days before the commencemnt of the said December term of this court.

HELD A FAMILY REUNION

FOUR SONS AND ONE DAUGHTER ARE REUNITED FOR FIRST TIME IN YEARS.

WELL KNOWN IN PETTIS COUNTY

The Pomeroy, Ohio, Leader of October 24 Presents a Group Picture and Brief Sketch of Participants.

The Pomeroy, Ohio, Leader of October 24 presents on its first page a group picture of a family well known to many readers of the Democrat-Sentinel, coupled with the following sketch:

A most enjoyable and happy family reunion was held at the home of William Schneider on Lincoln Hill Tuesday, October 15, and the same joyous reunion has been going on almost every day since.

The parties to this delightful family gathering were four sons—Fredrick, aged 68; William, aged 66; Jacob, aged 63; Charles, aged 55, and one daughter, Mrs. Caroline Gopfert, aged 60, children of Frederick Jacob Schneider and his wife, Philippina, both long since dead, their lives having been spent on a farm near Sedalia, Mo.

Samuel, the sixth surviving member of the family, of Sedalia, Mo., was to have joined his brothers and sister at this place, but an accident prevented. Louis, the eldest member of the family, a soldier of the 65th O. V. I., fell fighting for his country at the battle of Chicamauga.

Frederick, the oldest surviving member of the family, was also a soldier, having served his country in the 58th O. V. I. for a period of three full years. He owns a farm near Sedalia, Mo., where he has been prosperously following his chosen vocation for many years.

William, the next oldest surviving son, is a resident of Pomeroy, and has long been known as one of our most industrious, most substantial and most respected citizens. He too, loyally responded to the call of his country and served with his brother, Frederick, in Co. A of the 58th O. V. I.

Dr. Jacob Schneider, the next son, formerly of Cleveland, practiced medicine for thirty-five years, but is now prosperously engaged in the manufacture of fire brick in Philadelphia, at which place he has been in business for four years. The doctor is a fraternity man, having climbed to the top of the ladder in Masonry. He is a member of Halcyon lodge No. 498, Thatcher chapter No. 101, Cleveland Council No. 38, Holyrood commandery No. 32, Lake Erie consistory (32 degree) and Al Koran Temple, all of Cleveland. He is a scholarly and cultured gentleman.

Caroline Gopfert, the only daughter of the family, resides on a farm with her brother, Charles, at Felicity, Ohio.

Charles, the youngest son, was engaged in the drug business at Covington, Ky., for 35 years, but his recent years have been devoted to farming near Felicity in this state.

Mrs. Albert Young and Miss Leah Schneider, of Columbus, daughters of William Schneider, attended the reunion.

On Friday last the four sons and one daughter had a group picture taken at Felger's art studio, a reduced copy of which we present above.

It is needless to say that these reunited sons and daughter had a most pleasant, a most enjoyable time. Why shouldn't they enjoy it? It was the first time in long, long years that they had met, and in all probability it will be their last meeting here on earth. While we hope they may all meet again—many times—while they yet enjoy health of mind and body, life is uncertain and strenuous years of labor have furrowed their faces and whitened their hair.

The Leader rejoices with them that they enjoyed for a week the thrilling clasp of hands and heart to heart talks as in days long gone by. Long life to these stalwart sons and their loving sister.

ENGAGEMENT IS ANNOUNCED

That of Mr. Alexander Kenton Pope and Miss Mary Glass.

Announcement of the engagement of Mr. Alexander Kenton Pope, city representative in Chicago of the Kenewell Can Co., to Miss Mary Glass, daughter of the late Col. James Glass, was made at a social function given in honor of the bride-to-be by Mrs. John McGrath at her West Fifth street residence Saturday.

No date was set for the wedding, although it will be in the near future. Mr. Pope is said to be a business man of the highest type, and met his future wife while she was visiting her aunt in Kansas City three years ago.

Miss Glass is one of Sedalia's most popular young society ladies, possessed of a sweet and gentle disposition, which has always been the admiration of her many friends, and all will join in extending congratulations to the popular young couple.

WHITELAW REID NOW 70

UNITED STATES AMBASSADOR TO COURT OF ST. JAMES IN LONDON.

THE LEADING AMERICAN DIPLOMAT

Was Born at Xenia, Ohio, Where in 1858 He Was Editor of the News —Later He Became Editor of the New York Tribune.

Special to the Democrat-Sentinel.

Washington, Oct. 26. — Whitelaw Reid, United States ambassador to Great Britain, and America's leading diplomat, will tomorrow reach the Biblical allotment of three score years and ten. Still hale and hearty, with his intellectual vigor apparently unimpaired, he serves as a living proof of the folly of Oslerism. Few men are more popular in the diplomatic, official and newspaper circles of the national capital than the aged ambassador, as is evidenced by the number of messages of congratulation that have been sent from here. Among these was a message of hearty good will by the president, who will himself celebrate his birthday tomorrow.

Ambassador Reid is only one of a large number of distinguished Americans who have reached or will reach the Scriptural allotment of years during the present year. Among these are Grover Cleveland, John Burroughs, J. Pierpont Morgan and Justice David J. Brewer, who have recently passed the 70th milestone. Andrew Carnegie will be 70 on the 25th of next month, and on Dec. 26 Admiral George Dewey will join the ranks of those who have reached the mature age of three score years and ten.

1837—Whitelaw Reid born in Xenia, O., Oct. 27; son of Robert Charlton and Marian Ronalds Reid.

1856—Graduated from Miami University, Oxford, N. Y.

1856-8—Taught school and took post-graduate course at Miami University, receiving degree of A. M.

1858—Began career as a journalist as editor of Xenia News, becoming legislative correspondent in 1860, and war correspondent, 1861, of Cincinnati Gazette.

1862-3—Clerk of military committee of thirty- seventh congress.

1863-6—Librarian of the house of representatives.

1866-7—Became a cotton planter in Concordia parish, Louisiana.

1868—Joined editorial staff of New York Tribune, becoming managing editor in the following year.

1872—Became editor in chief and principal proprietor of the New York Tribune.

1872—Received degree of A. M. from the University of the City of New York and Dartmouth college.

1877 — Declined appointment as United States minister to Germany.

1878—Became member of the board of regents, and later vice chancellor and chancellor of the University of the State of New York.

1881—Married Elizabeth, daughter of D. C. Mills, April 26.

1889-92—United States minister to France, his first diplomatic post.

1892—Republican nominee for vice president of the United States.

1897—Special ambassador of the United States to Queen Victoria's jubilee.

1898—Became a member of the peace commission to Paris.

1899—Granted degree of LL. D. by Princeton University.

1901—Granted degree of LL. D. by Yale University.

1902—Special ambassador of the United States to England for the coronation of Edward VII.

1902—Granted degree of LL. D. by Cambridge University.

1905—Appointed ambassador to the court of St. James.

THE HUSBAND HAD $2,500

'Tis Said, and His Wife Was Out Asking Alms on the Street.

Complaint was made to the authorities Saturday that a woman, claiming to be blind, is appealing to the sympathy of passersby in the street, when, in fact, conditions do not warrant it.

The woman in question can be seen daily playing a hand organ on Ohio street. The woman's husband is said to be a healthy, robust man, who, with his daughter, lays around at home in North Sedalia and does not even know what work is.

The man who made the complaint states that last week the husband of the woman exhibited over $2,500 in bills, saying he did not have to work as long as he had that sum.

President's Proclamation.

Washington, Oct. 26.—President Roosevelt issued today his Thanksgiving proclamation, through the secretary of state, naming the last Thursday in November, the 28th.

FAST WALKINK HORSES.

They Can Be Trained to Rapid Gait When Colts.

The fast walking horse is made in breaking the colt. He usually wants to go too fast and is held down until he comes to believe that his gait is to be a dragging walk. If the colt is trained to walk up briskly but not trot; if he is never allowed to trot until he is thoroughly trained to walk as fast as he can without trotting, there will be no trouble about his walking in after life.

When a colt that is being trained begins to lag, touch him gently with the whip to let him know that he must move up a little more briskly, says the Agricultural Epitomist, but do not strike him hard enough to hurt and excite him. Make him keep on walking as fast as he can and the habit will soon become a fixed one and his value will be increased 25 per cent. as far as farm work is concerned and when ready for market, will bring a price considerably in excess of another animal of the same breeding that cannot be made to walk briskly.

A slow walking team makes work drag in spite of every effort of the driver. Farm work must be done with the horses at a walk and a slight difference in the rate at which the team gets over the ground makes a great difference in the work accomplished.

The great trouble with most teams is that they are allowed to get into the habit of dragging along at the rate of about two miles an hour, even when going unloaded and this habit becomes fixed and impossible to remedy, for the farm horse that gets in the notion of going slowly will poke along in spite of any urging that may be used.

There is much farm work that is very light on the team. Cultivating is not heavy work and drawing a mowing machine does not call for more than a small fraction of power a horse may exert without injury. Hauling loads to market is not heavy work when the roads are good and all these kinds of work should be done with the team walking at a rate that would keep a man on a comfortable dog-trot all the time.

WHY HE GREW SHEEP.

One Farmer Declares They Return Largest Profit.

Recently Mr. Arbuckle in the Planter gave some excellent reasons why he grows sheep. Among other things he said that they brought him annually a larger per cent. on the investment in them than in anything else on the farm, in both mutton and wool. Here is another strong point he makes: "No animal on earth can reclaim wornout lands like sheep. Sheep choose the high, dry places to lie on at night. There they leave their droppings, that pound for pound are worth more tan any other plant food on earth. These very high places are the poorest, worst-washed, barest places. Don't you see what a flock of sheep will do? They will during the day gather the grass in the valleys and hollows, where it grows luxuriantly." I was once walking over a farm with a man who remarked that he had never seen such a sod on hills as he saw on this farm. Kicking over a pile of sheep droppings that lay in a clump of dark-green blue grass, I said, "Here is the secret." Nothing equals sheep for reclaiming land. In England I have seen 20 sheep to the acre, grazing over a sod that would put our best Kentucky sod to shame. We want sheep to clean up these weeds that are crowding everything else out. Sheep were not made to live on weeds, but with every meal they will take up a goodly supply as a sort of dessert. I watched a lamb one afternoon for one hour, and in that hour I listed 16 different kinds of weeds that I saw her bite off. The heads of the oxeye, ragweed and carrot that she ate in this hour would certainly have run up close to 100.

HOLDING A WILD HORSE.

Device Which Will Make the Animal Tractable.

A convenient method of holding a wild horse when administering medicine, taking off shoes, etc., is shown

Makes Control of Horse Easy.

in the accompanying sketch. In the end of a piece of fork handle a hole is bored in which is inserted a five-eighths-inch rope. The rope is twisted over the horse's nose by turning the handle. It should be over the nostrils or in the mouth.

Clay Floors Best.

Clay floors are best for box stalls, as they do not become excessively hard and they keep the animals' feet in good condition.

A mare of any type bred to a horse of an entirely different type may produce a good colt, but the chances are against it.

FLEECED FARMER $3000

JOHN W. WLECKE, OF PALMYRA, PLACES HIS SAVINGS IN STRANGER'S BOX.

HE HAD DRAWN FUNDS FROM BANK

A Confidence Worker Poses as a Land Seeker—Confederate Then Appears—Panic Talk Scares Victim.

Palmyra, Mo., Oct. 26.—John W. Wlecke, an old German farmer living four miles south of this city, confessed to Sheriff Lasley yesterday afternoon that he had been fleeced by confidence men out of $3,000 on October 8.

A well dressed stranger, giving the name of Howard, and stating that his home was in Shelby county, arrived at the Wlecke home. He professed to be a friend of the Wleckes, and was thoroughly acquainted with the family history. He wanted to buy a farm, and asked Wlecke to show him one in the neighborhood. On the road they met a confederate, and, after convincing the old man of the unsafety of banks, induced him to go to town and draw out his deposits, amounting to $3,000.

Howard and his confederate then produced a safety deposit box, and after each had put $3,000 in it, induced Wlecke to do likewise. The box was then given to Wlecke, who was to keep it until the following day, when Howard would call and get his and his friend's money and buy the farm. Wlecke did not open the box until October 19, when he had occasion to go to Hannibal to pay for some property he had contracted for. The box contained three good sized rocks. Wlecke had drawn his money over the protests of the cashier, who wanted him to take a draft. Half of it was in gold and the remainder in bills. Wlecke kept his secret until yesterday, when he confided in Sheriff Lasley.

Howard is described as a man of medium size, 45 years old, with sandy beard and mustache. His confederate, whose name Wlecke did not learn, was 60 years of age, full gray beard and talked as if affected with a cold. Wlecke is about 70 years old, and is almost prostrated by his loss. He recently sold his farm for $8,000, and it is supposed the confidence men knew it.

GOT AWAY WITH $24,000

Express Office Robber Knew the Combination to the Safe.

Milwaukee, Wis., Oct. 26.—Investigation into a loss of approximately $24,000 reported Thursday night from States Express company in this city the railway depot office of the United shows that the money was probably taken by an employe thoroughly familiar with the surroundings, and with the best means of making away with the plunder.

The thief apparently had knowledge of the combination of a large safe in the office. None of the employes is missing and the question of locating the guilt has not yet been determined.

Thomas McDonald, superintendent of the company, said:

"I am not yet in possession of facts which would warrant any statement."

MARRIED AT HIGH NOON

Mr. Edward Brill and Miss Georgia Teeling by Rev. Neiberg.

Mr. Edward Brill and Miss Georgia Teeling, the latter a daughter of Mr. and Mrs. George Teeling, were married quietly at the parochial residence of Sacred Heart church at high noon Saturday.

Rev. Fr. Neiberg, the pastor, performed the ceremony. Mr. and Mrs. Charles Laipple, the latter a sister of the bride, acted as best man and bridesmaid. There were no other attendants.

At 2:30 o'clock last afternoon the bridal couple left for Kansas City and Topeka, Kas., to spend their honeymoon, and will return here to make their home at 607 West Fifth street.

THE HEN BUSINESS.

Forcing the Young Stock Not a Profitable Business.

It is possible to force winter eggs with extra warm quarters and stimulating food. I have tried it and found an increase in eggs, but in doing it I made invalids out of very promising pullets. They were unbalanced or out of season when spring came and all told I always felt that my experiment cost me money instead of making money. In many respects poultry are like people. When a well man persists in doctoring he will be pretty sure to get sick. The detestable prize fighter, for instance, can booze up on the inside until he is brutish and doctor up on the outside until his hide is as tough as sole leather, or in other words, he has stimulated until he is practically unhurtable, but how long does he possess that great belt? Even in my short remembrance several generations of belt winners have come and gone and it is just that way with poultry.

When we have our flocks in perfect condition or bring them through the winter in perfect health, we are nearer the point of making money than we would be by any other route. Whenever comfortable quarters and rational feed does not bring eggs we had better just wait on nature. When it comes to capital in the poultry business my observation is that hundreds who undertake it on a big scale have too much money. If they had less money they would need to work the business up and would finally come out the big end of the horn instead of the little end. The first year in the poultry business should be a sort of students' course; that is, I mean if he has in view making it his entire business. Of course, he would need some money, but not to the extent of calling it capital. An able-bodied man should be able to earn some money on the side for the first year. To me he would appear as on the right track if he did so. I am sick and tired of the idea prevalent in some quarters that most any one can with a bag of money, some machinery, a simple twist of the wrist and a wise look, revolutionize the whole poultry business in just a few weeks.

I verily believe that the money wasted in the poultry business would comfortably house every hen on the face of the earth, writes a correspondent of Field and Farm. If I can do no other good than to encourage those who have no capital and discourage those who want to spend a lot of money I have after all accomplished considerable. There is nothing that lives and walks that can beat a hen for paying her own way and ours as we go along, but great capital to start the business would be an intimation that hens are expensive to keep instead of money earners. My candid belief is that too much stuff is written to get money away from poultry raisers and not enough to really help them make money. Of course, hens must have houses and feed and care but there is hardly a farmer in this country who has much more than taken the first step in poultry raising. On 98 per cent of the farms the number of hens should be doubled, and in most instances it could be trebled and yet not to the end of the greatest profits.

AN IDEAL POULTRY HOUSE.

Description by Man Who Thinks He Has the Best Arrangement.

My house, shown in cut, is 24 ft. long, 10 ft. wide, 7 ft. high in front and 5 ft. in rear. There are three windows in front facing the south

Arrangement of Poultry House.

and a door at end. Small opening under middle window allows fowls to pass in and out.

The inside construction is the ideal feature of the house, writes a correspondent of Farm and Home. To each partition running across the house is hinged a 6-ft. wide door so that it swings either way, making two laying rooms or closing the roosting apartment with the aid of the two doors. The roosting place at the rear of house is 12 ft. long by 4 ft. wide. The doors can be fastened to front wall 6 ft. from each end of house, making two laying rooms 6x10 ft. Or if doors are swung farther around they will make smaller laying rooms 4x6 ft., leaving the scratching and roosting apartment together.

With eyelets and staples fasten a 10 inch board on bottom of each door. This board may be raised up from either side if the fowls are wanted to pass to laying rooms from scratching room.

Growing Chicks.

The growing chick needs bone, flesh and feathers. To make all these it is necessary that an abundance of feed containing protein be fed. Shriveled wheat, chopped oats and mash containing a liberal amount of bran should enter largely into the grain ration. In addition to this they should have plenty of meat scraps, corn meal and green cut bone.

Use Paint and Whitewash.

This is a good time to paint the hen house on the outside and whitewash its interior. Usually most of the hens have broods in the colony houses and the small number in the central house makes it possible to clean up things in general.

MAY TIE UP RAILROADS

NOW FACING GREATEST LABOR STRIKE IN UNITED KINGDOM'S HISTORY.

VOTE WILL SOON BE MADE PUBLIC

The Amalgamated Society of Railway Servants Demand Recognition, Higher Wages and Shorter Hours of Labor.

Special to the Democrat-Sentinel.

London, Oct. 26.—Great Britain is now facing the possibility of the greatest labor strike in the history of the United kingdom, which may result in tying up all the railroads of the country.

The voting on the question of a strike by the members of the Amalgamated Society of Railway Servants, of which Richard Bell, M. P., is general secretary, was concluded today, and the result will shortly be made public. It is reported that the sentiment among the men is largely in favor of a general suspension of work, in order to secure the recognition of their organization and a new scale of wages and hours.

It is not likely that a strike will be declared immediately upon the announcement of the result of the vote, as the officials of the Amalgamated society are in favor of making a last effort to settle the dispute peaceably. It is likely that the attempt will be fruitless, as the railway companies have already made an unfavorable and final reply to the society's demand for recognition and higher wages and shorter hours.

The reply of the railway companies, which was issued by the council of the Railway association, says the council has no power to appoint representatives to meet the delegates of the unions and discuss questions which affect the relations between individual companies and their employes.

The council, however, added that its members individually was unanimously of the opinion that no advantage could result from any meeting until after today, and when the result of the balloting on the question of a general strike had become known.

While the chief claim of the union is for its recognition, it also demands and eight-hour day for men engaged in the movement of trains, and a ten-hour day for others, and a minimum of the rate and a quarter for for all time over the standard hours.

The companies have refused to grant the union's demands on the grounds that it represents only a quarter of the men employed, and also that it would be destructive of responsible railway control to allow the unions to intervene.

An analysis of the Amalgamated society's funds states that there is only an amount equal to about $11 per member available for strike purposes. In the event that the strike is called, however, it is thought that all the organized workingmen of Great Britain will come to the financial assistance of the railroad men.

SUE FOR A LICENSE

Missouri Knights of Pythias Take Grievance to Supreme Court.

Jefferson City, Oct. 26.—Mandamus proceedings were instituted in the supreme court in banc yesterday, by Judge W. M. Williams, counsel for the supreme lodge. Knights of Pythias, seeking to compel W. D. Vandiver to issue license to the organization to do business in the state as a fraternal beneficiary association.

It is alleged in the petition that although the supreme lodge has complied with all the requirements of law, the state superintendent arbitrarily refuses to grant a license, although there are 247 subordinate lodges in Missouri, with a membership of 26,832, of which number 3,848 carry policies in the order aggregating $5,332,500 of insurance.

An alternative writ was issued returnable December 2, 1907.

Caught a Seven-Pound Bass.

J. E. Six made a great haul at Pertle Springs lakes Friday morning, landing two fine bass weighing seven and five pounds, says the Warrensburg Star. The seven-pound fellow is the largest catch of the season and the very sight of the fish as Mr. Six carried him along the street aroused all kinds of enthusiasm among the sports.

Back From the Osage.

John Hegarty, Frank Holdner, Henry Blatterman, Walter Ott. Gus Blatterman and John Hedrick returned Friday night from a ten days' outing on the Osage river, near Yeager's ford.

QUALITY OF MANURE.

It Is Greatly Affected by the Manner in Which It Is Handled.

One important factor is the care given the manure before it is applied to the land. The common way of throwing the manure out in a pile to be tramped in the mud by the stock and leached away by the rains is productive of great loss of plant food. Besides, the fermentation in such a pile is destructive of nitrogen and humus. The Cornell station showed that horse manure thrown in an unsheltered pile lost in six summer months 42 per cent. of its fertilizing elements. The New Jersey station showed that solid and liquid manure mixed lost by exposure in 109 days 51 per cent. of its nitrogen and phosphoric acid each and 61 per cent. of its potash. Such care is certainly wasteful and manure kept under such conditions connot give very large increased yields. At the same time as the above experiment the Cornell station piled some mixed manure so that fermentation went on slowly, but the pile was not sheltered from rain. Under such condition the loss of constituents was 9.2 per cent. Another pile handled so that it dried without fermentation lost practically nothing. Prof. Frear of the Pennsylvania station showed that it was more economical by $2.50 per head in a period of six months to allow the manure from fattening steers to accumulate under them for two months at a time than it was to clean the stables daily and deposit in the ordinary way. This saving does not consider the labor involved in hauling the manure. The practice of allowing the manure to accumulate for a time is a practicable one for loose stock if there be plenty of bedding to keep them clean and absorb the liquids. The constant tramping keeps the manure solid and fermentation goes on slowly. However, when the stock is taken off, the stable should be cleaned at once and the manure scattered, for there is soon a big loss of nitrogen in the form of ammonia.

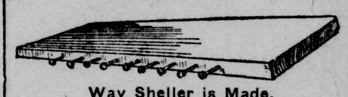
The ideal way of handling manure is to remove it to the field every day and spread on the land, says the Farmers' Review. In this way there is little loss by fermentation and what substance is leached out by rain is washed into the soil where it is taken up by the roots, or is chemically combined with other minerals in the soil. For this purpose there is no better way than the using of a manure spreader. It will hold usually all the cleanings for a day and in some cases the cleanings of two or three days may be thrown into the spreader and then hauled out. Farmers everywhere have found the spreader an almost indispensable tool.

However, it is not always convenient to haul out and spread every day. The ground is frequently too soft to go on with a team and wagon, and often the field on which it is wished to apply the manure is occupied by a crop. Under such conditions it becomes necessary to store the manure for some time. Few farmers will go to the expense of building a covered manure pit with cement sides and bottom into which the liquid and solid manure may be kept solid and damp, but every one could have a concave area with cement, or stiff clay, bottom, from which drainage would not take place. Into this the manure could be thrown in a rather deep pile, kept evenly spread, and packed down by the tramping of loose animals or otherwise. The tramping would prevent rapid fermentation and the rains would keep the pile sufficiently moist. It should be said in this connection that an effort should be made to save all the liquids by a liberal use of bedding. The liquids, weight for weight, are twice as valuable as the solids. Whatever method is resorted to for storing, the manure should be kept solid and damp and should be hauled to the field and scattered as soon as possible. It should be scattered at once and not be allowed to lie in piles for a week or even months. It should be spread evenly over the ground and here again the spreader will come into good use.

METHOD OF SHELLING CORN.

Simple Device Which Will Do Rapid and Thorough Work.

Where one does not have a regular sheller the best method of shelling corn that I have seen is to drive the edge of a fence plank full of nails, letting the heads extend out one-half or three-fourths of an inch. The plank



Way Sheller is Made.

can be laid across a tub or box and used as a seat, says Prairie Farmer, and the corn be shelled very rapidly by rubbing across it.

RURAL JOTTINGS.

Every question that is pertinent to one man is most likely impertinent to another.

With prices for nitrogen going up the thing to do is to put down more seed of clover and peas.

The more crooked people are in their dealings with you, the straighter you should try to be. If nothing else pays the contrast will.

A farmer writes us that they got in their hay on the eight-hour system—that is, eight hours before dinner and eight hours after.

No human power can help a farmer who, at this season has no vegetable except potatoes. We can pick any of 15 things from the garden at any time. What do people live in the country for?

TEACHERS PLAY HOOKEY

FEMALES "CUT" INSTITUTE TO VISIT THE ATTRACTIVE SKATING RINK.

TWO ARE DENOUNCED IN PUBLIC

Checks Not Won by Attendance Passed in by Friends of Revelers—Other Teachers Kiss the Big Boys.

St. Louis, Mo., Oct. 29.—The lure of the skating rink has proven the downfall of two St. Louis county schoolm'ams. They cut the County Teachers' association to give slow time a lively chase on rollers, and, when their present terms expire, they will probably have unlimited time for skating.

The association, held in Webster Groves, adjourned Saturday, after continuing since Thursday. Teachers are required to attend unless excused by the county superintendent. Each teacher is given a certificate of attendance for each half day, and must pass them in to show that he or she has attended all the sessions.

Supt. Andrae suspected that two teachers had passed their certificates to other teachers to be handed in. Investigation confirmed this suspicion, and Saturday morning he called the two young women before him and asked for explanations. They confessed that their love for the roller rink had led them to play "hookey."

Before the session closed, Andrae publicly censured the two, and hinted that when their present terms of service expire they will find it hard to get new teachers' certificates from him.

"Teachers who would play truant themselves and practice deceit in so doing are hardly proper persons to have charge of building the characters of young children," said Andrae to a reporter after adjournment.

"We have had trouble from this evasion of duty by teachers in previous associations, but we have never before had absolute proof against any one."

At the closing session Principal Richmond, of Clayton, who Thursday accused certain county teachers of kissing the big boys and drinking toddy, addressed the assembly, remarking, "We have made mistakes, but our intentions have been of the best."

F. M. Carter, of Jefferson City, secretary of the State Teachers' association and inspector of rural schools for the state department of education, addressed the meeting Saturday morning and presented the subject of "Consolidation of Rural Schools and Establishment of Rural High Schools."

"The two paramount educational issues in Missouri today," Mr. Carter said, "are the articulation of rural schools with high schools and county school supervision. Rural high schools are a success and provision must be made for transporting pupils to and from school at public expense. This has been done in many states and is wholly successful, and actual figures prove that the expense is less than maintaining separate schools in widely scattered districts."

CAN'T HANDLE THE TRAFFIC

Heavy Fall Trade Overworks All the Railroads.

New York, Oct. 26.—R. G. Dun & Co.'s Weekly Review of Trade today says:

Trade reports are irregular, the events of the week in this city tending to cause conservatism in preparation for the future, but current retail trade is active throughout the nation, and the leading industries maintain active machinery at most plants.

An encouraging sign is the absence of cancellations. Transporters are unable to handle promptly all the freight offered and railway earnings in October thus far surpass last year by 6.8 per cent.

Situation Well in Hand.

New York, Oct. 26.—Bradstreet's today says:

The financial situation at New York, generally speaking, seems to be well in hand; the New York banks under courageous and experienced leadership are meeting conditions as they arise.

The recent decline in prices of cereals and cotton have encouraged foreign demand for the country's products; the holdings of cotton, a great exchange-making medium, is showing some signs of relaxing, and lowered prices of domestic commodities lead to the hope that the demand of a prosperous country, affected by the unduly high level of some commodities, will revive.
